MATERIAL SAFETY DATA SHEET

Section 1 - Identification

Manufacturer's name and address: The W.W. Henry Company
400 Ardex Park Drive
Aliquippa, PA, U.S.A.
15001
Information Telephone No. : (724) 203-8499
Visit our Website: http://www.wwhenry.com
24 Hr. Emergency Tel #: CHEM-TEL: 1-800-255-3924 OR 1-813-248-0585 (call collect)
Product Identifier: Henry® 130 Black Thin Spread Floor Adhesive

Chemical Name: N/A
Chemical Family: Mixture.
Trade Name/Synonyms: Henry® 130
Molecular Weight: N/A
Material Use: Water based adhesive.
HMIS Rating: *
Health: 2
Flammability: 1
Reactivity: 0

SECTION 2 - HAZARDS IDENTIFICATION

Classification: WHMIS classification:
Class D2A (Materials Causing Other Toxic Effects, Very Toxic Material);
Class D2B (Materials Causing Other Toxic Effects, Toxic Material).

OSHA: This material is classified as hazardous under OSHA regulations (29CFR 1910.1200). Hazardous classification:
Chronic Health Hazard.

During normal usage of the product as recommended, airborne dusts will not be present. See Section 7 (Handling and Storage) for further details.

Warning! May cause headache, nausea, dizziness and other symptoms of central nervous system depression. Contact with eyes or skin may cause mild irritation. May cause allergic respiratory reaction. May cause allergic skin reaction.

POTENTIAL HEALTH EFFECTS:

Signs and symptoms of short-term (acute) exposure

Inhalation: Inhalation of vapours may cause mild irritation to the mucous membrane. Exposure to high vapour concentration can cause dizziness, nausea and central nervous system depression.

Skin: May cause mild transient irritation. Prolonged contact, may be more irritating.

Eyes: May cause mild transient irritation.

Ingestion: Ingestion of large amounts may cause stomach irritation.

Effects of long-term (chronic) exposure: None known or reported by the manufacturer.

Carcinogenic status: See TOXICOLOGICAL INFORMATION, Section 11.

Additional health hazards: Possible sensitizer. See TOXICOLOGICAL INFORMATION, Section 11.

Potential environmental effects: See ECOLOGICAL INFORMATION, Section 12.

SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

| Ingredients | CAS # | Wt.% |
Note: This product does not contain asbestos.

**SECTION 4 - FIRST AID MEASURES**

- **Inhalation**: If inhaled, move to fresh air. If irritation persists, seek prompt medical attention.
- **Skin contact**: Remove contaminated clothing. Wash off with soap and plenty of water. If irritation persists, seek prompt medical attention.
- **Eye contact**: Flush with plenty of water. If irritation persists, seek prompt medical attention.
- **Ingestion**: Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Consult a physician if symptoms develop and persist.
- **Notes for Physician**: Treat symptomatically.

**SECTION 5 - FIRE FIGHTING MEASURES**

**Fire hazards/conditions of flammability**: Not flammable under normal conditions of use. However, may ignite if exposed to extreme heat and flame. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

**Flammability classification (OSHA 29 CFR 1910.1200)**: Combustible Liquid Class III B.

**Oxidizing properties**: None.

**Explosion data: Sensitivity to mechanical impact / static discharge**: Not expected to be sensitive to mechanical impact or static discharge.

**Suitable extinguishing media**: Carbon dioxide (CO2); Dry chemical; Water spray; Foam.

**Special fire-fighting procedures/equipment**: Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. Move containers from fire area if safe to do so. Water spray may be useful in cooling equipment exposed to heat and flame.

**Hazardous combustion products**: Carbon monoxide, carbon dioxide and other toxic vapors and gases, that are common to thermal degradation of organic compounds.

**NFPA Rating**

<td>4 - Severe</td>
</tr>
</tbody>
</table>

**SECTION 6 - ACCIDENTAL RELEASE MEASURES**

**Personal precautions**: Restrict access to area until completion of clean-up. Wear suitable protective equipment. For personal protection see section 8.

