Section 2 -- COMPOSITION/INFORMATION ON INGREDIENTS

% by WT       CAS No.  INGREDIENT             UNITS          VAPOR PRESSURE

0.6     14464-46-1  Cristobalite
            ACGIH TLV  0.05 mg/m3 as Resp. Dust
            OSHA PEL  0.05 mg/m3 as Resp. Dust

14     1332-58-7  Kaolin
            ACGIH TLV  2 mg/m3 as Resp. Dust
            OSHA PEL  10 mg/m3 Total Dust
            OSHA PEL  5 mg/m3 Respirable Fraction

5       471-34-1  Calcium Carbonate
            ACGIH TLV  10 mg/m3 as Dust
            OSHA PEL  15 mg/m3 Total Dust
            OSHA PEL  5 mg/m3 Respirable Fraction

18     13463-67-7  Titanium Dioxide
            ACGIH TLV  10 mg/m3 as Dust
            OSHA PEL  10 mg/m3 Total Dust
            OSHA PEL  5 mg/m3 Respirable Fraction

Section 3 -- HAZARDS IDENTIFICATION

ROUTES OF EXPOSURE
INHALATION of vapor or spray mist.
EYE or SKIN contact with the product, vapor or spray mist.

Continued on page 2
EFFECTS OF OVEREXPOSURE
  EYES: Irritation.
  SKIN: Prolonged or repeated exposure may cause irritation.
  INHALATION: Irritation of the upper respiratory system.
              In a confined area vapors in high concentration may cause headache,
              nausea or dizziness.
SIGN AND SYMPTOMS OF OVEREXPOSURE
  Redness and itching or burning sensation may indicate eye or excessive
  skin exposure.
MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE
  May cause allergic skin reaction in susceptible persons or skin
  sensitization.
CANCER INFORMATION
  For complete discussion of toxicology data refer to Section 11.

Section 4 -- FIRST AID MEASURES

  EYES: Flush eyes with large amounts of water for 15 minutes.
         Get medical attention.
  SKIN: Wash affected area thoroughly with soap and water.
         Remove contaminated clothing and launder before re-use.
  INHALATION: If affected, remove from exposure. Restore breathing.
              Keep warm and quiet.
  INGESTION: Do not induce vomiting.
              Get medical attention immediately.

<td></td>
<td></td>
</tr>
</tbody>
</table>
  Closed containers may explode (due to the build-up of pressure) when
  exposed to extreme heat.
  During emergency conditions overexposure to decomposition products may
  cause a health hazard. Symptoms may not be immediately apparent. Obtain
  medical attention.
| SPECIAL FIRE FIGHTING PROCEDURES |
  Full protective equipment including self-contained breathing apparatus
  should be used.
  Water spray may be ineffective. If water is used, fog nozzles are
  preferable. Water may be used to cool closed containers to prevent
  pressure build-up and possible autoignition or explosion when exposed to
  extreme heat.

Section 7 -- HANDLING AND STORAGE

STORAGE CATEGORY
Not Applicable

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE
Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not take internally. Keep out of the reach of children.

Section 8 -- EXPOSURE CONTROLS/PERSONAL PROTECTION

PRECAUTIONS TO BE TAKEN IN USE
Use only with adequate ventilation.
Avoid contact with skin and eyes. Avoid breathing vapor and spray mist. Wash hands after using.

This coating may contain materials classified as nuisance particulates (listed "as Dust" in Section 2) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section 2, the applicable limits for nuisance dusts are ACGIH TLV 10 mg/m³ (total dust), 3 mg/m³ (respirable fraction), OSHA PEL 15 mg/m³ (total dust), 5 mg/m³ (respirable fraction).

VENTILATION
Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section 2 is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

RESPIRATORY PROTECTION
If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in Section 2.

When sanding or abrading the dried film, wear a dust/mist respirator approved by NIOSH/MSHA for dust which may be generated from this product, underlying paint, or the abrasive.

PROTECTIVE GLOVES
Wear gloves which are recommended by glove supplier for protection against materials in Section 2.

EYE PROTECTION
Wear safety spectacles with unperforated sideshields.

Section 10 -- STABILITY AND REACTIVITY

STABILITY -- Stable
CONDITIONS TO AVOID
   None known.
INCOMPATIBILITY
   None known.
HAZARDOUS DECOMPOSITION PRODUCTS
   By fire: Carbon Dioxide, Carbon Monoxide
HAZARDOUS POLYMERIZATION
   Will not occur

Section 11 -- TOXICOLOGICAL INFORMATION

CHRONIC HEALTH HAZARDS
   Crystalline Silica (Quartz, Cristobalite) is listed by IARC and NTP. Long term exposure to high levels of silica dust, which can occur only when sanding or abrading the dry film, may cause lung damage (silicosis) and possibly cancer.
   IARC's Monograph No. 93 reports there is sufficient evidence of carcinogenicity in experimental rats exposed to titanium dioxide but inadequate evidence for carcinogenicity in humans and has assigned a Group 2B rating. In addition, the IARC summary concludes, "No significant exposure to titanium dioxide is thought to occur during the use of products in which titanium is bound to other materials, such as paint."

Section 13 -- DISPOSAL CONSIDERATIONS

WASTE DISPOSAL METHOD
Waste from this product is not hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.
Incinerate in approved facility. Do not incinerate closed container.
Dispose of in accordance with Federal, State/Provincial, and Local regulations regarding pollution.

Section 14 -- TRANSPORT INFORMATION

US Ground (DOT)
Not Regulated for Transportation.

Canada (TDG)
Not Regulated for Transportation.

IMO
Not Regulated for Transportation.

TSCA CERTIFICATION
All chemicals in this product are listed, or are exempt from listing, on the TSCA Inventory.

Section 16 -- OTHER INFORMATION

This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

The above information pertains to this product as currently formulated, and is based on the information available at this time. Addition of reducers or other additives to this product may substantially alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.
