Material Safety Data Sheet

MSDS No: 401183
Version 00.0
Creation Date: 07/14/2010
Revision Date: 00/00/0000

1. PRODUCT AND COMPANY IDENTIFICATION

Product name: Got2b Rockin’ It Dry Shampoo
Product use: Aerosol Hair Styling Aid

Company address: Schwarzkopf & Henkel, Div of Henkel Consumer Goods, 1063 McGaw Ave, Suite 100, Irvine, CA 92614-5506 USA

Contact information: Medical Emergencies: 1-888-689-9082 Chemtrec: 1-800-424-9300 (24 hours daily) Other information: 1-888-468-6673

2. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

CAUTION: Direct contact with eyes may cause irritation. Ingestion of large quantities may be harmful. Repeated or prolonged excessive exposure with skin may cause irritation or dermatitis. Breathing high vapor concentrations may produce anesthetic effects, nausea, dizziness, headache. No significant environmental effects. Product is flammable. Product is stable. Keep out of reach of children.

Regulatory status: This product is considered to be hazardous under OSHA's Hazard Communication Standard (29 CFR 1900.1200). This MSDS includes valuable information that is critical for safe handling and proper use of this product.

Potential Health Effects

Eye contact: It causes moderate-to-severe irritation.
Skin contact: Repeated or prolonged excessive contact may cause irritation or dermatitis.
Ingestion: May be harmful if swallowed. Disulfiram (Antabuse®) reactions such as vomiting, headache, and even collapse, may result from ingestion of small quantities of alcohol and have also been described from skin contact.
Inhalation: Vapors may cause irritation of the nose, throat, and respiratory tract. Breathing high vapor concentrations may produce anesthetic effects, nausea, dizziness, headache. Intentional misuse of product (i.e., huffing) may produce death.

Chronic Health Effects: Due to the nature and composition of this product no subchronic/chronic health effects are anticipated. Nonetheless, chronic oral studies with alcohol in laboratory animals have resulted in liver damage, teratogenicity, embryotoxicity, and fetotoxicity effects.

Existing conditions aggravated by exposure: Pre-existing respiratory conditions such as asthma.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Based on our hazard evaluation, the following chemical substance(s) in this product have been identified as hazardous.

<table>
<thead>
<tr>
<th>Hazardous components</th>
<th>CAS NUMBER</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Butane</td>
<td>106-97-8</td>
<td>60 – 100</td>

<tr>
<td>Alcohol denatured</td>
<td>64-17-5</td>
<td>5 – 10</td>
</tr>
<tr>
<td>Isobutane</td>
<td>75-28-5</td>
<td>1 – 5</td>
</tr>
</tbody>
</table>

4. FIRST AID MEASURES
### 5. FIRE FIGHTING MEASURES

**Flammable properties:**

- **Flash point (Propellant):** <-20°C/<-4°F (CC), 55°F/13°C (Ethyl Alcohol)
- **Flame projection:** None (extinguishes flame)
- **Autoignition temperature:** Not available
- **Flammable/Explosive limits - lower:** 3.3% for Ethyl Alcohol, 1.8% for Isobutane
- **Flammable/Explosive limits - upper:** 19% for Ethyl Alcohol, 9.5% for Isobutane
- **Hazardous combustion products:** Irritating smoke, carbon monoxide, and carbon dioxide.

**Fire and Explosion Hazard**

Dangerous fire hazard when exposed to heat or flame. Aerosol cans may rupture in heat or fire conditions. Vapors are heavier than air and may travel to an ignition source.

**Extinguishing Media**

Dry chemical or carbon dioxide. For larger fires, use water spray, fog or regular foam.

**Protection of Firefighters**

Shut off all ignition sources. Move containers from fire area if you can do it without risk. Apply cooling water to sides of containers that are exposed to flames until well after fire is out. Use flooding amounts of water as fog. Cool product aerosol cans with flooding amounts of water from as far a distance as possible. Avoid breathing vapors; keep upwind. As with any containerized or pressurized chemicals, in the event of overheating or direct flame contact, evacuate the area to minimize hazard of potential explosion.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions:**

Wear skin, eye and respiratory protection as recommended in Section 8. Shut off ignition sources. Stop leak if you can do it without risk. Use water spray to reduce vapors. Isolate area until vapors have dispersed. No smoking, flames or flares in hazard area! Keep unnecessary people away; isolate hazard area and deny entry. Ventilate closed spaces before entering. Stay upwind; keep out of low areas.

