Can react with alkaline materials or metals. Can emit toxic fumes if mixed
with products containing chlorine or other sanitizing ingredients.
Not a fire hazard.

This product is labeled in accordance with regulations administered by the
Consumer Product Safety Commission (CPSC). However, the use pattern
and exposure in the workplace are generally not consistent with those
experienced by consumers. Protective measures, with the exception of
those indicated on the label, are not normally necessary. Therefore, the
requirements of the Occupational Safety and Health Administration
applicable to this MSDS differ from the labeling requirements of the CPSC,
and this MSDS may contain additional health hazard information not
pertinent to consumer use and not found on the product label; such as
appropriate protective measures to prevent eye and prolonged skin contact
(glasses, goggles, rubber gloves, protective clothing) and minimize
inhalation exposure (engineering controls, NIOSH-approved respiratory protection appropriate for the hazard presented) are recommended.

**Potential Health Effects**

Primary Route(s) of Entry: Eyes, Ingestion

**EYE:** Potential for severe irritation if not treated immediately. Corneal damage on extended exposure.

**SKIN CONTACT:** Varying severities of irritation are possible from prolonged, repeated, or occluded exposure to skin. Contact on a burn or other wound likely to cause stinging pain or irritation. Extended exposure may discolor skin, temporarily.

**INGESTION:** Ingested amounts may cause burning and pain in the mouth and throat with redness and swelling of mucous membranes. May cause pain, vomiting, diarrhea, CNS depression

**INHALATION:** Inhaled mists may cause irritation to the upper respiratory tract.

**SUBCHRONIC EFFECTS/CARCINOGENICITY:** None known. Not classified as carcinogenic by IARC, NTP, OSHA, OR ACGIH or NIOSH.

4. **FIRST AID MEASURES**

**EYES:** Immediately flush eyes with a directed stream of water for at least 15 minutes, forcibly holding eyelids apart to insure complete irrigation of all eye and lid tissues. IF IRRITATION PERSISTS GET MEDICAL ATTENTION.

**SKIN:** Remove contaminated clothing, including footwear. Wash contaminated areas thoroughly with soap and water. Wash clothing before reuse. Do not reuse footwear that is contaminated on the inner surfaces. GET MEDICAL ATTENTION IF IRRITATION DEVELOPS.

**INHALATION:** Immediately move from area of exposure to fresh air. If breathing is difficult have a trained person administer oxygen. If breathing has stopped, have a trained person administer artificial respiration. GET MEDICAL ATTENTION IMMEDIATELY.

**INGESTION:** NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. If ingested, do not induce vomiting. If the patient is conscious and can swallow, first rinse out mouth and then give one or two glasses of water to drink. GET MEDICAL ATTENTION IMMEDIATELY.
