Section VI- Health Hazards and Hazard Data (continued)

2. Effects of Chronic Exposure
A composite mixture of oxidative dyes has been tested in prolonged topical exposure studies of laboratory animals. No adverse effects on growth, reproduction or general health were observed. These results show that these ingredients pose no carcinogenic hazard to humans under normal conditions of exposure. In topical studies, other than limited effect of treated skin, no target organ toxicity was observed in respect to any organ.

3. Carcinogen Status:
OSHA: No  NTP: No  IARC: No

4. Route of Entry:
Inhalation: No   Ingestion: Yes   Skin: Yes

5. Pre-existing dermatitis would likely be made worse by exposure to these products. Bronchitis may be aggravated by irritant vapors.

6. Emergency and First Aid Procedures

Eye Contact:
Remove contact lenses. Flush immediately with plenty of water for 15 minutes. Get medical attention IMMEDIATELY.

Skin Contact:
If spilled, wash skin immediately with soap and water (do not use solvents). Change into clean clothing. If skin irritation or sensitization develops, contact dermatologist.

Inhalation:
Remove person to fresh air. Increase ventilation.

Ingestion:
Rinse out mouth with water and administer large amounts of milk. Contact Poison Control Center.

Section VII - Precautions for Safe Handling and Use

Steps to be taken in Case Material is released or Spilled:
Contain spill and promptly clean up. Flush with water and wipe with towel or rinse to drain. Floor can be slippery when wet.

Waste Disposal Method:
Products covered by this MSDS, in their original form, are considered non-hazardous waste according to RCRA. Additionally, disposal should be in accordance with all applicable Local, State and Federal regulations.

Precautions to be Taken in Handling and Storage:
Do not expose to sunlight. Keep away from radiators and heat. Do not store any hair color after it has been mixed with developer. Decomposition of hydrogen peroxide may occur with increase in pressure and possible container rupture.

Section VIII - Control Measures

Ventilation:
Exhaust system ventilation should be adequate to avoid buildup of vapors.

Hand Protection:
Use impervious gloves to avoid possible skin irritation/sensitization.

Eye Protection:
Avoid contact with eyes. Use protective eyewear, if splashing is possible.

Other Types of Protection:
Not applicable.

Respiratory Protection:
Avoid inhalation.

Work Hygienic Practices:
Always follow good hygienic work practices. Avoid all skin, eye, and clothing contact with products. In case of contact, rinse thoroughly with water. Promptly clean up all spills.
