## 1. PRODUCT AND COMPANY IDENTIFICATION

**Product Identifier**

**Product Name**
Series K&B Silicone – Neutral Cure (Oxime) – Clear, White & Colors

**Other Means of Identification**

**SDS #**
RD-0084

**Product Code**
0836, 0883, 0885, 0887 Series

**Recommended Use of the Chemical and Restrictions on Use**

**Recommended Use**
Silicone Sealant.

**Details of the Supplier of the Safety Data Sheet**

**Supplier Address**
Red Devil, Inc.
4175 Webb Street
Pryor, Oklahoma 74361
www.reddevil.com

**Emergency Telephone Number**

**Company Phone Number**
918-825-5744
Fax: 918-825-5761

**Emergency Telephone**
INFOTRAC 1-352-323-3500 (International)
1-800-535-5053 (North America)

## 2. HAZARDS IDENTIFICATION

**Classification**

<table>
<thead>
<tr>
<th>Skin sensitization</th>
<th>Category 1B</th>
</tr>
</thead>
</table>

**Signal Word**

Warning

**Hazard Statements**

May cause an allergic skin reaction

---

**Appearance** Clear or colored paste  
**Physical State** Paste  
**Odor** Low
3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>Chemical Name</th>

</tr>
</tbody>
</table>

*Unlisted ingredients are not considered hazardous under the OSHA GHS Hazard Communication Standard (29 CFR 1910.1200). (Silica, amorphous; Titanium Dioxide) Inhalation of particulates unlikely due to product's physical state. [Methyl tri(ethylmethylketoxime) silane] Ethyl methyl ketoxime formed upon contact w/ water or humid air

4. FIRST AID MEASURES

First Aid Measures

General advice
Provide this SDS to medical personnel for treatment.

Inhalation
If symptoms are experienced remove source of contamination or move victim to fresh air. If irritation persists, obtain medical advice.

Eye Contact
Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 15 minutes while holding the eyelide(s) open. Obtain medical attention.

Ingestion
Never give anything by mouth to an unconscious person. If swallowed, do not induce vomiting. Drink 1-2 glasses of water. If vomiting occurs spontaneously, keep airway clear. Get medical attention immediately.

Skin Contact
Remove from skin & immediately flush w/ water for 15 minutes. Obtain medical attention if irritation or ill effects develop or persist.

Most Important Symptoms and Effects, both Acute and Delayed

Symptoms
Causes skin irritation. May cause nose, throat & respiratory tract irritation. Direct contact with eyes may cause temporary irritation. Overexposure by ingestion may cause drowsiness, dizziness, confusion or loss of coordination.
Indication of any Immediate Medical Attention and Special Treatment Needed

Note to Physicians Possible skin sensitizer. Treat according to person’s condition & specifics of exposure.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Small Fire Use carbon dioxide (CO2), dry chemical or water spray.
Large Fire Use dry chemical, foam or water spray.

Unsuitable Extinguishing Media Not determined.

Specific Hazards Arising from the Chemical
Not determined.

Hazardous combustion products Carbon oxides & traces of incompletely burned carbon compounds. Silicon dioxide. Formaldehyde.

Protective Equipment and Precautions for Firefighters
Self-contained breathing apparatus & protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions Observe all personal protection equipment recommendations described in Sections 5 & 8.

Environmental Precautions See Section 12 for additional ecological information.

Methods and Material for Containment and Cleaning Up

Methods for Containment Prevent further leakage or spillage if safe to do so. Use absorbent material to contain spill.

Methods for Cleaning Up Wipe up or scrape up & contain for salvage or disposal. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbent or cleaning materials appropriately, since spontaneous heating may occur. Local, state & federal laws & regulations may apply to releases & disposal of this material as well as those materials & items employed in the cleanup of releases. You will need to determine which federal, state & local laws & regulations are applicable. Sections 13 & 15 of this MSDS provide information regarding certain federal & state requirements.

