Material Safety Data Sheet

1. Chemical product and company identification

Product name: BP Select 5W-20
MSDS #: 465366
Historic MSDS #: 0000003264
Code: 465366-US12
Product use: Engine oils. For specific application advice see appropriate Technical Data Sheet or consult our company representative.

Manufacturer: BP Lubricants USA Inc.
1500 Valley Road
Wayne, NJ 07470
Telephone: (973) 633-2200
Telecopier: (973) 633-7475

EMERGENCY HEALTH INFORMATION:
1 (800) 447-8735
Outside the US: +1 703-527-3887 (CHEMTREC)

EMERGENCY SPILL INFORMATION:
1 (800) 424-9300 CHEMTREC (USA)

OTHER PRODUCT INFORMATION
1 (866) 4 BP - MSDS (866-427-6737 Toll Free - North America)
email: bpcares@bp.com

2. Composition/information on ingredients

<table>

3. Hazards identification

Physical state: Liquid.
Color: Not available.
Emergency overview: CAUTION!
MAY CAUSE EYE IRRITATION.
MAY CAUSE SKIN IRRITATION.
MAY CAUSE RESPIRATORY TRACT IRRITATION.

Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep container closed.
Use with adequate ventilation. Wash thoroughly after handling. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.

Routes of entry: Dermal contact. Eye contact. Inhalation. Ingestion.

Potential health effects:
- **Eyes**: May cause eye irritation.
- **Skin**: May cause skin irritation. Prolonged or repeated contact can defat the skin and lead to irritation and/or dermatitis.
- **Inhalation**: May cause respiratory tract irritation.
- **Ingestion**: Ingestion may cause gastrointestinal irritation and diarrhea.
4. First aid measures

**Eye contact**
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.

**Skin contact**
Immediately wash exposed skin with soap and water. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention if irritation develops.

**Inhalation**
If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

**Ingestion**
Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear. If large quantities of this material are swallowed, call a physician immediately.

5. Fire-fighting measures

**Flammability of the product**
May be combustible at high temperature.

**Flash point**
\(>198.8^\circ\text{C (Open cup)}\) Cleveland.

**Products of combustion**
These products are carbon oxides, nitrogen oxides (NO, NO\(_2\) etc.), sulfur oxides (SO\(_2\), SO\(_3\) etc.) and Zinc oxide.

**Unusual fire/explosion hazards**
This material is not explosive as defined by established regulatory criteria.

**Fire-fighting media and instructions**
In case of fire, use water fog, foam, dry chemicals, or carbon dioxide. Do not use water jet.

**Protective clothing (fire)**
Fire-fighters should wear positive pressure self-contained breathing apparatus (SCBA) and full turnout gear.

6. Accidental release measures

**Personal precautions**
Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (See Section: "Exposure controls/personal protection"). Follow all fire fighting procedures (See Section: "Fire-fighting measures").

**Environmental precautions and clean-up methods**
If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal. Avoid contact of spilled material with soil and prevent runoff entering surface waterways. See Section 13 for Waste Disposal Information.

**Personal protection in case of a large spill**
Chemical splash goggles. Chemical resistant protective suit. Boots. Chemical resistant gloves. Vapor respirator or a self-contained breathing apparatus. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

CAUTION: The protection provided by air-purifying respirators is limited. Use a positive pressure air-supplied respirator if there is any potential for an uncontrolled release, if exposure levels are not known, or if concentrations exceed the protection limits of air-purifying respirator.
7. Handling and storage

Handling
Avoid contact with skin and clothing. Avoid prolonged or repeated contact with skin. Avoid contact with eyes. Use only with adequate ventilation. Avoid breathing vapor or mist. Wash thoroughly after handling.

Storage
Keep container tightly closed. Keep container in a cool, well-ventilated area. Empty containers may contain harmful, flammable/combustible or explosive residue or vapors. Do not cut, grind, drill, weld, reuse or dispose of containers unless adequate precautions are taken against these hazards.

Sulfur compounds in this material may decompose when heated to release hydrogen sulfide gas which may accumulate to potentially lethal concentrations in enclosed air spaces. Vapor concentrations of hydrogen sulfide above 50 ppm, or prolonged exposure at lower concentrations, may saturate human odor perceptions so that the smell of gas may not be apparent. Exposure to concentrations of hydrogen sulfide vapor above 500 ppm may cause rapid death. Do not rely on the sense of smell to detect hydrogen sulfide.

