Section 1: Product & Company Identification

Product Name: Steer-X™ Power Steering Stop Leak
Product Number (s): 403015
Product Use: transmission fluid additive

Manufacturer / Supplier Contact Information:
In United States: CRC Industries, Inc.
885 Louis Drive
Warminster, PA 18974
www.crcindustries.com
1-215-674-4300 (General)
(800) 521-3168 (Technical)
(800) 272-4620 (Customer Service)

In Canada: CRC Canada Co.
2-1246 Lorimar Drive
Mississauga, Ontario L5S 1R2
www.crc-canada.ca
1-905-670-2291

In Mexico: CRC Industries Mexico
Av. Benito Juárez 4055 G
Colonia Orquídea
San Luis Potosí, SLP CP 78394
www.crc-mexico.com
52-444-824-1666

24-Hr Emergency – CHEMTREC: (800) 424-9300 or (703) 527-3887

Section 2: Hazards Identification

Emergency Overview

DANGER: Flammable. Harmful or Fatal if Swallowed.
Appearance & Odor: Red liquid, faint petroleum odor

Potential Health Effects:

ACUTE EFFECTS:

EYE: Eye contact may result in light irritation and redness.

SKIN: Short term contact with skin is unlikely to cause any problems. Excessive or repeated contact and poor hygiene conditions may result in dryness, dermatitis, erythema, oil acne, cracking and defatting of the skin.

INHALATION: Inhalation of vapors or mist may be irritating to the respiratory passages. Prolonged exposure may result in dizziness, nausea, and central nervous system depression (headache, lack of coordination, drowsiness).

INGESTION: May result in nausea or stomach discomfort. Main hazard, if swallowed, is aspiration into the lungs. This can lead to chemical pneumonitis, severe lung injury and possibly death.

CHRONIC EFFECTS: None known

TARGET ORGANS: Lungs (oil mist)

Medical Conditions Aggravated by Exposure: pre-existing skin disorders

See Section 11 for toxicology and carcinogenicity information on product ingredients.
Section 3: Composition/Information on Ingredients

Section 4: First Aid Measures

Eye Contact: Immediately flush with plenty of water for 15 minutes. Call a physician if irritation persists.

Skin Contact: Remove contaminated clothing and wash affected area with soap and water. Call a physician if irritation persists. Wash contaminated clothing prior to re-use.

Inhalation: Remove person to fresh air. Keep person calm. If not breathing, give artificial respiration. If breathing is difficult give oxygen. Call a physician.

Ingestion: If swallowed, observe for signs of stomach discomfort or nausea. If symptoms persist, seek medical help. Do NOT induce vomiting. If there is any suspicion of aspiration into the lungs, obtain immediate medical attention.

Note to Physicians: Treat symptomatically.

Section 5: Fire-Fighting Measures

Flammable Properties: As defined by OSHA, this product is a Class IB Flammable Liquid.

- Flash Point: 61°F / 16°C (TCC)
- Upper Explosive Limit: ND
- Autoignition Temperature: > 600°F / 316°C
- Lower Explosive Limit: ND

Fire and Explosion Data:

- Suitable Extinguishing Media: Halon, dry chemical, foam, CO₂, water mist or fog, or any Class B extinguishing agent
- Products of Combustion: Fumes, smoke, carbon monoxide
- Explosion Hazards: Containers, when exposed to heat from fire, may build pressure and rupture. Vapors may accumulate in a confined space and create a flammable atmosphere.
- Protection of Fire-Fighters: Firefighters should wear self-contained, NIOSH-approved breathing apparatus for protection against suffocation and possible toxic decomposition products. Proper eye and skin protection should be provided. Use water spray to keep fire-exposed containers cool and to knock down vapors which may result from product decomposition.

Section 6: Accidental Release Measures

Personal Precautions: Use personal protection recommended in Section 8.

Environmental Precautions: Take precautions to prevent contamination of ground and surface waters. Do not flush into
Methods for Containment & Clean-up: Dike area to contain spill. Eliminate all sources of ignition. Ventilate the area with fresh air. If in confined space or limited air circulation area, clean-up workers should wear appropriate respiratory protection. Recover or absorb spilled material using an absorbent designed for chemical spills. Place used absorbents into proper waste containers.

Section 7: Handling and Storage

Handling Procedures: Keep away from flames, sparks or hot surfaces. Wash thoroughly after handling and before handling food. Use proper grounding and bonding techniques when transferring material. For product use instructions, please see the product label.

Storage Procedures: Store in a cool dry area out of direct sunlight. Containers should be tightly closed while in storage.

Aerosol Storage Level: NA

Section 8: Exposure Controls/ Personal Protection

N.E. – Not Established   (c) – ceiling   (s) – skin   (v) – vacated   * – oil mist

Controls and Protection:

Engineering Controls: Area should have ventilation to provide fresh air. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at the source, preventing dispersion into the general work area. Use mechanical means if necessary to maintain vapor levels below the exposure guidelines. If working in a confined space, follow applicable OSHA regulations.

