SECTION 4 – FIRST AID MEASURES
Inhalation: Remove to fresh air. Administer oxygen if needed. Apply artificial respiration if breathing has stopped. Get medical attention.

Eye Contact: Wash immediately with large volumes of fresh water for at least 15 minutes. Get medical attention.

Ingestion: Not a likely route of exposure.

Skin: Wipe off with towel. Wash with soap and water. Get medical attention if irritation persists.

**Most Important Symptoms and Effects (Acute and Delayed)**

Inhalation: May cause respiratory tract irritation.

Eye Contact: Causes eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.

Ingestion: May be harmful if swallowed. May cause stomach distress, nausea, or vomiting.

Skin: Causes skin irritation. Symptoms may include redness, edema, drying, defatting and cracking of the skin.

**Indication of any Immediate Medical Attention and Special Treatment Needed**

Note to Physician: Treat symptomatically.

---

**SECTION 5 – FIRE FIGHTING MEASURES**

**Extinguishing Media**

**Suitable:** Foam, alcohol foam, carbon dioxide, dry chemical, water fog.

**Unsuitable:** Water spray may be ineffective.

**Specific Hazards Arising from Chemical**

Products of combustion include but are not limited to: carbon dioxide, carbon monoxide, and other toxic fumes. Closed containers may explode from internal pressure build-up when exposed to extreme heat and discharge contents. Liquid content of container will not support combustion. Overexposure to decomposition products may cause a health hazards. Symptoms may not be readily apparent. Obtain medical attention.

**Protective Equipment and Precautions for Firefighters**

Water may be used to cool containers to prevent pressure build-up and explosion when exposed to extreme heat. Wear goggles and use self-contained breathing apparatus. If water is used, fog nozzles are preferred.

---

**SECTION 6 – ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment, and Emergency Procedures**

**Personal Precautions:** Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Avoid breathing vapors. Ventilate area. Remove all sources of ignition.

**Methods and Material for Containment and Cleaning Up**

Small spills may be flushed to a sanitary sewer with copious amounts of water if in accordance with national and local regulations. Large spills should be cleaned up with absorbent material (e.g. sand vermiculite) and place in a container for disposal. Wash the contaminated area with soap and water.

---

**SECTION 7 – HANDLING AND STORAGE**

**Precautions for Safe Handling**

**Handling:** Do not puncture or incinerate (burn) cans. Do not stick pins, nails, or any other sharp objects into opening on top of can. Do not spray in eyes. Do not take internally. See product label for additional information.

**General Hygiene Advice:** Launder contaminated clothing before use. Wash hands before eating, drinking, or smoking.

**Conditions for Safe Storage, Including any Incompatibilities**

**Storage Conditions:** Keep container closed when not in use. Store in a dry, cool, and well-ventilated area. Keep out of reach of children. Do not store above 120°F.

**Incompatible Materials:** None known.
