MATERIAL SAFETY DATA SHEET
MSDS F-143     REVISION 5

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

The Dial Corporation  Medical Emergencies:  1-888-689-9082
15101 N. Scottsdale Road  Chemtrec:   1-800-424-9300 (24 Hours Daily)
Scottsdale, Arizona 85254-9934  Other Information:   1-888-468-6673

PRODUCT:   Classic and Ultra Dry Detergents - NPE Free   DATE OF ISSUE: July 24, 2007

TRADE NAMES/SYNONYMS:    Dry Purex® Classic All Temperature Laundry Detergent
                          Dry Purex® Classic All Temperature Laundry Detergent with Bleach Alternative
                          Dry Purex® Ultra Laundry Detergent
                          Dry Purex® with Color Safe Bleach Ultra Laundry Detergent
                          Dry Purex® Ultra Laundry Detergent—For Bucket Production (Summit Advantage)
                          Dry Trend® Classic All Temperature Laundry Detergent
                          Dry Trend® Classic All Temperature Laundry Detergent with Bleach Alternative
                          Dry Trend® Ultra All Temperature Laundry Detergent
                          Dry Trend® Ultra All Temperature Laundry Detergent with Bleach Alternative
                          Ultra Purex® Dry Detergent Plus Renuzit Odor Neutralizer
                          Classic Purex® Dry Detergent (Overspray) Plus Renuzit Odor Neutralizer
                          Refer to Section 16 for Specific Trade Names

CHEMICAL FAMILY:  Mixture

I.D. NUMBERS:  Refer to Section 16 for Specific I.D. Numbers

SECTION 2: HAZARD IDENTIFICATION

EMERGENCY OVERVIEW

CAUTION:  This product is a colored or white granular material with mild odor. Direct contact with eyes may cause
severe irritation. Repeated or prolonged excessive exposure with skin may cause with redness, blistering, skin damage
or dermatitis. Keep out of reach of children. No significant environmental effects. Not a fire hazard. Product is stable.

This product is labeled in accordance with regulations administered by the Consumer Product Safety Commission.
The use pattern and exposure in the workplace are generally not consistent with those experienced by consumers.
The requirements of the Occupational Safety and Health Administration applicable to this Material Safety Data Sheet
differ from the requirements of the CPSC and as a result, this MSDS may contain additional health hazard information
not pertinent to consumer use and not found on the product label.

REGULATORY STATUS

While this product is not considered to be hazardous under OSHA’s Hazard Communication Standard (29 CFR
1900.1200), this MSDS includes valuable information that is critical for safe handling and proper use of this product.
This MSDS should be retained and available for employees and other users of this product.

POTENTIAL HEALTH EFFECTS

NOTE:  The acute health effects described below are those which could potentially occur for the finished product.
They are based on the toxicology information available for the finished product and/or each hazardous ingredient, and
are consistent with the product type and the likelihood of a specific route of exposure. Known chronic health effects
related to exposure to a specific ingredient are indicated.

EYE CONTACT:  Direct contact with dusts may cause severe irritation with redness, pain, blurred vision, and
possibly corneal injury.

SKIN CONTACT:  Repeated or prolonged excessive exposure may cause severe irritation with redness, blistering,
skin damage or dermatitis.
INGESTION: Ingestion of large quantities may cause gastrointestinal irritation with nausea, vomiting, diarrhea and lethargy.

INHALATION: Dust may cause mucous membrane irritation with coughing and shortness of breath. Direct contact with mucous membranes may result in burns.

CHRONIC HEALTH EFFECTS: None known.

MEDICAL CONDITIONS GENERALLY RECOGNIZED AS BEING AGGRAVATED BY EXPOSURE: Persons with history of chronic skin conditions.

POTENTIAL ENVIRONMENTAL EFFECTS
See Section 12: Ecological Information.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

Based on our hazard evaluation, the following chemical substance(s) in this product have been identified as hazardous.

<table>
<thead>
<tr>
<th>INGREDIENT</th>
<th>CAS NUMBER</th>
<th>PERCENT (w/w)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sodium Chloride</td>
<td>7647-14-5</td>
<td>30 – 60 %</td>

<td>15630-89-4</td>
<td>1 – 5 %</td>
</tr>
</tbody>
</table>

SECTION 4: FIRST AID MEASURES

EYES: Immediately rinse eyes with plenty of water for at least 15 minutes, occasionally lifting upper and lower lids, until no evidence of product remains. Get medical attention if pain or irritation persist.

SKIN: Rinse affected area with large amounts of water until no evidence of product remains. Get medical attention if irritation persists.

INGESTION: Treat symptomatically and supportively. Maintain airway and respiration. If vomiting occurs, keep head below hips to prevent aspiration. Dilution by rinsing the mouth and giving water or milk to drink is generally recommended. If unconscious, the victim should not be given anything to drink. Contact physician or local poison control center.