**Environmental precautions:**

Small or household quantities may be disposed in regular domestic trash. For larger quantities check with your local disposal authorities.

**Methods for containment and clean up:**

SMALL SPILLS: Contain and absorb with sand or other non-combustible
absorbent material and place into containers for later disposal. Wash site of spillage thoroughly with water. LARGE SPILLS: Dike far ahead of spill to prevent further movement. Recover by pumping or by using a suitable absorbent material and place into containers for later disposal. Dispose in suitable waste container.

7. HANDLING AND STORAGE

Handling:
Do not get in eyes, on skin, on clothing. Do not take internally. Use with adequate ventilation. Keep the containers closed when not in use. Have emergency equipment (for fires, spills, leaks, etc.) readily available.

Storage:
Flammable liquid. Store in original containers in a cool dry area away from incompatible substances, excessive heat, flames, sparks or other ignition sources. Contents are under pressure; containers may violently rupture and travel a considerable distance. Do not store above 120°F. Exposure to sunlight or heat (above 130°F/54°C) may cause bursting. Do not puncture or incinerate. Storage areas for large quantities (warehouse) should be well ventilated. Keep the containers tightly closed when not in use. Observe all federal, state and local regulations when storing or disposing of this substance.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

The use of this product by consumers is safe under normal and reasonable foreseen use. The information provided below refers to the occupational settings.

Worker exposure limits

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
<th>AIHA WEEL</th>
<th>NIOSH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ethanol</td>
<td>TLV-TWA: 1000 ppm (1880 mg/m³)</td>
<td>N/A</td>
<td>N/A</td>
<td>N/A</td>
</tr>
<tr>
<td>Butane, Isobutane, Propane (as aliphatic hydrocarbon gases, alkane C₁ – C₄)</td>
<td>TLV-TWA: 1000 ppm (1800 mg/m³)</td>
<td>N/A</td>
<td>N/A</td>
<td>NIOSH-TWA: 800 ppm (1900 mg/m³)</td>
</tr>
</tbody>
</table>

Engineering controls:
No special engineering controls apply for the finished product. Contact the safety coordinator for any specific ingredient exposure limit that may apply at the occupational settings. Provide local exhaust or general dilution ventilation to keep exposure to airborne contaminants below the permissible exposure limits where mists or vapors may be generated.

Respirator:
Air contamination monitoring should be carried out where mists or vapors are likely to be generated, to assure that the employees are not exposed to airborne contaminants above the permissible exposure limits. If respiratory protection is required, it must be based on the contamination levels found in the workplace, must not exceed the working limits of the respirator and be jointly approved by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration (NIOSH-MSHA).

For fire fighting or other immediately dangerous to life or health conditions:
Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode.

Clothing:
Protective clothing is required where repeated or prolonged skin contact may occur.

Gloves:
Protective gloves are required where repeated or prolonged skin contact may occur.
9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: White
Physical state: Liquid aerosolized spray
Odor: Fresh, citric
Odor threshold: Not available
Boiling point/range: Not available
Evaporation rate: Not available
Melting point/ range: Not available
Partition coefficient (n-octanol/water): Not available
pH: Not applicable
Solubility in water: Miscible
Specific gravity: 0.627 g/cm³
Vapor density: Not available
Vapor pressure: Not available
Viscosity: Water-thin

Flammable properties: See section 5

10. STABILITY AND REACTIVITY

Chemical stability: Stable under normal ambient temperature (70°F, 21°C) and pressure (1 atm).

Conditions to avoid: Avoid contact with incompatible substances, excessive heat, flames or other ignition sources. Exposure to sunlight or heat may cause bursting. Do not permit physical damage or overheating of containers. Do not place aerosol cans in trash compactor. Contents are under pressure; containers may violently rupture and travel a considerable distance.

Incompatible materials: Strong oxidizers and combustible materials.

Hazardous decomposition products: Thermal decomposition may release toxic and/or hazardous gases including oxides of carbon and nitrogen; hydrocarbons and derivatives.

Possibility of hazardous reactions: Hazardous polymerization has not been reported to occur under normal temperatures and pressures.

