SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION

Product name: GARDENTECH® SEVIN® READY-TO-USE BUG KILLER
SAP Numbers: 100047730, 100047720, 100505732, 100064374
EPA Registration No.: 432-1211-71004
Product Use: Insecticide

TechPac, LLC,
2030 Powers Ferry Road – Suite 370
Atlanta, GA 30339

For MEDICAL EMERGENCY: call 800-420-9347
For TRANSPORTATION or SPILL: call 800-424-9300
For Product Information: call 866-945-5033

SECTION 2. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview: Caution! Harmful by inhalation and if swallowed. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing.

Physical State: Liquid opaque
Odor: None
Appearance: White
Exposure routes: Ingestion, Inhalation, Eye contact, Skin contact

Immediate Effects:
- Eye: May cause eye irritation. Avoid contact with eyes.
- Skin: May cause slight irritation. Avoid contact with skin and clothing.
- Ingestion: Harmful if swallowed. Do not take internally.
- Inhalation: Harmful if inhaled. Avoid breathing spray mist.

Medical Conditions Aggravated by Exposure: Any disease, medication or prior exposure which reduces normal cholinesterase activity may increase susceptibility to the toxic effects of the active ingredient.

Potential Environmental Effect: Highly toxic to bees. Extremely toxic to aquatic and estuarine invertebrates.

SECTION 4. FIRST AID MEASURES

**General**
When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

**Eye**
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately.

**Skin**
Wash off immediately with plenty of water for at least 15 minutes. Take off contaminated clothing and shoes immediately. Call a physician or poison control center immediately.

**Ingestion**
Call a physician or poison control center immediately. Rinse out mouth and give water in small sips to drink. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person.

**Inhalation**
Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.

**Notes to physician**

**Signs and Symptoms**
This product causes reversible cholinesterase inhibition without long term effects.
- Symptoms of Overexposure
  - Nausea
  - Vomiting
  - Diarrhoea
  - Abdominal pain
  - Salivation
  - Blurred vision
  - sweating
  - Respiratory disorder
  - Convulsions

**Treatment**
In case of ingestion gastric lavage should be considered in cases of significant ingestions only within the first 2 hours. However, the application of activated charcoal and sodium sulphate is always advisable. Before antidote is administered, either clear symptoms of poisoning have to be present or the cholinesterase activity is inhibited to below 30% of normal. The following antidote is generally accepted: atropine. In case of convulsions, a benzodiazepine (e.g. diazepam) should be given according to standard regimens. Contraindications: oximes (pralidoxime, obidoxime).
SECTION 5. FIRE FIGHTING MEASURES

Flash point: The product is not flammable.

Autoignition temperature: no data available

Lower Flammability Limit: no data available

Upper Flammability Limit: no data available

Suitable extinguishing media: Carbon dioxide (CO2), Alcohol-resistant foam, Water spray

Fire Fighting Instructions: Keep out of smoke. Fight fire from upwind position. Do not allow run-off from fire fighting to enter drains or water courses.

Firefighters should wear NIOSH approved self-contained breathing apparatus and full protective clothing.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces.

Methods for cleaning up: Keep in suitable, closed containers for disposal. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Clean contaminated floors and objects thoroughly, observing environmental regulations.

Additional advice: Use personal protective equipment.

SECTION 7. HANDLING AND STORAGE

Handling procedures: Use only in area provided with appropriate exhaust ventilation. Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation.

Storing Procedures: Store in original container and out of the reach of children, preferably in a locked storage area.

Protect from freezing.

Keep away from food, drink and animal feedingstuffs.
SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General Protection

There are no known hazards associated with this product when used according to the label directions. The following guidelines should be followed.

- Avoid inhalation of vapour or mist. Avoid contact with skin and eyes.
- Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.
- Do not allow children or pets to enter the treated area until it has dried.

Eye/Face Protection

Safety glasses with side-shields

Hand protection

Chemical resistant nitrile rubber gloves

Body Protection

Wear long-sleeved shirt and long pants and shoes plus socks.

Respiratory protection

No personal respiratory protective equipment normally required.