INHALATION: Immediately remove from exposure area to fresh air. Keep affected person warm and at rest. Treat symptomatically and supportively. Contact physician or local poison control center. If breathing has stopped, give artificial respiration, and get medical attention immediately.

NOTE TO PHYSICIAN: The physician’s judgment should be used to control symptoms and clinical condition based on the individual reactions of the patient.

SECTION 5: FIRE FIGHTING MEASURES

FLAMMABLE PROPERTIES

OSHA FLAMMABILITY CLASSIFICATION: Not applicable
FLASH POINT: None
UPPER FLAMMABILITY LIMIT: Not applicable
LOWER FLAMMABILITY LIMIT: Not applicable
AUTO-IGNITION TEMPERATURE: Not applicable

FIRE AND EXPLOSION HAZARD: The fire hazard for this product has not been determined. The hazard(s) of the component(s) with the most severe hazard(s) are:
Slight fire hazard when exposed to heat or flame. Dust-air mixtures may ignite or explode.
This product may contain a component which is an oxidizer. Oxidizers decompose, especially when heated, to yield oxygen or other gases which will increase the burning rate of combustible matter. Contact with easily oxidizable, organic, or other combustible materials may result in ignition, violent combustion or explosion.

HAZARDOUS DECOMPOSITION PRODUCTS: Oxides of sulfur, oxides of carbon and hydrogen sulfide.

EXTINGUISHING MEDIA
Dry chemical, carbon dioxide, water spray or regular foam.

PROTECTION OF FIREFIGHTERS
In case of fire, wear a full-face positive-pressure self-contained breathing apparatus and protective suit. Move container from fire area if you can do it without risk. Apply cooling water to sides of containers that are exposed to flames until well after fire is out. Use flooding amounts of water as a fog, solid streams may be ineffective. Avoid breathing vapors; keep upwind.

SECTION 6: ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS
Wear skin, eye and respiratory protection as recommended in Section 8. Stop or reduce any leaks if it is safe to do so. Spills present a slipping hazard. Keep unnecessary personnel away. Ventilate spill area if possible. Ensure clean-up is conducted by trained personnel only. Make sure area is slip-free before re-opening to traffic.

ENVIRONMENTAL PRECAUTIONS
Small or household quantities may be disposed in sewer or other liquid waste system. For larger quantities check with your local water treatment plant.

METHODS FOR CONTAINMENT AND CLEAN UP
SMALL SPILLS: Sweep or scoop up and place into suitable clean, dry containers for reclamation or later disposal. Wash site of spillage thoroughly with water. LARGE SPILLS: Sweep or scoop up. Dispose in suitable waste container. Keep unnecessary people away from spill.

SECTION 7: HANDLING AND STORAGE

HANDLING:
Do not get in eyes, on skin, on clothing. Do not take internally. Use with adequate ventilation. Avoid generating aerosols and mists. Keep the containers closed when not in use. Have emergency equipment (for fires, spills, leaks, etc.) readily available.

STORAGE:
Store in original containers in a cool dry area. Store away from excessive heat and incompatible substances. Storage areas for large quantities (warehouse) should be well ventilated. Keep the containers tightly closed when not in use.

SECTION 8: EXPOSURE CONTROL / PERSONAL PROTECTION

This product is a laundry care product. The use of this product by consumers is safe under normal and reasonable foreseen use. The information provided below refers to the occupational settings.

WORKER EXPOSURE LIMITS
The following exposure limits exist for the ingredients listed below. The TLV-TWA is the ACGIH Threshold Limit Value – Time Weighted Average. PEL-TWA is the OSHA Permissible Exposure Limit.

<table>
<thead>
<tr>
<th>INGREDIENT</th>
<th>CAS NUMBER</th>
<th>EXPOSURE LIMIT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Detergent Dust.</td>
<td>Particles Not</td>
<td>TLV-TWA: 10 mg/m$^3$ (inhalable), 3 mg/m$^3$ (respirable); PEL-TWA: 15 mg/m$^3$ (total dust), 5 mg/m$^3$ (respirable fraction)</td>
</tr>
<tr>
<td>Otherwise Specified</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

ENGINEERING CONTROLS: Provide local exhaust or general dilution ventilation to keep potential exposure to airborne contaminants as low as possible.

RESPIRATOR: Air contamination monitoring should be carried out where dusts are likely to be generated, to assure that the employees are not exposed to airborne contaminants above the permissible exposure limits. If respiratory protection

The Dial Corporation • Center For Innovation • 15101 N. Scottsdale Rd • Scottsdale, AZ 85254
Page 3 of 7
is required, it must be based on the contamination levels found in the workplace, must not exceed the working limits of the respirator and be jointly approved by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration (NIOSH-MSHA).

FOR FIRE FIGHTING AND OTHER IMMEDIATELY DANGEROUS TO LIFE OR HEALTH CONDITIONS: Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode. Any supplied-air respirator that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode in combination with an auxiliary self-contained breathing apparatus operated in pressure demand or other positive-pressure mode.

