2. Hazards Identification

Emergency overview

DANGER -- CORROSIVE

Contains under pressure.
Avoid breathing spray mist. Wear long rubber gloves when using. Avoid contact with eyes, skin, mucous membranes and clothing. DO NOT ingest. Use only with adequate ventilation. Do not puncture or incinerate container. DO NOT expose to heat or store at temperatures above 120°F (49°C). Never leave can on stove or near source of heat. Avoid spraying oven pilot light. Keep off all electrical connections such as heating element, thermostat, bulb receptacles, and light switch. Avoid freezing.

Potential short term health effects

Routes of exposure

Eye, Skin contact, Inhalation, Ingestion.

Eyes

Causes burns.

Skin

Causes burns. Not expected to be a skin sensitizer.

Inhalation

None expected during normal conditions of use. However intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

Ingestion

Harmful if swallowed.

Target organs

Chronic effects

The finished product is not expected to have chronic health effects.

Signs and symptoms

The product causes burns of eyes, skin and mucous membranes.

OSHA Regulatory Status

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Potential environmental effects

See section 12.

4. First Aid Measures

**First aid procedures**

- **Eye contact**: IMMEDIATELY flush eyes with water. Remove any contact lenses and continue to flush eyes for at least 15 minutes. If irritation persists, seek medical attention immediately.
- **Skin contact**: Rinse immediately and remove contaminated clothing. Wash thoroughly with soap and water and continue flushing for at least 10 minutes. If discomfort persists, seek medical attention immediately.
- **Inhalation**: Move to fresh air. If symptoms develop or persist, seek medical advice.
- **Ingestion**: Do not induce vomiting. Rinse mouth thoroughly and seek medical attention immediately.
- **Notes to physician**: Treat patient symptomatically.
- **General advice**: Keep away from sources of ignition. No smoking. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children.

5. Fire Fighting Measures

**Flammable properties**: Aerosol flame extension less than 18 inches (45 cm).

**Extinguishing media**
- **Suitable extinguishing media**: Dry chemical. Alcohol foam. Water spray.
- **Unsuitable extinguishing media**: Not available

**Protection of firefighters**
- **Specific hazards arising from the chemical**: Contents under pressure. Pressurized container may explode when exposed to heat or flame. Cool containers with flooding quantities of water until well after fire is out.
- **Protective equipment for firefighters**: Firefighters should wear full protective clothing including self contained breathing apparatus.

**Hazardous combustion products**: May include and are not limited to: Oxides of carbon. Oxides of nitrogen.

**Explosion data**
- **Sensitivity to mechanical impact**: Not available
- **Sensitivity to static discharge**: Not available

6. Accidental Release Measures

**Personal precautions**: Ensure adequate ventilation. Keep unnecessary personnel away. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak.

**Environmental precautions**: Prevent further leakage or spillage if safe to do so. Do not contaminate water.

**Methods for containment**: Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas.

**Methods for cleaning up**: Before attempting clean up, refer to hazard data given above. Remove sources of ignition. Although the chance of a significant spill or leak is unlikely in aerosol containers, in the event of such an occurrence, absorb spilled material with a non-flammable absorbent such as sand or vermiculite.
7. Handling and Storage

**Handling**

**DANGER**

Ensure adequate ventilation. Do not get this material in your eyes, on your skin, or on your clothing. Do not breathe vapours or spray mist. Do not ingest. DO NOT expose to heat or store at temperatures above 120°F (49°C) as the container may burst. Wear long rubber gloves when using. Never leave can on stove or near source of heat. Avoid spraying oven pilot light. Keep off all electrical connections such as heating element, thermostat, bulb receptacles, and light switch.

**Storage**

Keep out of reach of children. Do not store at temperatures above 49 °C (120.2°F). Keep away from heat, open flames or other sources of ignition. Keep from freezing.

NOTE TO PARENTS: Intentional misuse by deliberately concentrating and inhaling aerosol products may be harmful or fatal. Help stop inhalation abuse; for information visit www.inhalant.org.

**Engineering controls**

Provide adequate ventilation.

**Personal protective equipment**

- **Eye / face protection**
  - tightly fitting safety goggles
- **Hand protection**
  - Rubber gloves. Confirm with a reputable supplier first.
- **Skin and body protection**
  - As required by employer code. long sleeved clothing
  - Follow label directions carefully.
- **Respiratory protection**
  - Not normally required under normal use conditions.
- **General hygiene considerations**
  - Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. Wash hands before breaks and immediately after handling the product.

10. Stability and Reactivity

Reactivity This product may react with strong oxidizing agents.
Possibility of hazardous reactions Hazardous polymerization does not occur.
Chemical stability Stable under recommended storage conditions.
Conditions to avoid Aerosol containers are unstable at temperatures above 49°C (120.2°F). Do not spray on pilot light, electrical connections, switch, heating elements, or thermostats.
Do not spray onto aluminum or painted surfaces as damage to these surfaces may occur.
Do not use on grill exterior, interior or components.
Hazardous decomposition products May include and are not limited to: Oxides of carbon. Oxides of nitrogen.
