1. Product and Company Identification

Material name 1510 ENVIRO-COAT ZERO-VOC EGGSHELL 222 MEDIUM BASE
Version # 02
Revision date 12-07-2011
CAS # Mixture
Product code 1510-222
Product use Paint.
Manufacturer/Supplier
Kelly-Moore Paint Co., Inc.
Address 987 Commercial St., San Carlos, CA 94070
E-mail: rstetson@kellymoore.com
Telephone number: 1-800-874-4436
E-mail Not available.
Contact person Robert Stetson
Emergency Telephone 1-800-424-9300

2. Hazards Identification

Physical state Liquid.
Appearance Milky white to colored liquid.
Emergency overview WARNING Causes skin, eye and respiratory tract irritation.
OSHA regulatory status This product is hazardous according to OSHA 29 CFR 1910.1200.
Potential health effects Routes of exposure Inhalation. Eye contact. Skin contact.
Eyes Causes eye irritation.
Skin Causes skin irritation.
Inhalation Causes respiratory tract irritation. Prolonged inhalation may be harmful.
Ingestion Ingestion may cause irritation and malaise.
Target organs Central nervous system. Eyes. Respiratory tract. Skin.
Chronic effects Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. Organic solvents may be absorbed into the body by inhalation and cause permanent damage to the nervous system, including the brain.
Signs and symptoms Skin and eye irritation. Respiratory tract irritation. Vapors may cause drowsiness and dizziness.
Potential environmental effects The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

3. Composition / Information on Ingredients

<table>

</tbody>
</table>

Composition comments Components not listed are either non-hazardous or are below reportable limits. All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First Aid Measures

First aid procedures
Eye contact Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention. In case of irritation from airborne exposure, move to fresh air. Get medical attention if symptoms persist.
Skin contact Immediately remove contaminated clothing and shoes and wash skin with soap and plenty of water. Get medical attention. Wash contaminated clothing before reuse.
Inhalation
Move to fresh air. Oxygen or artificial respiration if needed. Get medical attention if any discomfort continues.

Ingestion
Immediately rinse mouth and drink plenty of water. Keep person under observation. If person becomes uncomfortable take to hospital along with these instructions.

Notes to physician
Treat symptomatically.

General advice
If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire Fighting Measures
Flammable properties
The product is not flammable.

Extinguishing media
Suitable extinguishing media
Extinguish with foam, carbon dioxide, dry powder or water fog.

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Protection of firefighters
Protective equipment and precautions for firefighters
Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

6. Accidental Release Measures
Personal precautions
Avoid inhalation of vapors and contact with skin and eyes. Wear appropriate personal protective equipment (See Section 8).

Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not contaminate water.

Methods for containment
Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Prevent entry into waterways, sewer, basements or confined areas.

Methods for cleaning up
Should not be released into the environment.

Large Spills: Absorb in vermiculite, dry sand or earth and place into containers.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Following product recovery, flush area with water.

Never return spills in original containers for re-use. For waste disposal, see section 13 of the MSDS.

7. Handling and Storage
Handling
Provide adequate ventilation. Avoid contact with eyes, skin, and clothing. Avoid breathing vapor. Wear appropriate personal protective equipment. Wash thoroughly after handling. Observe good industrial hygiene practices.

Storage
Store in tightly closed original container in a dry, cool and well-ventilated place. Store away from incompatible materials.

8. Exposure Controls / Personal Protection
Occupational exposure limits
No exposure limits noted for ingredient(s).

Engineering controls
Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

Personal protective equipment
Eye / face protection
Wear approved safety goggles.

Skin protection
Nitrile gloves are recommended, but be aware that the liquid may penetrate the gloves. Frequent change is advisable.

Respiratory protection
Use NIOSH certified, air purifying respirators with N-, P-, or R- series particulate filter and organic vapor cartridges when concentration of vapor or mist exceeds applicable exposure limits. Protection provided by air-purifying respirators is limited. Selection and use of respiratory protective equipment should be in accordance with OSHA General Industry Standard 29 CFR 1910.134. Consult a qualified industrial hygienist or Safety Professional for respirator selection guidance.

General hygiene considerations
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
9. Physical & Chemical Properties

Appearance  Milky white to colored liquid.
Color  Various.
Odor  Slightly ammoniacal.
Odor threshold  Not available.
Physical state  Liquid.
Form  Liquid.
pH  Not available.
Melting point  Not available.
Freezing point  Not available.
Boiling point  Not available.
Flash point  Not available.
Evaporation rate  $< 1$ (n-BuAc=1)
Flammability limits in air, upper, % by volume  Not available.
Flammability limits in air, lower, % by volume  Not available.
Vapor pressure  Not available.
Vapor density  $> 1$ (Air=1)
Specific gravity  Not available.
Solubility (water)  Moderately soluble
Partition coefficient (n-octanol/water)  Not available.
Auto-ignition temperature  Not available.
Decomposition temperature  Not available.

10. Chemical Stability & Reactivity Information

Chemical stability  Material is stable under normal conditions.
Conditions to avoid  Contact with incompatible materials.
Incompatible materials  Strong oxidizing agents. Strong acids.
Possibility of hazardous reactions  Will not occur.

11. Toxicological Information

Acute effects  Causes skin, eye and respiratory tract irritation. In high concentrations, vapors and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea. Ingestion may cause irritation and malaise.
Sensitization  Not a skin sensitizer.
Chronic effects  Prolonged or repeated contact may dry skin and cause dermatitis. Organic solvents may be absorbed into the body by inhalation and cause permanent damage to the nervous system, including the brain.
Carcinogenicity  Potentially carcinogenic components are typically only present in trace amounts. Due to the form of the product, exposure to the potentially carcinogenic components is not expected.

ACGIH Carcinogens
- Aluminium hydroxide (CAS 21645-51-2)  A4 Not classifiable as a human carcinogen.
- Titanium dioxide (CAS 13463-67-7)  A4 Not classifiable as a human carcinogen.

IARC Monographs. Overall Evaluation of Carcinogenicity
- Silica (CAS 61790-53-2)  3 Not classifiable as to carcinogenicity to humans.
- Silicon dioxide (CAS 7631-86-9)  3 Not classifiable as to carcinogenicity to humans.
- Titanium dioxide (CAS 13463-67-7)  2B Possibly carcinogenic to humans.

Further information  Components of the product may be absorbed into the body through the skin.
12. Ecological Information

Ecotoxicity  The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Environmental effects  An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Persistence and degradability  No data is available on the degradability of this product.

Bioaccumulation / Accumulation  No data available.

Mobility in environmental media  The product is miscible with water. May spread in water systems.

Partition coefficient  
(n-octanol/water)  Not available.

13. Disposal Considerations

Waste codes  Not regulated.

Disposal instructions  Do not allow this material to drain into sewers/water supplies. This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste. Dispose in accordance with all applicable regulations.

Waste from residues / unused products  Dispose in accordance with applicable federal, state, and local regulations.

Contaminated packaging  Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport Information

DOT  Not regulated as dangerous goods.

IATA  Not regulated as dangerous goods.

IMDG  Not regulated as dangerous goods.

15. Regulatory Information

US federal regulations  This product is hazardous according to OSHA 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification(40 CFR 707, Subpt. D)  Not regulated.

CERCLA (Superfund) reportable quantity (lbs) (40 CFR 302.4)  None

Superfund Amendments and Reauthorization Act of 1986 (SARA)  

Hazard categories

Immediate Hazard - No
Delayed Hazard - Yes
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard - No

Section 302 extremely hazardous substance (40 CFR 355, Appendix A)  No

Section 311/312 (40 CFR 370)  No