11. TOXICOLOGICAL INFORMATION

Product information summary: This product is a personal care or cosmetic product. The use of this product by consumers is safe under normal and reasonable foreseen use. Direct contact with eyes may cause irritation. Ingestion of large quantities may be harmful. Repeated or prolonged excessive exposure with skin may cause irritation or dermatitis. Breathing high vapor concentrations may produce anesthetic effects, nausea, dizziness, headache.

Component analysis: The following toxicity information is for the hazardous ingredient(s) when used as technical grade and is provided as reference for the occupational settings.

12. ECOLOGICAL INFORMATION

This product is anticipated to be safe for the environment at concentrations predicted in household settings under normal use conditions. The following toxicity information is available for the hazardous ingredient(s) when used as technical grade and is provided as reference for the occupational settings.

### INGREDIENT

<table>
<thead>

### Environmental Fate:
No environmental fate data exists for the product. The product is anticipated to be rapidly biodegradable.

### Persistence and Degradability:
The product is anticipated to be rapidly biodegradable.

### Bioaccumulation Potential:
The product does not have a bioaccumulation potential.

### Mobility:
The mobility of this product (in soil and water) has not been determined.

13. DISPOSAL CONSIDERATIONS

### Waste number and description:
D001 (ignitable).

### Disposal Considerations

### Disposal of product:
This product is a RCRA hazardous waste and can be disposed of in accordance with federal, state and local regulations.

### Disposal of packages:
Do not reuse this container. Properly deaerosolize any intact containers before disposal. Observe all federal, state and local regulations when storing or disposing of this substance.
14. TRANSPORT INFORMATION

DOT Transportation of Dangerous Goods - Ground
DOT Hazard Class: ORM-D
DOT Proper Shipping Name: Consumer Commodity
Packing Group: II
Shipping Label Information: Miscellaneous 9

Flammable liquid (Liters and smaller are classed as Consumer Commodity ORM-D except when shipped by air).

International Air Transportation (ICAO/IATA)
ICAO/IATA Hazard Class: Consumer Commodity ID 8000
ICAO/IATA Proper Shipping Name: Consumer Commodity

Water Transportation (IMO/IMDG)
IMO/IMDG Hazard Class 2.1
IMO/IMDG Proper Shipping Name: Aerosols UN1950 Limited Quantity

If the quantity being shipped exceeds the Limited quantity or Maximum Net Quantity requirements as stated in IATA/IMDG/DOT/CFR49 and/or is NOT RETAIL Packed the item (s) classification will shift to a more specific proper shipping name and classification. Please refer to IATA/IMDG/DOT/CFR49 regulations and/or contact S&H Transportation representative.

15. REGULATORY INFORMATION

Occupational Safety and Health Act:
Hazard Communication Rule, 29 CFR 1910.1200: The Occupational Safety and Health Administration (OSHA) require Material Safety Data Sheets (MSDSs) to provide information about any hazard that may be associated with the product and make this information available in the workplace. Since the use pattern and exposure in the workplace are generally not consistent with those experienced by consumers, this MSDS may contain health hazard information not relevant to consumer use.

United States Regulatory Information

Food and Drug Administration (FDA):
This product is regulated as a cosmetic under the Food and Drug Administration.

Federal regulations

TSCA 8 (b) Inventory Status:
All components of this product are either listed on or exempt from the U.S. Toxic Substances Control Act (TSCA) chemical substance inventory.
Not applicable

CERCLA/SARA Section 302 EHS:
Not available

CERCLA/SARA Section 311/312:
This product contains no hazardous chemicals reportable under Sections 311/312.

CERCLA/SARA 313:
Not applicable - Consumer product.

State regulations

California Proposition 65:
Ethanol in alcoholic beverages is listed for developmental effects.

Canada Regulatory Information

Canadian Environmental Protection Act:

Inventory Status:
Some components of this product are not listed on the Canadian Domestic
Material Safety Data Sheet

MSDS No: 401183  Creation Date: 07/14/2010
Version 00.0  Revision Date: 00/00/0000

Substances List (DSL) nor the NDSL.

Health Canada:  This product is regulated as a cosmetic product under the Cosmetics Programme.

Worker Hazardous Materials Information System:

WHMIS Classification: Flammable Liquid
