4. FIRST AID MEASURES

Eye Contact  
In case of contact with substance, immediately flush skin or eyes with running water for at least 20 minutes. Consult a physician.

Skin Contact  
Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. If symptoms persist, call a physician.

Inhalation  
Move victim to fresh air. Administer oxygen if breathing is difficult. Apply artificial respiration if victim is not breathing. If symptoms persist, call a physician.

Ingestion  
If swallowed, get medical help or contact a Poison Control Center right away. Do NOT induce vomiting. Rinse mouth. Drink plenty of water. Never give anything by mouth to an unconscious person.

Notes to Physician  
Keep victim warm and quiet. Effects of exposure (inhalation, ingestion or skin contact) to substance may be delayed.

Protection of First-aiders  
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.

5. FIRE-FIGHTING MEASURES

Flammable Properties  
Combustible material: may burn but does not ignite readily. Contact with metals may evolve flammable hydrogen gas. Containers may explode when heated.

Flash Point  
Not determined.

Suitable Extinguishing Media  
Dry chemical, CO₂, alcohol-resistant foam or water spray. Move containers from fire area if you can do it without risk. Dike fire control water for later disposal; do not scatter the material.

Explosion Data  
Sensitivity to Mechanical Impact  
None

Sensitivity to Static Discharge  
None

Specific Hazards Arising from the Chemical  
When heated, vapors may form explosive mixtures with air: indoors, outdoors, and sewers explosion hazards. Runoff may pollute waterways.

Protective Equipment and Precautions for Firefighters  
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Environmental Precautions
Prevent entry into waterways, sewers, basements or confined areas.

Methods for Containment
Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.

Methods for Cleaning Up
Cover liquid spill with sand, earth or other noncombustible absorbent material. Sweep up and shovel into suitable containers for disposal.

7. HANDLING AND STORAGE

Handling
Wear personal protective equipment. Avoid contact with skin and eyes. Remove and wash contaminated clothing before re-use. Do not eat, drink or smoke when using this product.