**Environmental precautions**: Do not allow product to enter waterways. Do not allow material to contaminate ground water system.

**Spill response/cleanup**: Ventilate area of release. Eliminate all ignition sources. Stop spill or leak at source if safely possible. Contain material, preventing it from entering sewer lines or waterways. Use inert, non-combustible absorbents to assist the pick up of material. Scrape up product and place it into a container for disposal. Residual of product, while still wet, can be cleaned up with warm soapy water. Refer to Section 13 for disposal of contaminated material. Notify the appropriate authorities as required.

**Prohibited materials**: None known.

**Special spill response procedures**: If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8002). US CERCLA Reportable quantity (RQ): None reported.

**SECTION 7 - HANDLING AND STORAGE**
Safe Handling procedures: Wear suitable protective equipment during handling. Use with adequate ventilation. Training the workers on the potential health hazards associated with product vapor, dust or fume is important. Secondary inhalation exposures could occur when cleaning equipment, or when removing or laundering the clothing. Persons with a history of skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this preparation is being used. Once a person is sensitized, no further exposure to the material that caused the sensitization should be permitted. Sanding and grinding dusts may be harmful if inhaled. Do not sand off excess material, following initial application. When removing adhesive from existing flooring (i.e. during a renovation), do not mechanically remove under dry conditions (e.g. blasting, chipping, mechanically pulverizing). Avoid breathing vapors, fumes or dust. Avoid contact with skin, eyes and clothing. Keep away from heat and sources of ignition. Keep away from oxidizing materials. Avoid and control operations which create high vapor or dust concentrations. Keep containers tightly closed when not in use. Wash thoroughly after handling.

Storage requirements: Store in a cool, dry, well-ventilated area. No smoking in the area. Do not store near any incompatible materials (see Section 10). Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Protect against physical damage. Recommended storage temperature: < 32.2°C (90°F).

Incompatible materials: See Section 10.
Special packaging materials: Always keep in containers made of the same materials as the supply container.

**SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION**

**Exposure Limits**

Ventilation and engineering measures: Use with adequate ventilation. Provide adequate cross air circulation. Use general or local exhaust ventilation to maintain air concentrations below recommended exposure limits.

Respiratory protection: Not required under normal conditions of handling. If mists are formed, or in confined spaces, respiratory protection may be required. NIOSH-approved respirators are recommended.

Skin protection: Where contact is likely, impervious gloves are recommended. Advice should be sought from glove suppliers.

Eye / face protection: Safety glasses with side shields should be used with this product.

Other protective equipment: Wear sufficient clothing to prevent skin contact. An eyewash station and safety shower should be made available in the immediate working area.

General hygiene considerations: Avoid contact with eyes, skin and clothing. Avoid breathing vapors, fumes or dust. Do not eat, drink or smoke when using this product. Clean all equipment and clothing at end of each work shift.

Boiling point : 100°C (212°F) Specific gravity : 1.04
Melting/Freezing point : N/Av Coefficient of water/oil distribution : N/Av
Vapour pressure (mmHg @ 20° C / 68° F) : same as water Solubility in water : Miscible; dispersible
Vapour density (Air = 1) : same as water Evaporation rate (n-Butyl acetate = 1) : same as water
Volatile organic Compounds (VOC's) : Volatiles (% by weight) : 30 - 40%
Particle size : 0.5 g/l General Info. : Weight / Gallon: N/Av
Flash point : > 93.3°C (200°F) Auto-ignition temperature : N/Av
Flash point Method : Setaflash Closed Tester
Lower flammable limit (% by vol.) : N/Av Upper flammable limit (% by vol.) : N/Av
Flame Projection Length : Not applicable. Flashback observed : Not applicable.

