Component Related Regulatory Information
This product may be regulated, have exposure limits or other information identified as the following: Nuisance particulates.

Component Information/Information on Non-Hazardous Components
No additional information available.

---

**Section 3 - Hazards Identification**

**Appearance and Odor:** Pink, white or green closed-cell foam board with no odor.

**Emergency Overview**
Exposure to dust may be irritating to eyes, nose, and throat. To prevent ignition, avoid smoking, keep from open flames and high temperatures. Grinding, sawing or fabrication activities can produce dust particles which may under certain conditions form explosive dust atmospheres that can be ignited.
Material Safety Data Sheet

Material Name: Foamular® Extruded Polystyrene Insulation
MSDS No.: 15-MSD-21528-01-D

Potential Health Effects

Inhalation:
Dusts produced by cutting or drilling of this product may cause irritation of the nose, throat, and respiratory tract.

Skin Contact:
No effects expected

Eye Contact:
Dust produced from cutting or drilling of this product may cause slight irritation to the eyes.

Ingestion:
Ingestion of this product is unlikely. However, ingestion of product may produce gastrointestinal irritation and disturbances.

Medical Conditions Aggravated by Exposure:
Chronic respiratory or skin conditions may temporarily worsen from exposure to this product.

*** Section 4 - First Aid Measures ***

Inhalation:
If dust from cutting or drilling is inhaled, immediately remove the affected person to fresh air. If symptoms persist, get medical attention.

Skin Contact:
For skin contact, wash with mild soap and running water. If irritation persists get medical attention.

Eye Contact:
Immediately flush eyes with plenty of water for at least 15 minutes. If irritation persists get medical attention.

Ingestion:
Ingestion of this material is unlikely. If it does occur, watch the person for several days to make sure that partial or complete intestinal obstruction does not occur. Do not induce vomiting unless directed to do so by medical personnel.

*** Section 5 - Fire Fighting Measures ***

Flash Point: >615°F (324°C)  Flash Point Method: Method - ASTM D 1929
Upper Flammability Limit: Not applicable  Lower Flammability Limit: Not applicable
Flammability Classification: Non-flammable  Auto Ignition Temp.: Not applicable

Extinguishing Media:
Water, carbon dioxide, or dry chemical.

Unusual Fire & Explosion Hazards:
Produces dense black smoke while burning. Grinding, sawing or fabrication activities of the foamular board can produce dust particles which may under certain conditions form explosive dust atmospheres that can be ignited.

Fire-Fighting Instructions:
Use self-contained breathing apparatus (SCBA) and full bunker turnout gear in a sustained fire.
Hazardous Combustion Products:
Primary combustion products are carbon monoxide, carbon dioxide, and styrene. The HCFC-142B ingredient thermally decompose at temperatures in the order of 430ºC (805ºF). The decomposition products include hydrogen fluoride, hydrogen chloride, carbon monoxide, carbon dioxide, fluorine, and chlorine. Other undetermined hydrocarbon fractions could be released in small quantities.

** ** Section 6 - Accidental Release Measures ** **

Containment Procedures:
Dust from cutting or drilling this material will settle out of the air. If concentrated on land, it can then be scooped up for disposal as a non-hazardous waste. In water this material will float and disperse with wind and current. Contain the material with booms and pick up with absorbents or adsorbent materials, or remove with a vacuum truck.

Clean-Up Procedures:
Scoop up material and put into a suitable container for disposal as a non-hazardous waste.

Response Procedures:
Isolate area. Keep unnecessary personnel away.

Special Procedures:
None.

** ** Section 7 - Handling and Storage ** **

Handling Procedures:
No special procedures are required for this material.

Avoid inhaling dusts or vapors. Avoid eye and excessive skin contact. Use only with adequate ventilation. As with all chemicals, good industrial hygiene practices should be followed when handling this material. Special care must be taken to avoid buildup of dusts.

Storage Procedures:
No special procedures are required for this material.

** ** Section 8 - Exposure Controls / Personal Protection ** **

Exposure Guidelines:
A: General Product Information
Follow all applicable exposure limits.
Material Safety Data Sheet

Material Name: Foamular® Extruded Polystyrene Insulation

B: Component Exposure Limits

ACGIH and OSHA exposure limit lists have been checked for those components with CAS registry numbers.

### Polystyrene (9003-53-6)

<table>
<thead>
<tr>

<td>20 mppcf (Table Z-3 Mineral Dusts)</td>
</tr>
</tbody>
</table>

**Ventilation:**

Provide sufficient general and/or local exhaust ventilation to maintain exposures below the PELs or TLVs. Grinding sawing or fabrication activities of the foamular board can produce dust particles which may under certain conditions form explosive dust atmospheres that can be ignited.

