### EMERGENCY OVERVIEW

**WARNING!** Combustible Liquid. Central nervous system depressant. Vapor may cause light-headedness, headache, nausea, loss of coordination and respiratory tract irritation. Causes skin irritation.

**Appearance/Odor:** Black liquid, strong petroleum solvent odor

### 3. Hazards Identification

#### Primary Routes(s) Of Entry

**Inhalation**

**Eye Hazards**

May cause eye irritation (burning, tearing, redness or swelling).

**Skin Hazards**

May cause skin irritation and contact dermatitis upon prolonged contact. Dermal sensitization may occur from repeated and prolonged exposures.
### 3. Hazards Identification - Continued

**Ingestion Hazards**
May be harmful if swallowed. May cause gastric distress, vomiting and diarrhea.

**Inhalation Hazards**
Exposure to vapors, dusts or mists may cause respiratory tract irritation. Inhalation of vapors or mists may cause central nervous system depression, light-headedness, headache, nausea and loss of coordination.

**Chronic/Carcinogenicity Effects**
This product or one of its ingredients present at 0.1% or more is listed as a carcinogen by NTP, IARC or OSHA. See Section 11 (Toxicological Information) for more details.

### 4. First Aid Measures

**Eye**
In case of contact, hold eyelids apart and immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately if irritation develops and persists.

**Skin**
Remove contaminated clothing and shoes. Wash affected areas with soap and water.

**Ingestion**
Get medical attention immediately. DO NOT INDUCE VOMITING. Never give anything by mouth to an unconscious victim. Call a physician or poison control center immediately.

**Inhalation**
Remove the person from the contaminated area to fresh air. If breathing is difficult, give oxygen. Get medical attention immediately.

**Note To Physician**
Aspiration of liquid into the lungs during swallowing or vomiting can cause lung inflammation, serious lung damage and even death from chemical pneumonitis.

### 5. Fire Fighting Measures

**Flash Point:** 105 °F 45.5 °C

**Flash Point Method:** Closed Cup

**Flammability Class:** Class II

**Lower Explosive Limit:** 0.9

**Upper Explosive Limit:** 6.0

**Fire And Explosion Hazards**
Combustible Liquid. Vapors are heavier than air and may spread long distances and ignite. Thermal decomposition (burning) may release irritating, corrosive and/or toxic gases, vapors and fumes.

**Extinguishing Media**
Chemical foam, carbon dioxide (CO2), or dry chemical. Do not use direct stream of water.

**Fire Fighting Instructions**
Firefighters should wear self-contained breathing apparatus and full protective gear.

### 6. Accidental Release Measures

Contain and/or absorb spill with inert material (e.g. sand, vermiculite). Collect and dispose in accordance with applicable regulations. Avoid runoff to waterways and sewers. For large spills, contain runoff and recover by pumping with explosion proof equipment.
7. Handling And Storage

**Handling And Storage Precautions**
Keep away from ignition sources. Keep containers tightly closed. Store in a cool, dry, well-ventilated area. Do not handle or store near heat, sparks, flame, strong oxidants or strong acids. Use only with adequate ventilation.

8. Exposure Controls/Personal Protection

**Engineering Controls**
Use with adequate general and local exhaust ventilation. When used outdoors, stay well away from building air intakes or close and seal the intakes to prevent product from entering building.

**Eye/Face Protection**
Chemical splash goggles or faceshield over safety glasses or goggles recommended.

**Skin Protection**
Use with chemical-protective gloves to prevent skin contact.

**Respiratory Protection**
This product is an encapsulated mixture which reduces the likelihood of exposure to hazardous particulates. Airborne exposures to hazardous dusts or mists may be generated by spraying, sanding or grinding.

The level of respiratory protection needed should be based on the evaluation of chemical exposures by a health or safety professional. If required, use a NIOSH-approved air purifying respirator with organic vapor cartridge and particulate filter or supplied air respirator.

Occupational Exposure Limits for individual ingredients (if available) are listed below.

### Ingredient(s) - Exposure Limits

**Incompatible Materials**
Avoid contact with strong oxidizing agents and acids.

**Hazardous Decomposition Products**
Toxic and irritating gases, vapors or fumes, carbon monoxide (CO), carbon dioxide (CO2).

### 11. Toxicological Information

**Chronic/Carcinogenicity**
IARC has concluded that the following chemicals in this product are carcinogenic to humans (Group 1): silica, quartz
ACGIH has designated the following chemicals in this product as suspected human carcinogens (A2): silica, quartz
NTP has listed the following chemicals in this product as known human carcinogens: silica, quartz

Risk of cancer depends on duration and level of exposure to this product as a dust or aerosol mist.

**Miscellaneous Toxicological Information**
Toxicological testing has not been conducted for this product overall. Available toxicological data for individual ingredients are summarized below.

**Ingredient(s) - Toxicological Data**

12. Ecological Information
No specific information available.

13. Disposal Considerations
Dispose in accordance with applicable federal, state and local government regulations.

14. Transport Information

Ground or Water Domestic Voyage

Not restricted if shipped in containers < 450L (119 gallons)
Restricted if shipped in containers > 450L (119 gallons)

US  NA1993, Combustible liquid, n.o.s., (Petroleum Distillates mixture), Combustible liquid, III
Canada UN1999, Tars liquid, 3, III

Unless departs > flash point:

Both UN3256, Elevated Temperature liquid, flammable, n.o.s., (Petroleum Distillates mixture), 3, III

IMDG  IMDG Code 2.3.2.5 - exempted from marking, labeling & testing of packages
IATA  UN1999, Tars liquid, 3, III

15. Regulatory Information

U.S. Regulatory Information
Asphalt may contain detectable amounts of chemicals known to the State of California to cause cancer or reproductive harm.

Ingredient(s) - U.S. Regulatory Information
1,2,4-trimethylbenzene
   SARA Title III - Section 313 Form "R"/TRI Reportable Chemical
xylene
   SARA Title III - Section 313 Form "R"/TRI Reportable Chemical
