**Personal protective equipment**

| Eye / face protection                  | Wear safety glasses with side shields. |
|                                      | Emergency responders should wear full eye and face protection. |
| Hand protection                       | Wear impervious gloves where the potential for contact with the liquid is possible. |
|                                      | Emergency responders should wear impermeable gloves. |
| Skin and body protection              | Usual safety precautions while handling the product will provide adequate protection against injury or irritation. |
|                                      | Follow label directions carefully. |
| Respiratory protection                | Not normally required under normal use conditions. |
|                                      | Emergency responders should wear self-contained breathing apparatus (SCBA) to avoid inhalation of vapours generated by this product during a spill or other clean-up operations. |
| General hygiene considerations        | Handle in accordance with good industrial hygiene and safety practice. |
|                                      | When using do not eat or drink. |
|                                      | Washing with soap and water after use is recommended as good hygienic practice to prevent possible eye irritation from hand contact. |

### 12. Ecological Information

**Ecotoxicity**
Because of the low pH of this product, it would be expected to produce significant ecotoxicity upon exposure to aquatic organisms and aquatic systems. Bulk quantities, if spilled, may be toxic to aquatic organisms, fish, birds and mammals. Control and clean up all exterior spills and prevent liquid from entering any streams, rivers, lakes and all other bodies of water.