Exposure Limits

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

white

Physical State

liquid opaque

Odor

none

pH

3 - 4 (100 %)

Vapor Pressure

no data available
Material Safety Data Sheet

GARDENTECH® SEVIN® READY-TO-USE BUG KILLER

Vapor Density (Air = 1)  no data available
Density ca. 1.00 g/cm³ at 20 °C
Boiling Point no data available
Melting / Freezing Point no data available
Water solubility soluble
Decomposition temperature 140 °C
Partition coefficient: n-octanol/water no data available
Viscosity 50 - 200 mPa.s

SECTION 10. STABILITY AND REACTIVITY

Incompatibility Bases
Strong acids

Hazardous Decomposition Products
nitrogen oxides (NOx)
Sulphur oxides
Carbon oxides
Methyl isocyanate

Chemical Stability Stable under recommended storage conditions.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity studies have not been performed on this product as formulated. The acute toxicity data provided has been bridged from a SEVIN dust formulation containing a higher percentage of the active ingredient, carbaryl. The long-term information pertains to the technical-grade active ingredient.

Acute oral toxicity rat: LD50: > 1,500 mg/kg
Acute dermal toxicity rabbit: LD50: > 2,000 mg/kg
Eye irritation rabbit: Mild eye irritation.

Chronic toxicity Reversible cholinesterase inhibition occurred in chronic toxicity studies in rats and dogs. The principal organs affected in rats from long-term exposure to high-doses of carbaryl included the urinary bladder, thyroid, kidneys and liver.

Assessment Carcinogenicity Carbaryl has been shown to cause tumors in laboratory animals in lifetime feeding studies.
ACGIH
Carbaryl  63-25-2  Group A4
NTP
None.
IARC
Carbaryl  63-25-2  Overall evaluation: 3
OSHA
None.

Reproductive toxicity
REPRODUCTION: Carbaryl was not a reproductive toxicant in a two-generation study in rats.

DEVELOPMENTAL TOXICITY: Carbaryl was not a primary developmental toxicant in rats and rabbits. Developmental effects were observed in both species but were considered secondary to maternal toxicity.

Assessment neurotoxicity
Carbaryl caused transient neurobehavioral effects (e.g., tremors) related to cholinergic toxicity without correlating neuropathological changes in acute and subchronic neurotoxicity studies in rats. Carbaryl did not cause developmental neurotoxic effects in offspring in a one-generation developmental neurotoxicity study in rats.

Mutagenicity
A battery of in vitro and in vivo mutagenicity studies have been conducted on carbaryl. Collectively, these studies indicate that carbaryl poses only a slight mutagenic risk.

SECTION 12. ECOLOGICAL INFORMATION

Toxicity to fish
Oncorhynchus mykiss (rainbow trout)
LC50: 1,950 µg/l
Exposure time: 96 h
The value mentioned relates to the active ingredient.

Lepomis macrochirus (Bluegill sunfish)
LC50: 6,769 µg/l
Exposure time: 96 h
The value mentioned relates to the active ingredient.

Toxicity to other organisms
Anas platyrhynchos (Mallard duck)
LC50: > 5,000 mg/kg
Exposure time: 8 d
The value mentioned relates to the active ingredient.

Colinus virginianus (Bobwhite quail)
LC50: > 5,000 mg/kg
Exposure time: 8 d
The value mentioned relates to the active ingredient.
Environmental precautions

Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water. Do not allow to get into surface water, drains and ground water. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark.

Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

SECTION 13. DISPOSAL CONSIDERATIONS

General Disposal Guidance

It is best to use all of the product in accordance with label directions. If it is necessary to dispose of unused product, please follow container label instructions and applicable local guidelines. Never place unused product down any indoor or outdoor drain.

Container Disposal

Do not re-use empty containers. Place empty container in trash.

RCRA Information

Characterization and proper disposal of this material as a special or hazardous waste is dependent upon Federal, State and local laws and are the user's responsibility. RCRA classification may apply.

SECTION 14. TRANSPORT INFORMATION

According to national and international transport regulations this material is not classified as dangerous goods / hazardous material.

SECTION 15. REGULATORY INFORMATION