8. Exposure controls/personal protection

Occupational exposure limits

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>Occupational exposure limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Base oil - highly refined</td>
<td>ACGIH (United States).</td>
</tr>
<tr>
<td></td>
<td>TWA: 5 mg/m³ 8 hour(s). Form: Oil mist, mineral</td>
</tr>
<tr>
<td></td>
<td>STEL: 10 mg/m³ 15 minute(s). Form: Oil mist, mineral</td>
</tr>
<tr>
<td></td>
<td>OSHA (United States).</td>
</tr>
<tr>
<td></td>
<td>TWA: 5 mg/m³ 8 hour(s). Form: Oil mist, mineral</td>
</tr>
</tbody>
</table>

Some states may enforce more stringent exposure limits.

Control Measures
Provide exhaust ventilation or other engineering controls to keep the relevant airborne concentrations below their respective occupational exposure limits. Ensure that eyewash stations and safety showers are close to the work-station location.

Hygiene measures
Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

Personal protection

Eyes
Avoid contact with eyes. Chemical splash goggles.

Skin and body
Avoid contact with skin and clothing. Wear suitable protective clothing.

Respiratory
Use only with adequate ventilation. In accordance with good industrial hygiene and safety work practices, airborne exposures should be controlled to the lowest extent practicable.

Hands
Wear gloves that cannot be penetrated by chemicals or oil. Recommended: Nitrile gloves.

The correct choice of protective gloves depends upon the chemicals being handled, the conditions of work and use, and the condition of the gloves (even the best chemically resistant glove will break down after repeated chemical exposures). Most gloves provide only a short time of protection before they must be discarded and replaced. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Gloves should therefore be chosen in consultation with the supplier/manufacturer and with a full assessment of the working conditions.

Consult your supervisor or S.O.P. for special handling directions.

Consult local authorities for acceptable exposure limits.
9. Physical and chemical properties

13. Disposal considerations

<table>
<thead>
<tr>
<th>Property</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Waste information</td>
<td>Avoid contact of spilled material and runoff with soil and surface waterways. Consult an environmental professional to determine if local, regional or national regulations would classify spilled or contaminated materials as hazardous waste. Use only approved transporters, recyclers, treatment, storage or disposal facilities. Dispose of in accordance with all applicable local and national regulations. Consult your local or regional authorities.</td>
</tr>
</tbody>
</table>

Product name: BP Select 5W-20
Product code: 465366-US12
Version: 2
Date of issue: 06/26/2007
Format: US
Language: ENGLISH.
14. Transport information
Not classified as hazardous for transport (DOT, TDG, IMO/IMDG, IATA/ICAO)

15. Regulatory information

**U.S. Federal regulations**
- United States inventory (TSCA 8b): All components are listed or exempted.
- TSCA 12(b) annual export notification: Alkylated phenol
- This product is not regulated under Section 302 of SARA and 40 CFR Part 355.

**SARA 313**
- Form R - Reporting requirements
  - This product does not contain any hazardous ingredients at or above regulated thresholds.
- Supplier notification
  - This product does not contain any hazardous ingredients at or above regulated thresholds.
  - CERCLA Sections 102a/103 Hazardous Substances (40 CFR Part 302.4): This material is not regulated under CERCLA Sections 103 and 107.

**State regulations**
- Massachusetts RTK: None of the components are listed.
- New Jersey Hazardous Substances: None of the components are listed.
- Pennsylvania RTK: None of the components are listed.
- California Prop 65: No products were found

**Inventories**
- Canada inventory: All components are listed or exempted.
- Europe inventory: All components are listed or exempted.
- Australia inventory (AICS): All components are listed or exempted.
- China inventory (IECSC): All components are listed or exempted.
- Japan inventory (ENCS): All components are listed or exempted.
- Korea inventory (KECI): All components are listed or exempted.
- Philippines inventory (PICCS): Not determined.

16. Other information

**Label requirements**
- CAUTION!
  - MAY CAUSE EYE IRRITATION.
  - MAY CAUSE SKIN IRRITATION.
  - MAY CAUSE RESPIRATORY TRACT IRRITATION.

**HMIS® Rating**: Health 1, Flammability 1, Physical Hazard 0, Personal protection X
- National Fire Protection Association (U.S.A.)

**History**
- Date of issue: 06/26/2007.
NOTICE : This Material Safety Data Sheet is based upon data considered to be accurate at the time of its preparation. Despite our efforts, it may not be up to date or applicable to the circumstances of any particular case. We are not responsible for any damage or injury resulting from abnormal use, from any failure to follow appropriate practices or from hazards inherent in the nature of the product.
