Section 1 - Product and Company Identification

Product Identifiers:

- **Product Name:** Hot Shot Pest Control Concentrate
- **EPA Registration Number:** 1021-2626-8845
- **Product Use:** Insecticide – Flying & Crawling Bug, Non-aerosol

Details of the Supplier of the Safety Data Sheet:

- **Manufacturer/Supplier:** Spectrum Group
  Division of United Industries Corp.
  P.O. Box 142642
  St. Louis, MO 63114-0642
- **For product information:** 1-800-917-5431
- **For medical emergencies:** 1-800-633-2873

Section 2 - Hazards Identification

**GHS Classification of Substance or Mixture:** Combustible liquid

**GHS Label Elements:**

- **Hazard pictogram(s):** 
- **Signal word:** WARNING
- **Hazard statements:**
  - Combustible liquid
  - Causes serious eye irritation
  - Causes skin irritation
  - Harmful if swallowed
  - Harmful if inhaled

**Precautionary Statements:**

- Keep away from flames and hot surfaces. No smoking. If on clothing: Rinse immediately contaminated clothing and skin with plenty of water before removing clothing. In case of fire: Use water fog, foam, CO₂, or dry chemical to extinguish. In case of major fire and large quantities: Evacuate area. Fight fire remotely due to risk of explosion.
- Wash thoroughly with soap and water after handling. Wear goggles, face shield or safety glass for protection. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
- Wear protective gloves that are chemical resistant. If on skin: Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminate clothing and wash before reuse.
- Do not eat, drink or smoke when using this product. If swallowed: Call a poison control center or doctor for treatment advice if you feel unwell. Rinse mouth.
- Avoid breathing vapor mist. Use only outdoors or in a well-ventilated area. If inhaled: Remove person to fresh air immediately.
air and keep comfortable for breathing. Call a poison control center or doctor if you feel unwell.

### Section 3 - Composition / Information on Ingredients

<table>
<thead>
<tr>

</tbody>
</table>

Note: Ingredients not identified are proprietary or non-hazardous. Values are not product specifications.

### Section 4 - First Aid Measures

**Eye contact:**
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

**Skin contact:**
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**Inhalation:**
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

**Ingestion:**
Call a poison control center or doctor immediately for treatment advice. Have person sip water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Notes to physician:**
Contains petroleum distillate. May pose an aspiration pneumonia hazard. Inducing vomiting as first aid for this substance may result in increased risk of pneumonia edema caused by aspiration of the hydrocarbon solvent. Vomiting should be induced only under professional supervision.

**General advice:**
If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Keep out of reach of children.

### Section 5 - Fire Fighting Measures

**Flammable properties:**
Combustible liquid. Flashpoint > 140°F.

**Suitable extinguishing media:**
Water fog, foam, CO₂, dry chemical

**Unsuitable extinguishing media:**
Not available

**Specific hazards arising from the chemical:**
Liquid run-off to sewers may create fire/explosion hazards. Container may melt and leak in heat of fire. Do not allow run-off from firefighting to enter drains or water courses.

**Protective equipment for firefighters:**
Firefighters should wear full protective clothing including self-contained breathing apparatus.
Hazardous combustion products: None known
Sensitivity to mechanical impact: None known
Explosion data: Not available
Sensitivity to static discharge: Not available
Personal precautions: Keep unnecessary personnel away. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak.

Section 6 - Accidental Release Measures

Personal precautions: Remove all sources of ignition. Beware of vapors accumulating to form explosive concentrations. Wear personal protective equipment. Vapors can accumulate in low areas. Wash thoroughly after handling.
For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials.
Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
Methods for containment and cleaning up: Stop leak if without risk. Move containers from spill area. Before attempting clean up, refer to hazard data given above. Small spills may be absorbed with earth, sand or absorbent material swept up and placed in suitable, covered, and labeled containers. Prevent large spills from entering sewers or waterways. Contact emergency services and supplier for advice. Never return spills in original containers for re-use.

Section 7 - Handling and Storage

Precautions for safe handling: Put on appropriate personal protective equipment (see Section 8). Do not use near heat, open flame or any other ignition source. Take measures to prevent the buildup of electrostatic charge. Avoid contact with skin, eyes and clothing. Use an appropriate respirator when adequate ventilation is not available. Avoid breathing vapors or spray mists of the product.
Storage: Store product in a cool, dry place, out of reach of children. Keep container closed when not in use. Keep away from food, drink and animal feedingstuffs. Keep tightly closed. Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.
Section 8 - Exposure Controls / Personal Protection

Exposure guidelines:

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>OSHA PEL</th>
<th>ACGIH TLV</th>
<th>Supplier OEL</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cypermethrin</td>
<td>TWA</td>
<td>Not listed</td>
<td>Not listed</td>
</tr>
<tr>
<td>Aromatic petroleum naptha</td>
<td>TWA</td>
<td>Not listed</td>
<td>17</td>
</tr>
<tr>
<td>Naphthalene</td>
<td>TWA</td>
<td>10</td>
<td>10</td>
</tr>
</tbody>
</table>

Engineering controls: General ventilation normally adequate.