SECTION 10 - REACTIVITY AND STABILITY DATA
Stability and reactivity : Stable under the recommended storage and handling conditions prescribed.
Hazardous polymerization : Hazardous polymerisation does not occur.
Conditions to avoid : Extreme heat.
Materials To Avoid And Incompatibility : Oxidizing agents.
Hazardous decomposition products : None known, refer to hazardous combustion products in Section 5.

SECTION 11 - TOXICOLOGICAL INFORMATION
Target organs : Eyes, skin, respiratory system, digestive system, central nervous system.
Routes of exposure : Inhalation: YES Skin Absorption: NO Skin & Eyes: YES Ingestion: YES
Toxicological data : There is no available data for the product itself, only for the ingredients. See below for individual ingredient acute toxicity data.

</table>

Carcinogenic status : Not considered to be a hazard. During normal usage of the product as recommended, airbourne dusts will not be present. Do not sand off excess material, following initial application. When removing adhesive from existing flooring (ie. during a renovation), do not mechanically remove under dry conditions (e.g. blasting, chipping, mechanically pulverizing).

Reproductive effects : None known.
Teratogenicity : None known.
Mutagenicity : None known.
Epidemiology : Not available.
Sensitization to material : May cause allergic respiratory reaction (sensitization) with asthmatic symptoms such as wheezing and chest tightness. May cause severe skin sensitization with allergic contact dermatitis symptoms such as swelling, rash and eczema.
Synergistic materials : N/Av
Irritant: Mild.
Other Important Hazards: See Section 3 for additional information.
Conditions Aggravated by Overexposure: Pre-existing skin, eye and respiratory disorders.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity: No data is available on the product itself. The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters.
Mobility: No data is available on the product itself.
Persistency: No data is available on the product itself.
Bioaccumulation Potential: No data is available on the product itself.
Other Adverse Environmental Effects: None known.

SECTION 13 - DISPOSAL CONSIDERATIONS

Handling for Disposal: Handle waste according to recommendations in Section 7.
Methods of Disposal: Dispose in accordance with all applicable federal, state, provincial and local regulations. Contact your local, state, provincial or federal environmental agency for specific rules.
RCRA: If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste as defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.

SECTION 15 - REGULATORY INFORMATION

Canadian Information:
Canadian Environmental Protection Act (CEPA): All components of this product are on the Canadian DSL list.

Canadian WHMIS Classification: This product is a WHMIS Controlled Product. It meets one or more of the criteria for a controlled product provided in Part IV of the Canadian Controlled Products Regulations (CPR). Refer to Section 2 for a WHMIS Classification for this product.

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

US Federal Information:
TSCA: All listed ingredients appear on the Toxic Substances Control Act (TSCA) inventory.

CERCLA Reportable Quantity (RQ) (40 CFR 117.302): None reported.

SARA TITLE III: Sec. 313, Toxic Chemicals Notification, 40 CFR 372: This material is not subject to SARA notification requirements, since it does not contain any Toxic Chemical constituents above de minimus concentrations.
US State Right to Know Laws:
California Proposition 65: This product contains a chemical known to the State of California to cause cancer. Contains: Crystalline silica, quartz.

Other U.S. State “Right to Know” Lists: The following chemicals are specifically listed by individual States: Asphalt (CA, MA, MN, NJ, PA, RI); Urea (MN); Rosin (MN); Crystalline silica, quartz (MA, MN, NJ, PA, RI).

DISCLAIMER OF LIABILITY

The Information presented herein is supplied as a guide to those who handle or use this product and has been prepared in good faith by technically knowledgeable personnel. It is not intended to be all-inclusive. The manner and conditions of use and handling may involve other and additional considerations. Safe work practices must be employed when working with any materials. It is important that the end user makes a determination regarding the adequacy of the safety procedures employed during the use of this product.

No warranty of any kind is given or implied. The W.W. Henry Company will not be liable for any damages, losses, injuries or consequential damages which may result from the use or reliance on any information contained herein. This Material Safety Data Sheet is valid for three (3) years.
