MATERIAL SAFETY DATA SHEET

SECTION I – IDENTITY AND RESPONSIBLE PARTY INFORMATION

Responsible Party: Canberra Corporation
Product Name: HUSKY 1229 VANDALISM MARK & STAIN REMOVER

Address: 3610 Holland-Sylvania Rd. Toledo, Ohio 43615
Date Prepared: 04-20-09

Emergency Telephone No. 1-419-841-6616
Prepared By Regulatory Affairs Department

SECTION II – HAZARDOUS INGREDIENTS/IDENTITY INFORMATION

Hazardous Components
Specific Chemical Identity: Common Name(s)
* Dichloromethane
  CAS #: 75-09-2
  WT%: 40-50
  OSHA TWA: 25 ppm
  ACGIH-TWA: 50 ppm
  STEL: 125 ppm

* Tetrachloroethylene
  127-18-4
  8-10
  100 ppm
  25 ppm
  100 ppm

* Toluene
  108-88-3
  1-15
  200 ppm
  50 ppm
  NE

* Propane
  74-98-6
  9-10
  1000 ppm
  1000 ppm
  NE

* n-Butane
  106-97-8
  20-30
  NE
  1000 ppm
  NE

* Propylene Oxide
  75-56-9
  0.1-0.5
  100 ppm
  2 ppm
  NE

* THIS CHEMICAL IS SUBJECT TO THE REPORTING REQUIREMENTS FOR SECTION 313 OF TITLE III OF THE SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT OF 1986 AND 40 CFR Part 372

NFPA RATING - HEALTH: 2 FLAMMABILITY: 3 REACTIVITY: 0 PERSONAL PROTECTION EQPT: H

SECTION III – PHYSICAL / CHEMICAL CHARACTERISTICS

Boiling Point: 102.2°F (est)
Vapor Pressure: 25-35 psig at 70°F
pH: N/A
Solubility in Water: Negligible
Appearance and Fragrance: Wet spray, Chlorinated odor.

SECTION IV – FIRE AND EXPLOSION HAZARD DATA

Aerosol Flammability: Flammable as described by 16 CFR 1500.45.
Extinguishing Media — CO₂/Foam or dry chemical.
Special Fire Fighting Procedures — Containers should be cooled with water to prevent pressure build-up.
Unusual Fire and Explosion Hazards — At elevated temp. (over 54°C-130°F) containers exposed to direct flame or heat contact should be cooled w/water to prevent weakening of container structure.

SECTION V – PHYSICAL HAZARDS

Stability Unstable Conditions to Avoid — Do not store above 54°C-130°F. Keep away from heat, direct sunlight, open flames or sparks.
Stable X
Incompatibility (Materials to Avoid) — Oxidizing agents

SECTION VI – HEALTH HAZARDS

Route(s) of Entry: Inhalation? X Skin? X Ingestion? X Eyes? X
Health Hazards (1. Acute and 2. Chronic) — 1. ACUTE: Harmful if swallowed. Eye and skin irritant. 2. CHRONIC: Chronic exposure to methylene chloride & perchloroethylene has caused liver, kidney and other toxic effects in experimental animals. May cause central nervous system disorder. May cause delayed lung damage.
Chemical Listed as Carcinogen National Toxicology Program Monographs OSHA Table
or Potential Carcinogen
I.A.R.C. Group
Yes X 2A & 2B Yes X
N/A (Not Applicable/Not Available) N/E (Not Established)

SECTION VII – PRECAUTIONS FOR SAFE HANDLING AND USE

Steps to be Taken in Case Material is Released or Spilled — Remove all ignition sources. Ventilate area. Mop up or otherwise absorb and hold for disposal.
Disposal Method — Do not puncture or incinerate containers. Dispose of in accordance with local, state and federal regulations.
Precautions to be Taken in Handling and Storing — Avoid breathing vapors. Keep out of reach of children. For use by trained personnel only. Use with adequate ventilation. Keep away from heat or flame. Store in cool dry place. Other Precautions: Ensure strict sanitary conditions are maintained when using chemicals. Protective clothing & equipment should be in accordance with 29 C.F.R. 1910.1200 of the Occupational Safety and Health Standards Hazard Communication Rule.

Respiratory Protection — If exposure exceeds occupational exposure limits (Sec. II), use a NIOSH approved positive pressure self-contained respirator (SCBA) to prevent exposure.
Ventilation — Provide local exhaust to keep TLV of Section 2 ingredients below acceptable limits.
Local Exhaust — As Required

Other Precautions: Please read & follow the directions on the product label; they are your best guide to using this product in the most effective way, & give the necessary safety precautions to protect your health.

SECTION VIII – CONTROL MEASURES

Respiratory Protection — If exposure exceeds occupational exposure limits (Sec. II), use a NIOSH approved positive pressure self-contained respirator (SCBA) to prevent overexposure. Ventilation: Provide local exhaust to keep TLV of Section 2 ingredients below acceptable limits. Local Exhaust: As Required Protection Gloves: Chemical Resistant Gloves Eye Protection: Chemical Safety glasses recommended. Work/Hygiene Practices: Ensure strict sanitary conditions are maintained when using chemicals. Protective clothing & equipment should be in accordance with 29 C.F.R. 1910.1200 of the Occupational Safety and Health Standards Hazard Communication Rule.

The goal of defining precisely, in measurable terms, every possible health effect that may occur in the workplace as a result of chemical exposures cannot realistically be accomplished.

The information and recommendation contained in this Material Safety Data Sheet are supplied pursuant to 29 C.F.R. 1910.1200 of the Occupational Safety and Health Standards Hazard Communication Rule. The information and recommendations set forth herein are presented in good faith and believed to be correct as of the date hereof. Canberra Corporation, however, makes no representations as to the completeness or accuracy thereof, and information is supplied upon the express condition that the persons receiving the same will be responsible for their determination as to its suitability for their purposes prior to use. In no event will Canberra Corporation be responsible for any damages of any nature whatsoever resulting from the use of, reliance upon, or the misuse of this information. The information as supplied herein is simply to be informative and intended solely to alert the user of the substance which is the subject matter of this Material Safety Data Sheet. The ultimate compliance with federal, state and local regulations concerning the use or disposal of this compound, or compliance with respect to products liability, rests solely upon the purchaser thereof.
