1. IDENTIFICATION

Product Identifier
Product Name Tub & Wall Caulk Strip – Butyl Based - White

Other means of identification
SDS # RD-0003

Product Code 0150, 0151

Recommended use of the chemical and restrictions on use.
Recommended Use For use between bathtub & wall.

Details of the supplier of the safety data sheet
Supplier Address
Red Devil, Inc.
4175 Webb Street
Pryor, Oklahoma 74361
www.reddevil.com

Emergency Telephone Number
Company Phone Number 918-825-5744
Fax: 918-825-5761
Emergency Telephone (24 hr) INFOTRAC 1-352-323-3500 (International)
1-800-535-5053 (North America)

2. HAZARDS IDENTIFICATION

Classification
This chemical does not meet the hazardous criteria set forth by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). However, this Safety Data Sheet (SDS) contains valuable information critical to the safe handling and proper use of this product. This SDS should be retained and available for employees and other users of this product.

Appearance White; Self-adhesive strip Physical State Preformed caulk strip Odor Slight solvent
4. FIRST-AID MEASURES

First Aid Measures

General Advice
Provide this SDS to medical personnel for treatment. Get medical attention for any significant overexposure.

Eye Contact
Flush w/ water for @ least 15 minutes. If irritation persists, get medical attention.

Skin Contact
Wash area thoroughly w/ soap & water. If irritation develops or persists, get medical attention.

Inhalation
Leave area to breathe fresh air. Avoid further overexposure. If symptoms persist, get medical attention.

Ingestion
Do not induce vomiting unless advised by a physician. Call nearest poison control center or physician immediately.

Most important symptoms and effects

Symptoms
Adhesive backing on strip may cause skin irritation w/ prolonged or repeated contact. May cause eye irritation. High vapor concentrations may irritate respiratory tract.

Indication of any immediate medical attention and special treatment needed

Notes to Physician
Aggravated Medical Conditions: Pre-existing eye, skin & respiratory disorders may be aggravated by exposure.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Small Fire
Carbon Dioxide, Dry Chemical, Foam, Water Fog.

Large Fire
Carbon Dioxide, Dry Chemical, Foam, Water Fog.

Unsuitable Extinguishing Media
Not determined.

Specific Hazards Arising from the Chemical
Butyl adhesive on back of strip is flammable. Caulk strip is combustible. & Explosion Conditions: Product not expected to ignite in normal conditions of use.

Hazardous Combustion Products
Carbon oxides.
Protective equipment and precautions for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions  Wear gloves, goggles, appropriate respirator & protective clothing, if large amount of rolls involved.

Methods and material for containment and cleaning up

Methods for Containment  Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up  Caulk strips can normally be picked up.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling  Handle in accordance with good industrial hygiene and safety practice. Keep out of reach of children & pets. Do not take internally. Do not breathe vapors. Use only w/ adequate ventilation. Wash thoroughly after handling. Avoid contact w/ eyes & skin. Open windows & doors to ensure cross-ventilation & fresh air during application & curing.

Conditions for safe storage, including any incompatibilities

Storage Conditions  Store caulk strip rolls away from excessive heat. Do not store @ temperatures above 120F.

Incompatible Materials  Strong oxidizing agents.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

<table>
<thead>
<tr>

<td>-</td>
<td>TWA: 5 mg/m$^3$ respirable fraction (vacated) TWA: 15 mg/m$^3$ total dust (vacated) TWA: 5 mg/m$^3$ respirable fraction</td>
<td>TWA: 5 mg/m$^3$ respirable dust</td>
</tr>
</tbody>
</table>

Appropriate engineering controls

Engineering Controls  General ventilation sufficient.

Individual protection measures, such as personal protective equipment

Eye/Face Protection  Avoid contact with eyes.

Skin and Body Protection  Avoid repeated or prolonged skin contact. Hand protection: Use suitable impervious rubber or vinyl gloves & protective apparel to reduce exposure.
Respiratory Protection  Not required under normal conditions of use. Wear appropriate, properly fitted NIOSH/MSHA approved organic vapor or supplied air respirator when airborne contaminant level(s) are expected to exceed exposure limits indicated on SDS. Follow manufacturer’s directions for respirator use.

General Hygiene Considerations  Handle in accordance with good industrial hygiene and safety practice. Use professional judgment in selection, care & use.

9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

Reactivity  Not reactive under normal conditions.

Chemical Stability  Stable under recommended storage conditions.

Possibility of Hazardous Reactions  None under normal processing.

Conditions to Avoid  Excessive temperature.

Incompatible Materials  Strong oxidizing agents.

Hazardous Decomposition Products  None known based on information supplied.
11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information

Eye Contact May cause temporary irritation on eye contact.

Skin Contact Prolonged or repeated contact with adhesive backing may cause skin irritation.

Inhalation Vapor may irritate respiratory tract.

Ingestion Do not taste or swallow.

Component Information

Information on physical, chemical and toxicological effects

Symptoms Please see section 4 of this SDS for symptoms.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Carcinogenicity Inhalation of crystalline silica as quartz (small percentage present in calcium carbonate filler) can cause cancer based on animal data. IARC concludes sufficient evidence in humans (Group 1). Prolonged & repeated overexposure to free crystalline silica dust above TLV level may cause scarring of the lungs, coughing & shortness of breath. Note: Inhalation of crystalline silica from normal use is unlikely, due to products physical state.

Numerical measures of toxicity
Not determined

12. ECOLOGICAL INFORMATION

Ecotoxicity
An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Persistence/Degradability
Not determined

Bioaccumulation
Not determined

Mobility
Not determined

Other Adverse Effects
Not determined

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes Disposal should be in accordance with applicable regional, national and local laws and regulations.
Contaminated Packaging

Disposal should be in accordance with applicable regional, national and local laws and regulations.

14. TRANSPORT INFORMATION

Note

Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances.

DOT

Not regulated

IATA