Personal protective equipment:

**Eye/Face protection:** During use and handling, prevent entry into eyes. Safety goggles or face shield should be worn.

**Skin and body protection:** Mixers, loaders, applicators and other handlers should wear coveralls over short-sleeved shirt and short pants, chemical-resistant footwear plus socks. Chemical resistant gloves made of barrier laminate or Viton, section category G.

**Respiratory protection:** Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.

**General hygiene considerations:** Handle in accordance with good industrial hygiene and safety practice. When using, do not eat or drink. Wash hands before breaks and immediately after handling the product.

Section 9 - Physical & Chemical Properties

**Appearance:** Clear

**Color:** Light yellow to water-white

**Physical state:** Liquid

**Odor:** Aromatic solvent & pyrethroid

**Odor threshold:** No data available

**pH:** 4.0 – 4.5

**Melting point:** No data available

**Freezing point:** No data available

**Boiling point:** No data available

**Flash point:** >140°F

**Evaporation rate:** No data available

**Flammability limits in air, lower, % by volume:** No data available

**Flammability limits in air, upper, % by volume:** No data available

**Vapor pressure:** No data available

**Vapor density:** No data available

**Relative density @ 20°C:** 0.988
Octanol/water coefficient: No data available
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Solubility: Insoluble in water
% Volatile organic compounds: 67 (as packaged)

Section 10 - Chemical Stability & Reactivity Information

Reactivity

Conditions to avoid: Do not mix with other chemicals.
Incompatible materials: Avoid strong oxidizers.

Chemical stability

Product stability: Stable under recommended storage conditions.

Other

Hazardous decomposition products: None known
Possibility of hazardous reactions: Hazardous polymerization does not occur.

Section 11 - Toxicological Information

Primary eye irritation: Causes substantial but temporary eye injury (EPA tox. category II)
Primary skin irritation: Causes skin irritation (EPA tox. category III)
Acute dermal: LD₅₀ > 3000 mg/kg (EPA tox. category III)
Acute inhalation: LC₅₀ > 1.5 mg/L (EPA tox. category III)
Acute oral: LD₅₀ > 3000 mg/kg (EPA tox. category III)
Sensitization: Not a skin sensitizer.
Chronic effects: No data available
Carcinogenicity: No data available
Mutagenicity: No data available
Reproductive effects: No data available
Teratogenicity: No data available
Ecotoxicity: No data available

Section 12 - Ecological Information

Environmental effects: No data available
Aquatic toxicity: Toxic to aquatic organisms.
Persistence / degradability: No data available
Bioaccumulation / accumulation: No data available
Partition coefficient: No data available
Mobility in environmental media: No data available
Chemical fate information: No data available
Section 13 - Disposal Considerations

Section 14 - Transportation Information

| U.S. Department of Transportation (DOT): | UN1993, Combustible Liquid, n.o.s., PG-III |
| IATA:                                  | UN1993, Combustible Liquid, n.o.s., PG-III |
| IMDG:                                  | UN1993,Combustible Liquid, n.o.s., PG-III |

Section 15 - Regulatory Information

29 CFR 1910.1200 hazardous chemical Occupational Safety and Health Administration (OSHA): No
CERCLA (Superfund) reportable quantity: Not available

Hazard Categories

Superfund Amendments and Reauthorization Act of 1986 (SARA):
- Immediate Hazard: No
- Delayed Hazard: No
- Fire Hazard: No
- Pressure Hazard: No
- Reactivity Hazard: No

Section 302 extremely hazardous Substance: No
Section 311 hazardous chemical: No
Clean Air Act (CAA): Not available
Clean Water Act (CWA): Not available
State regulations: None

FIFRA labeling: This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

Signal word: WARNING
Precautionary statements:
- Causes substantial but temporary eye injury. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles, face shield or safety glasses. Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapor mist.
- This product is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain
is not predicted for the next 24 hours will help ensure that wind or rain does not
blow or wash pesticide off treatment area. Rinsing application equipment over the
treated area will help avoid runoff to water bodies or drainage systems. This
product is highly toxic to bees exposed to direct treatment or residues on blooming
crops or weeds. Do not apply this product or allow it to drift to blooming crops or
weeds if bees are visiting the treatment area.

COMBUSTIBLE. Do not use or store near heat or open flame. Flashpoint 140°F min.
Do not apply this diluted product in conduits, motor housings, junction and switch
boxes or other electrical equipment because of possible shock hazard. Do not use on
surfaces that can be harmed or stained by water.

Notification status: All ingredients of this product are listed or are excluded from listing on the U.S.
Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

California Prop. 65: This product does not contain any chemicals known to the state of California to
cause cancer, birth defects or any other reproductive harm.

Disclaimer: Information contained herein was obtained from sources considered technically
accurate and reliable. While every effort has been made to ensure full disclosure of
product hazards, in some cases data is not available and is so stated. Since
conditions of actual product use are beyond control of the supplier, it is assumed
that users of this material have been fully trained according to the requirements of
all applicable legislation and regulatory instruments. No warranty, expressed or
implied, is made and supplier will not be liable for any losses, injuries or
consequential damages which may result from the use of or reliance on any
information contained in this document.