**PERSONAL PROTECTIVE EQUIPMENT**

**Respiratory Protection:**

A properly fitted NIOSH approved respirator should be used under the following conditions: 1) any dust environment; 2) when mechanically altering product (mechanical transfer, crushing, grinding, milling or other similar dust generating process. Use respiratory protection in accordance with your company's respiratory protection program, local regulations and OSHA regulations under 29 CFR 1910.134.

**Skin Protection:**

Normal work clothing (long sleeved shirts and long pants) is recommended.

**Eyes/Face Protective Equipment:**

Wear safety glasses or goggles.

**Physical Properties: Additional Information**

No additional information available.
**Section 10 - Chemical Stability & Reactivity Information**

**Stability:**
This is a stable material.

**Conditions to Avoid:**
Avoid dispersion of dust in air.

**Incompatible Materials:**
Hydrocarbons, esters and amines.

**Hazardous Decomposition Products:**
Primary combustion products are carbon monoxide, carbon dioxide, and styrene. The HCFC-142B ingredient thermally decompose at temperatures in the order of 430°C (805°F). The decomposition products include hydrogen fluoride, hydrogen chloride, carbon monoxide, carbon dioxide, fluorine, and chlorine. Other undetermined hydrocarbon fractions could be released in small quantities.

**Hazardous Polymerization:**
Will not occur.

**Section 11 - Toxicological Information**

**Acute and Chronic Toxicity:**

**A: General Product Information**
Dusts from cutting and drilling may cause mechanical irritation to eyes and skin. Ingestion may cause transient irritation of throat, stomach and gastrointestinal tract. Inhalation may cause coughing, nose and throat irritation, and sneezing. Higher exposures may cause difficulty breathing, congestion, and chest tightness.

**B: Component Analysis - LD50/LC50**
- HCFC-142b (75-68-3)
  - Inhalation LC50 Rat: 2050 gm/m3/4H
  - Inhalation LC50 Mouse: 1758 gm/m3/2H

**Carcinogenicity:**

**A: General Product Information**
Note: There are no known chronic health effects connected with long-term use or contact with these products.

**B: Component Carcinogenicity**
ACGIH, IARC, OSHA, and NTP carcinogen lists have been checked for those components with CAS registry numbers.

- **Polystyrene** (9003-53-6)
  - IARC: Supplement 7, 1987; Monograph 19, 1979 (Group 3 (not classifiable))

- **Talc** (14807-96-6)
  - ACGIH: A4- Not Classifiable as a Human Carcinogen (containing no asbestos fibers)
  - IARC: Group 3 (not classifiable) Supplement 7, 1987; Monograph 42, 1987
*** Section 12 - Ecological Information ***

Ecotoxicity:
No data available for this product. This material is not expected to cause harm to animals, plants or fish.

Environmental Fate:
No data available for this product.

*** Section 13 - Disposal Considerations ***

US EPA Waste Number & Descriptions:
A: General Product Information
Material, if discarded, is not expected to be a characteristic hazardous waste under RCRA.

B: Component Waste Numbers
No EPA Waste Numbers are applicable for this product's components.

Disposal Instructions:
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.

*** Section 14 - Transportation Information ***

US DOT Information
Shipping Name: Not regulated for transport.
Hazard Class: None
UN/NA #: None
Packing Group: None
Required Label(s): None
Additional Info.: None

TDG Information
Shipping Name: Not regulated for transport.
Hazard Class: None
UN/NA #: None
Packing Group: None
Required Label(s): None
Additional Info.: None

Additional Transportation Regulations:
No additional information available.

*** Section 15 - Regulatory Information ***

US Federal Regulations:
A: General Product Information
No information available for the product.
B: Component Analysis

This material contains one or more of the following chemicals required to be identified under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65) and/or CERCLA (40 CFR 302.4).

HCFC-142b (75-68-3)
SARA 313: form R reporting required for 1.0% de minimis concentration

SARA 311/312
Acute Health Hazard: No
Chronic Health Hazard: No
Fire Hazard: No
Sudden Release of Pressure Hazard: No
Reactive Hazard: No

C: Clean Air Act

None of this product's components are listed on the Clean Air Act-1990 Hazardous Air Pollutants List.

State Regulations:

B: Component Analysis - State

The following components appear on one or more of the following state hazardous substances lists:

<table>
<thead>
<tr>