Respiratory Protection: None required for normal work where adequate ventilation is provided. If engineering controls are not feasible or if exposure exceeds the applicable exposure limits, use a NIOSH-approved cartridge respirator with organic vapor cartridge. Air monitoring is needed to determine actual employee exposure levels. Use a self-contained breathing apparatus in confined spaces and for emergencies.

Eye/face Protection: For normal conditions, wear safety glasses. Where there is reasonable probability of liquid contact, wear splash-proof goggles.

Skin Protection: Use protective gloves such as nitrile or neoprene. Also, use full protective clothing if there is prolonged or repeated contact of liquid with skin.
Section 9: Physical and Chemical Properties

Physical State: liquid
Color: red
Odor: faint petroleum
Odor Threshold: ND
Specific Gravity: 0.876
Initial Boiling Point: 180°F / 82°C
Freezing Point: ND
Vapor Pressure: ND
Vapor Density: > 1 (air = 1)
Evaporation Rate: slow
Solubility: negligible
Coefficient of water/oil distribution: ND
pH: NA
Volatile Organic Compounds: wt %: 23.8 g/L: 208.5 lbs./gal: 1.74

Section 10: Stability and Reactivity

Stability: Stable
Conditions to Avoid: Sources of ignition
Incompatible Materials: Strong oxidizers, strong acids
Hazardous Decomposition Products: Oxides of carbon, various hydrocarbons
Possibility of Hazardous Reactions: No

Section 11: Toxicological Information

Long-term toxicological studies have not been conducted for this product. The following information is available for components of this product.

Section 12: Ecological Information

Ecological studies have not been conducted for this product. The following information is available for components of this product.

Ecotoxicity: hydrotreated naphthenic oil – 96 Hr LC50, Fathead minnow: >30,000 mg/L (static)
Persistence / Degradability: This product is not readily biodegradable.
Bioaccumulation / Accumulation: No information available
Mobility in Environment: No information available

Section 13: Disposal Considerations

Waste Classification: This product is a RCRA hazardous waste for the characteristic of ignitability with the following waste code(s): D001. (See 40 CFR Part 261.20 – 261.33)
Empty containers may be recycled.

All disposal activities must comply with federal, state, provincial and local regulations. Local regulations may be more stringent than state, provincial or national requirements.

Section 14: Transport Information

ICAO/IATA (air): UN1993, Flammable liquids, N.O.S. (isopropanol & xylene), 3, PGII, Limited Quantity
IMO/IMDG (water): UN1993, Flammable liquids, N.O.S. (isopropanol & xylene), 3, PGII, Limited Quantity
Special Provisions: **This product can be classified and labeled as 'Consumer Commodity, ORM-D' for domestic ground shipping.

Section 15: Regulatory Information

U.S. Federal Regulations:

Toxic Substances Control Act (TSCA):
All ingredients are either listed on the TSCA inventory or are exempt.

Comprehensive Environmental Response, Compensation and Liability Act (CERCLA):
Reportable Quantities (RQ’s) exist for the following ingredients: Xylene (100 lbs), Toluene (1000 lbs), Ethylbenzene (1000 lbs)
Spills or releases resulting in the loss of any ingredient at or above its RQ require immediate notification to the National Response Center (800-424-8802) and to your Local Emergency Planning Committee.

Superfund Amendments Reauthorization Act (SARA) Title III:
Section 302 Extremely Hazardous Substances (EHS): None
Section 311/312 Hazard Categories:
- Fire Hazard: Yes
- Reactive Hazard: No
- Release of Pressure: No
- Acute Health Hazard: Yes
- Chronic Health Hazard: Yes
Section 313 Toxic Chemicals: This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:
- Xylene (< 7%), Toluene (< 4%), Ethylbenzene (1.4%)

Clean Air Act:
Section 112 Hazardous Air Pollutants (HAPs): Xylene, Toluene, Ethylbenzene

Occupational Safety and Health Administration:
This product is regulated by the Hazard Communications Standard.

U.S. State Regulations:

California Safe Drinking Water and Toxic Enforcement Act (Prop 65):
This product may contain the following chemicals known to the state of California to cause cancer, birth defects or other reproductive harm: toluene, ethylbenzene

Consumer Products VOC Regulations: This product is not regulated.

State Right to Know:
New Jersey: 108-88-3, 1330-20-7, 67-63-0, 123-42-2, 100-41-4
Massachusetts: 108-88-3, 1330-20-7, 67-63-0, 123-42-2, 100-41-4
Rhode Island: 108-88-3, 1330-20-7, 67-63-0, 123-42-2, 100-41-4

Canadian Regulations:

Controlled Products Regulations:
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

WHMIS Hazard Class: B2, D2A

Canadian DSL Inventory: All ingredients are either listed on the DSL Inventory or are exempt.

European Union Regulations:

Additional Regulatory Information: None
Section 16: Other Information
