Section 3 Hazard Identification

Primary Routes of Exposure:
- Inhalation
- Skin Contact
- Eye Contact

Potential Acute Health Effects:
- Eye: Dust may cause eye irritation.
- Skin: Prolonged exposure may cause skin irritation.
- Ingestion: May cause gastrointestinal distress and nausea.
- Inhalation: Avoid breathing dust. Dust may be irritating to the nose, throat, and respiratory tract.

Potential Chronic Health Effects: None known.

(See also Sections 4, 8, and 11 for related information)
Section 4  First Aid Measures

Eye contact:   Flush eyes with water for at least 15 minutes.
Skin contact:  Wash with soap and water.
Ingestion:    Call a physician or poison control center.
Inhalation:   No specific treatment is necessary since this material is not likely to be hazardous by inhalation. If exposed to excessive levels of dust remove to fresh air and get medical attention if cough or other symptoms develop.

Note to Physician:  Treat symptomatically. This material is basically non-toxic. Ingestion of a small quantity (approx. one tablespoon) is unlikely to cause harm.

Section 5  Fire Fighting Measures

Flash Point (method):  N/A
Extinguishing Media:  Use alcohol foam, carbon dioxide, or water spray when fighting fires involving this material.

Protection of Firefighters:  As in any fire, wear NIOSH approved self-contained breathing apparatus pressure-demand and full protective gear.

Section 6  Accidental Release Measures

Personal Precautions:  Avoid breathing dust.
Clean Up Methods:   Transfer into recovery drums. Dispose of in accordance with federal, state, local, regulations.

(See also Section 8 for information on Exposure Controls and Personal Protective Equipment)

Section 7  Handling and Storage

Handling:  Use with adequate ventilation. Avoid prolonged or repeated contact with eyes, skin, and clothing.
Storage:   Protect container against physical damage.

Section 8  Exposure Controls / Personal Protection

Engineering Controls:  Good general ventilation should be sufficient to control airborne levels. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne dust levels below recommended exposure limits.
Personal Protective Equipment (PPE):

Eye Protection: Safety glasses or goggles.

Skin Protection: Wear gloves to prevent prolonged skin contact.

Respiratory Protection: None needed under normally anticipated use conditions. If dust levels exceed allowable exposure limits, wear a NIOSH approved respirator with P-100 filters.

General Hygiene Practices: Avoid eye and skin contact. Avoid breathing dust. Wash hands before eating and drinking.