7. HANDLING AND STORAGE

Precautions for Safe Handling

Advice on Safe Handling Handle in accordance with good industrial hygiene and safety practice. Wash face, hands, and any exposed skin thoroughly after handling. Use personal protection recommended in Section 8. Avoid breathing vapors or mists. Use only in well-ventilated areas. Avoid contact with skin and eyes. Product evolves methyl ethyl ketoxime (MEKO) when exposed to water or humid air. Wash contaminated clothing before reuse.
Conditions for Safe Storage, Including any Incompatibilities

Storage Conditions
Keep container closed & store away from water or moisture.

Incompatible Materials
Oxidizing material can cause a reaction. Water, moisture or humid air can cause hazardous vapors to form as described in Section 8.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines
Exposure guidelines / protective equipment are for routine handling and accidental spills

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
<th>NIOSH IDLH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Amorphous silica (glass) 7631-86-9</td>

<td>TWA: 15 mg/m³ total dust (vacated) TWA: 10 mg/m³ total dust</td>
<td>IDLH: 5000 mg/m³</td>
</tr>
</tbody>
</table>

Other Information
MEKO is formed upon contact w/ water or humid air. Provide adequate ventilation to control exposures within guidelines of OSHA PEL: TWA 10 ppm & ACGIH TLV: TWA 10 ppm, STEL 15 ppm.

Appropriate Engineering Controls
Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS. Good general ventilation should be sufficient.

Individual Protection Measures, such as Personal Protective Equipment

Eye/Face Protection
Safety glasses as a minimum for protection. Full face respirator for spills.

Skin and Body Protection
Wear suitable protective clothing.

Respiratory Protection
No special equipment needed.

General Hygiene Considerations
Note: These precautions are for room temperature handling. Use @ elevated temperature or aerosol/spray applications may require added precautions. Handle in accordance with good industrial hygiene and safety practice. Wash @ mealtime & end of shift. Contaminated clothing & shoes should be removed as soon as practical & thoroughly cleaned before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

</tbody>
</table>
10. STABILITY AND REACTIVITY

Reactivity
Not reactive under normal conditions

Chemical Stability
Stable under recommended storage conditions.

Possibility of Hazardous Reactions
None under normal processing.

Hazardous polymerization
Hazardous polymerization does not occur.

Conditions to Avoid
Incompatible Materials.

Incompatible Materials
Oxidizing material can cause a reaction. Water, moisture or humid air can cause hazardous vapors to form as described in Section 8.

Hazardous Decomposition Products
Thermal breakdown of this product during fire or very high heat conditions may evolve the following decomposition products:
Carbon oxides & traces of incompletely burned carbon compounds. Silicon dioxide. Formaldehyde, Nitrogen oxides & metal oxides.

11. TOXICOLOGICAL INFORMATION

Information on Likely Routes of Exposure

Product Information

Inhalation
May cause irritation of respiratory tract.

Eye Contact
May cause temporary irritation on eye contact.
Skin Contact
Can be absorbed through the skin. May cause allergic skin reaction.

Ingestion
Can be harmful if swallowed.

Information on Physical, Chemical and Toxicological Effects

Symptoms
Please see section 4 of this SDS for symptoms.

Delayed and Immediate Effects as well as Chronic Effects from Short and Long-term Exposure

Sensitization
May cause allergic skin reaction.

Carcinogenicity
The table below indicates whether each agency has listed any ingredient as a carcinogen. Methyl Ethyl Ketoxime (MEKO) formed upon contact with water or humid air. Male rodents exposed to MEKO vapor throughout their lifetime developed liver cancer. Additional testing planned by MEKO supplier to determine any relevance to humans. Until more data is known, exposure levels should be maintained as low as achievable. Titanium dioxide is a possible carcinogen when it appears as a respirable dust.

Bioaccumulation
Complete information is not yet available.
Mobility
Complete information is not yet available.

Other Adverse Effects
Not determined

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes
Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated Packaging
Disposal should be in accordance with applicable regional, national and local laws and regulations.

14. TRANSPORT INFORMATION

Note
Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances

DOT
Not regulated

IATA
Not regulated

IMDG
Not regulated
