EMERGENCY OVERVIEW
White to slightly off-white paste w/ a mild odor. May cause eye, skin, nose, throat & respiratory tract irritation. Removal of this product after use or by dry sanding will generate dust & exposure to dust may be irritating to eyes, ears, nose & mouth. Harmful by inhalation & ingestion. If dry sanded, exposure to dust may result in build up of material in eyes, ears, nose & mouth.

EFFECTS OF OVEREXPOSURE
Eye: May cause eye irritation. Skin: May cause skin irritation. May cause dry skin. Inhalation: Inhalation of dust may cause lung damage or other adverse pulmonary & respiratory effects. Inhalation may cause irritation to the respiratory tract, including nose, mouth & mucous membranes. Ingestion: May cause gastrointestinal irritation. Chronic: IARC has determined that crystalline silica (small amount present in calcium carbonate filler), if inhaled, is carcinogenic to humans. NTP classifies respirable crystalline silica as known to be a human carcinogen. Breathing dust containing respirable crystalline silica may not cause noticeable injury or illness even though permanent lung damage may be taking place.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE
If dry sanded, asthma & asthma-like conditions may worsen from prolonged or repeated exposure to dust.

SECTION 4 – FIRST AID MEASURES

SKIN CONTACT
Wash w/ soap & water for @ least 15 minutes. Get medical attention if symptoms persist. Remove & wash contaminated clothing.

EYE CONTACT
Immediately flush w/ large quantities of water for @ least 15 minutes until irritation subsides. Get medical attention.

INHALATION
If inhaled, remove to fresh air. If breathing difficult, leave area to obtain fresh air. If breathing remains difficult, get medical attention.

INGESTION
DO NOT INDUCE VOMITING. Get immediate medical attention.

SPECIAL FIREFIGHTING PROCEDURES: Wear self-contained breathing apparatus pressure demand (NIOSH approved or equivalent) & full protective gear. Use water spray to cool exposed surfaces.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

PROCEDURES: Wear proper protective equipment (Section 8). Use absorbent material or scrape up dried material & place in approved container.

SECTION 7 – HANDLING & STORAGE

HANDLING PROCEDURES & EQUIPMENT: Keep out of reach of children & pets. Do not take internally. Do not breathe vapors or inhale dusts of this product. Avoid contact w/ skin & eyes. Do not get on clothing. Use w/ adequate ventilation. Ensure fresh air during application & drying by opening windows & doors.

STORAGE REQUIREMENTS: Close container after each use. Store containers away from excessive heat & freezing. Do not store @ temperatures above 120°F. Store away from caustics & oxidizers.

SECTION 8 – EXPOSURE CONTROL / PERSONAL PROTECTION

RESPIRATORY: In case of insufficient ventilation, wear suitable respiratory equipment. A NIOSH-approved air purifying respirator w/ organic vapor cartridge may be necessary under circumstances where concentrations are expected to exceed exposure limits. Prevent build-up of dust & vapors by opening windows & doors. Wet sanding is recommended to avoid generation of dust. If dry sanding is performed, appropriate dust respirator is suggested.

EYEWEAR: Goggles or safety glasses w/ side shields.

CLOTHING / GLOVES: Gloves recommended for prolonged or repeated skin contact.

HYGENIC PRACTICES: Remove & wash contaminated clothing before re-use. Wash hands before breaks & @ end of workday.
