FLYSECT SUPER C REPELLENT CONCENTRATE

Protective Equipment Summary - Hazard Label Information:
Safety shower in work area
OXY - Oxidizer

Respiratory Equipment (Specify Type)
A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.

Eye Protection
Goggles, face shield, safety glasses

Protective Gloves
Rubber or neoprene gloves.

Other Protective Clothing
Clothes to prevent skin contact.

Engineering Controls (Ventilation etc.)
Good general ventilation should be sufficient to control airborne levels.

Work/Hygienic/Maintenance Practices
Eye wash stations should be available. Wash hands before eating, smoking, or using restroom.
