Section 1: Product & Company Identification

Product Name: Graffiti Remover

Product Number (s): 03194, 74194

Product Use: Removal of graffiti from hard surfaces

Manufacturer / Supplier Contact Information:

In United States: CRC Industries, Inc.  
885 Louis Drive  
Warminster, PA 18974  
www.crcindustries.com  
1-215-674-4300 (General)  
(800) 521-3168 (Technical)  
(800) 272-4620 (Customer Service)

In Canada: CRC Canada Co.  
2-1246 Lorimar Drive  
Mississauga, Ontario L5S 1R2  
www.crc-canada.ca  
1-905-670-2291 (Technical)

In Mexico: CRC Industries Mexico  
Av. Benito Juárez 4055 G  
Colonia Orquideá  
San Luis Potosí, SLP CP 78394  
www.crc-mexico.com  
52-444-824-1666

24-Hr Emergency – CHEMTREC: (800) 424-9300 or (703) 527-3887

Section 2: Hazards Identification

Emergency Overview

Potential Health Effects:

ACUTE EFFECTS:

EYE: Moderate to severe eye irritant. Inflammation of the eye is characterized by redness, watering and itching.

SKIN: May cause skin irritation or rash. Prolonged or repeated exposure may cause defatting and drying which can lead to dermatitis.

INHALATION: High vapor concentrations are irritating to the nose, throat and lungs. Exposure to high concentrations may lead to central nervous system effects including drowsiness, dizziness, nausea, headaches, paralysis and loss of consciousness.

INGESTION: Ingestion results in mucous membrane irritation. Product is a pulmonary aspiration hazard. Material can enter lungs during swallowing or vomiting and cause damage.

CHRONIC EFFECTS: Continuous inhalation of acetone vapors can lead to central nervous system depression. May accumulate in body after repeated doses.

TARGET ORGANS: central nervous system, liver, kidneys

Medical Conditions Aggravated by Exposure: pre-existing skin or eye conditions, asthma

See Section 11 for toxicology and carcinogenicity information on product ingredients.

Section 4: First Aid Measures

Eye Contact: Immediately flush with plenty of water for 15 minutes. Call a physician if irritation persists.

Skin Contact: Remove contaminated clothing and wash affected area with soap and water. Call a physician if irritation persists. Wash contaminated clothing prior to re-use.

Inhalation: Remove person to fresh air. Keep person calm. If not breathing, give artificial respiration. If breathing is difficult give oxygen. Call a physician.

Ingestion: Do NOT induce vomiting. If victim is conscious, give two glasses of water to dilute. Contact a physician immediately.

Note to Physicians: Support respiratory and cardiovascular function.

Section 5: Fire-Fighting Measures

Flammable Properties: This product is flammable in accordance with aerosol flammability definitions. (See 16 CFR 1500.3(c)(6)). Flame extension > 15 cm and < 100 cm.

Flash Point: 56°F / 13°C (Seta) Upper Explosive Limit: ND
Autoignition Temperature: > 500°F / > 260°C Lower Explosive Limit: ND

Fire and Explosion Data:
Suitable Extinguishing Media: Use media appropriate for a Class B fire such as dry chemical, water spray or fog.

Products of Combustion: Oxides of carbon, oxides of nitrogen

Explosion Hazards: Aerosol containers, when exposed to heat from fire, may build pressure and explode. Vapors may accumulate in a confined space and create a flammable atmosphere.

Protection of Fire-Fighters: Firefighters should wear self-contained, NIOSH-approved breathing apparatus for protection against suffocation and possible toxic decomposition products. Proper eye and skin protection should be provided. Use water spray to keep fire-exposed containers cool and to knock down vapors which may result from product decomposition.

Section 6: Accidental Release Measures

Personal Precautions: Use personal protection recommended in Section 8.

Environmental Precautions: Take precautions to prevent contamination of ground and surface waters. Do not flush into sewers or storm drains.
Methods for Containment & Clean-up: Eliminate sources of ignition. Dike area to contain spill. Ventilate the area with fresh air. If in confined space or limited air circulation area, clean-up workers should wear appropriate respiratory protection. Recover or absorb spilled material using an absorbent designed for chemical spills. Place used absorbents into proper waste containers.

Section 7: Handling and Storage

Handling Procedures: Keep away from heat, sparks, and flame. Use only with adequate ventilation. Use caution around energized equipment. The metal container will conduct electricity if it contacts a live source. This may result in injury to the user from electrical shock and/or flash fire. For product use instructions, please see the product label.

Storage Procedures: Store in a cool dry area out of direct sunlight. Aerosol cans must be maintained below 120°F / 49°C to prevent cans from rupturing.

Aerosol Storage Level: III

Section 8: Exposure Controls/ Personal Protection

N.E. – Not Established (c) – ceiling (s) – skin (v) – vacated

Controls and Protection:

Engineering Controls: Area should have ventilation to provide fresh air. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at the source, preventing dispersion into the general work area. Use mechanical means if necessary to maintain vapor levels below the exposure guidelines. If working in a confined space, follow applicable OSHA regulations.

Respiratory Protection: None required for normal work where adequate ventilation is provided. If engineering controls are not feasible or if exposure exceeds the applicable exposure limits, use a NIOSH-approved cartridge respirator with organic vapor cartridge. Air monitoring is needed to determine actual employee exposure levels. Use a self-contained breathing apparatus in confined spaces and for emergencies.