CLOTHING: Protective clothing is required where repeated or prolonged skin contact may occur.

GLOVES: Chemical-resistant gloves are required where repeated or prolonged skin contact may occur.

EYE/FACE PROTECTION: Safety glasses are required to prevent eye contact where dusty conditions are anticipated.

**SECTION 10: STABILITY AND REACTIVITY**

| CHEMICAL STABILITY: | Stable under normal ambient temperature (70 °F, 21 °C) and pressure (1 atm). |
| CONDITIONS TO AVOID: | Avoid storing in direct sunlight and avoid extremes of temperature. |
| INCOMPATIBLE MATERIALS: | Strong oxidizers and reducing agents. |
| HAZARDOUS DECOMPOSITION PRODUCTS: | Thermal decomposition products may include toxic oxides of sulfur and carbon, and hydrogen sulfide. |
| POSSIBILITY OF HAZARDOUS REACTIONS: | Polymerization does not occur under normal temperatures and pressures. |

**SECTION 11: TOXICOLOGICAL INFORMATION**

PRODUCT INFORMATION SUMMARY: This product is a laundry care product. The use of this product by consumers is safe under normal and reasonable foreseen use. Direct contact with eyes may cause irritation, with possibility of corneal injury if not removed promptly. It may be harmful if swallowed. Repeated or prolonged excessive exposure with skin can result in defatting and drying which may result in irritation and dermatitis.

COMPONENT ANALYSIS: The following toxicity information is for the hazardous ingredient(s) when used as technical grade and is provided as reference for the occupational settings.

ACUTE DERMAL TOXICITY
Sodium Chloride > 10,000 mg/kg (rabbit) Non-hazardous

SENSITIZATION: This product is not considered a skin or respiratory sensitizer.

CARCINOGENICITY: None of the ingredients in this product are listed as carcinogens by the International Agency for Research on Cancer (IARC), the National Toxicology Program (NTP) or the Occupational Safety and Health Administration (OSHA).

MUTAGENICITY: None of the ingredients in this product are known to cause mutagenicity.

REPRODUCTIVE/FETAL/DEVELOPMENTAL TOXICITY: None of the ingredients in this product are known as reproductive, fetal, or developmental hazards.

TARGET ORGAN TOXICITY: None of the ingredients in this product are known to have target organ toxicity.

EPIDEMIOLOGICAL INFORMATION: None of the ingredients in this product are known to have health-related information in working populations.

SECTION 12: ECOLOGICAL INFORMATION

This product is anticipated to be safe for the environment at concentrations predicted in household settings under normal use conditions. The following toxicity information is available for the hazardous ingredient(s) when used as technical grade and is provided as reference for the occupational settings.

ENVIRONMENTAL FATE: No environmental fate data exists for the product. The product is anticipated to be rapidly biodegradable.

PERSISTENCE AND DEGRADABILITY: The persistence and degradability of this product has not been determined.

BIOACCUMULATION POTENTIAL: The bioaccumulation potential of this product has not been determined.

MOBILITY: The mobility of this product (in soil and water) has not been determined.

SECTION 13: DISPOSAL CONSIDERATIONS

WASTE NUMBER AND DESCRIPTION: Not applicable, not regulated.

DISPOSAL CONSIDERATIONS: This product is not a RCRA hazardous waste and can be disposed of in accordance with federal, state and local regulations.

SECTION 14: TRANSPORT INFORMATION

GROUND TRANSPORT
DOT Hazard Class: Not regulated Packing Group: Not applicable
SECTION 15: REGULATORY INFORMATION

UNITED STATES:

OSHA HAZARD COMMUNICATION RULE, 29 CFR 1910.1200:
The Occupational Safety and Health Administration requires Material Safety Data Sheets to provide any hazards that may be associated with the product, and make this information available in the workplace. Since the use pattern and exposure in the workplace are generally not consistent with those experienced by consumers, this MSDS may contain additional health hazard information not pertinent to consumer use.

EPA - SARA TITLE III SECTION 313: This product contains no materials reportable under this section.

EPA CERCLA/SARA TITLE III SUPERFUND AMENDMENT AND REAUTHORIZATION ACT:
This product contains no CERCLA/SARA Title III materials. This product contains no hazardous chemicals reportable under Sections 311/312. This product contains no hazardous chemicals reportable under Section 304.

TSCA: All components of this product are listed on U.S. Toxic Substances Control Act (TSCA) chemical substance inventory.

STATE REGULATIONS
CALIFORNIA PROPOSITION 65: This product does not contain substances listed under California Proposition 65.

CANADA:

CANADIAN ENVIRONMENTAL PROTECTION ACT:
INVENTORY STATUS: Some components of this product are not listed on the Canadian Domestic Substances List (DSL) nor the NDSL.

WORKER HAZARDOUS MATERIALS INFORMATION SYSTEM:
WHMIS CLASSIFICATION: Not subject to classification.

SECTION 16: OTHER INFORMATION