Eye/face Protection: For normal conditions, wear safety glasses. Where there is reasonable probability of liquid contact, wear splash-proof goggles.

Skin Protection: Use protective gloves such as butyl rubber. Also, use full protective clothing if there is prolonged or repeated contact of liquid with skin.

Section 9: Physical and Chemical Properties

Physical State: liquid
Color: light grey
Odor: fragrant solvent
Odor Threshold: ND
Specific Gravity: 0.7419
Initial Boiling Point: 133°F / 56°C
Freezing Point: ND
Vapor Pressure: ND
Vapor Density: > 1 (air = 1)
Evaporation Rate: fast
Solubility: soluble in water
Coefficient of water/oil distribution: ND
pH: NA
Volatile Organic Compounds: wt %: 47.5 g/L: 352.4 lbs./gal: 2.94

**Section 10: Stability and Reactivity**

Stability: Stable

Conditions to Avoid: Heat, open flames, sparks, static discharge

Incompatible Materials: Oxidizing agents, organic peroxides, nitric acid, certain halogenated compounds, aliphatic amines

Hazardous Decomposition Products: Oxides of carbon

Possibility of Hazardous Reactions: No

**Section 11: Toxicological Information**

Long-term toxicological studies have not been conducted for this product. The following information is available for components of this product.

**Acute Toxicity:**

**Reproductive Toxicity:** No information available

**Teratogenicity:** No information available

**Mutagenicity:** No information available

**Synergistic Effects:** No information available
Section 12: Ecological Information

Ecological studies have not been conducted for this product. The following information is available for components of this product.

Ecotoxicity:
- Acetone -48 Hr EC50 Daphnia magna: 12600 mg/L
- 96 Hr LC50 Oncorhynchus mykiss: 5540 mg/L [static]
- n-methylpyrrolidone -48 Hr EC50 Daphnia magna: 4897 mg/L

Persistence / Degradability: No information available

Bioaccumulation / Accumulation: No information available

Mobility in Environment: No information available

Section 13: Disposal Considerations

Waste Classification: The dispensed liquid product is a RCRA hazardous waste with the following possible waste codes: D001, F003. (See 40 CFR Part 261.20 – 261.33) Empty aerosol containers may be recycled.

All disposal activities must comply with federal, state, provincial and local regulations. Local regulations may be more stringent than state, provincial or national requirements.

Section 14: Transport Information

US DOT (ground): UN1950, Aerosols, flammable, 2.1, Limited Quantity**

ICAO/IATA (air): UN1950, Aerosols, flammable, 2.1, Limited Quantity

IMO/IMDG (water): UN1950, Aerosols, 2.1, Limited Quantity

Special Provisions: **This product can be classified and labeled as 'Consumer Commodity, ORM-D' for domestic ground shipping.

Section 15: Regulatory Information

U.S. Federal Regulations:

Toxic Substances Control Act (TSCA):
- All ingredients are either listed on the TSCA inventory or are exempt.

Comprehensive Environmental Response, Compensation and Liability Act (CERCLA):
- Reportable Quantities (RQ’s) exist for the following ingredients: acetone (5000 lbs), xylene (100 lbs), ethylbenzene (1000 lbs)

Spills or releases resulting in the loss of any ingredient at or above its RQ require immediate notification to the National Response Center (800-424-8802) and to your Local Emergency Planning Committee.

Superfund Amendments Reauthorization Act (SARA) Title III:
- Section 302 Extremely Hazardous Substances (EHS): None

Section 311/312 Hazard Categories:
- Fire Hazard: Yes
- Reactive Hazard: No
- Release of Pressure: Yes
- Acute Health Hazard: Yes
Product Name: Graffiti Remover

Chronic Health Hazard: Yes

Section 313 Toxic Chemicals: This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:
- n-methylpyrrolidone (< 20%), xylene (< 3%), ethylbenzene (< 1%)

Clean Air Act:
- Section 112 Hazardous Air Pollutants (HAPs): xylene, ethylbenzene

Occupational Safety and Health Administration (OSHA):
- This product is regulated under the Hazard Communication Standard.

U.S. State Regulations:

California Safe Drinking Water and Toxic Enforcement Act (Prop 65):
- This product may contain the following chemicals known to the state of California to cause cancer, birth defects or other reproductive harm:
  - n-methylpyrrolidone
  - ethylbenzene

Consumer Products VOC Regulations: In states with Consumer Products VOC regulations, this product is compliant as an aerosol graffiti remover.

State Right to Know:
- New Jersey: 67-64-1, 872-50-4, 1330-20-7, 100-41-4
- Pennsylvania: 67-64-1, 872-50-4, 1330-20-7, 100-41-4
- Massachusetts: 67-64-1, 872-50-4, 1330-20-7, 100-41-4
- Rhode Island: 67-64-1, 872-50-4, 1330-20-7, 100-41-4

Canadian Regulations:

Controlled Products Regulations:
- This product has been classified in accordance with the hazard criteria of the Controlled Product Regulation and the MSDS contains all the information required by the Controlled Products Regulations.
  - WHMIS Hazard Class: A, B5, D2A, D2B
  - Canadian DSL Inventory: All ingredients are either listed on the DSL Inventory or are exempt.

European Union Regulations:

RoHS Compliance:

Additional Regulatory Information: None
