Section 1: Identification

Product identifier

Product Name  | Bio Spot Active Care Yard & Garden Spray
Synonyms      | 100512281; 100518921; EPA Reg. No.: 28293-271-89459
Product Description  | Off-white liquid.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use  | Insect control for lawns.
Restrictions on use  | Avoid contact with eyes, skin or clothing. Keep out of reach of children and pets.

Details of the supplier of the safety data sheet

Manufacturer  | Central Garden & Pet Company
              | 1501 E. Woodfield Road, Suite 200W
              | Schaumburg, IL 60173
              | United States

Emergency telephone number

Manufacturer (Transportation)  | 1-703-527-3887 - CHEMTREC - Outside North America - Collect Calls Accepted
Manufacturer (Transportation)  | 1-800-424-9300 - CHEMTREC
Manufacturer  | 1-800-234-2269

Section 2: Hazard Identification

United States (US)
According to OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012  | Specific Target Organ Toxicity Single Exposure 1 - H370

Label elements

OSHA HCS 2012

DANGER

Hazard statements  | Causes damage to organs - nervous system. - H370

Precautionary statements

Prevention  | Do not eat, drink or smoke when using this product. - P270
            | Wash thoroughly after handling. - P264
Avoid breathing dust, fume, gas, mist, vapors and/or spray. - P261

Response
IF exposed: Call POISON CENTER or doctor/physician. - P307+P311
Specific treatment, see supplemental first aid information. - P321

Storage/Disposal
Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. - P501
Store locked up. - P405

Section 3 - Composition/Information on Ingredients

Substances
Material does not meet the criteria of a substance.

Mixtures

Section 4: First-Aid Measures

Description of first aid measures

Inhalation
IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CONTROL center or doctor.

Skin
IF ON SKIN: Wash with plenty of soap and water.

Eye
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms occur.

Ingestion
IF SWALLOWED: Call a POISON CONTROL center or doctor if you feel unwell. Rinse mouth. Do NOT induce vomiting.

Most important symptoms and effects, both acute and delayed
Causes damage to organs - nervous system. Refer to Section 11 - Toxicological Information.

Indication of any immediate medical attention and special treatment needed
Notes to Physician
Treat symptomatically and supportively.

Section 5: Fire-Fighting Measures

Extinguishing media
Suitable Extinguishing Media
Use water fog, foam, carbon dioxide, or dry chemical.

Unsuitable Extinguishing Media
None known.
Do not use direct water stream.
Firefighting Procedures
Do not allow fire fighting water to escape into waterways or sewers.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards
None known.

Hazardous Combustion Products
Carbon and nitrogen oxides.

Advice for firefighters
Wear positive pressure self-contained breathing apparatus (SCBA).

Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions
Avoid contact with skin, eyes, and clothing. Avoid breathing fumes.

Emergency Procedures
No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended.

Environmental precautions
Do NOT water the treated area to the point of runoff. Do not allow runoff into water, storm drains or drainage ditches.

Methods and material for containment and cleaning up

Containment/Clean-up Measures
Stop leak if you can do it without risk.
SMALL SPILLS: Take up with sand or other non-combustible absorbent material and place into containers for later disposal.
LARGE SPILLS: Dike far ahead of spill for later disposal.

Section 7 - Handling and Storage

Precautions for safe handling

Handling
Use good safety and industrial hygiene practices. Avoid contact with skin or eyes. Use only with adequate ventilation. Wash thoroughly after handling.

Conditions for safe storage, including any incompatibilities

Storage
Keep this product in its tightly closed original container, when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and pets. Store locked up.

Section 8 - Exposure Controls/Personal Protection

Control parameters

Exposure controls

Engineering Measures/Controls
No data available

Personal Protective Equipment

Pictograms

Respiratory
If prolonged exposure is anticipated wear appropriate respiratory protection.

Eye/Face
Wear chemical splash safety goggles.

Hands
Wear appropriate gloves.

Skin/Body
If prolonged exposure is anticipated, it is recommended for handlers to wear
Environmental Exposure Controls

Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste.

Section 10: Stability and Reactivity

Reactivity

- No dangerous reaction known under conditions of normal use.

Chemical stability

- Stable under normal temperatures and pressures.

Possibility of hazardous reactions

- Hazardous polymerization will not occur.

Conditions to avoid

- Excessive heat.

Incompatible materials

- Store away from oxidizers and strong acids.

Hazardous decomposition products

- Carbon and nitrogen oxides.

Route(s) of entry/exposure | Inhalation, Skin, Eye, Ingestion.

Potential Health Effects

Inhalation

Acute (Immediate) | Harmful if inhaled. Permethrin affects nervous system. Symptoms of overexposure to permethrin include diarrhea, salivation, tremors, convulsions, hyperactivity and hypersensitivity.

Chronic (Delayed) | No data available.

Skin

Acute (Immediate) | May cause mild irritation.

Chronic (Delayed) | No data available.

Eye

Acute (Immediate) | May cause irritation.

Chronic (Delayed) | No data available.

Ingestion

Acute (Immediate) | Harmful if ingested. Permethrin affects nervous system. Symptoms of overexposure to permethrin include diarrhea, salivation, tremors, convulsions, hyperactivity and hypersensitivity.

Chronic (Delayed) | No data available.

Mutagenic Effects | Active Ingredient Only: Permethrin did not produce any mutagenic effects when tested in the Ames assay.

Carcinogenic Effects | Active Ingredient: A statistically significant increase in the incidence of lung and liver tumors was observed in female mice receiving diets containing 375 and 750 mg/kg/day of permethrin technical over 85 weeks. Permethrin is not classified as carcinogen by NTP, IARC and OSHA.
Reproductive Effects

Active Ingredient Only Developmental Toxicity: Permethrin was not teratogenic when tested in rats.

</tr>
</tbody>
</table>

Persistence and degradability

Active ingredient: Permethrin has a moderate rate of degradation in soil and half-life is related to soil type, microbial population, concentration in the soil and the aerobic condition of the soil.

Bioaccumulative potential

Active ingredient: Permethrin has a Log Pow of 6.1, but because of the ease with which biological systems degrade the molecule, the potential for bioconcentration and accumulation in the environment is low (BCF = 500).

Mobility in Soil

Active ingredient: Permethrin has a high affinity for organic matter (Koc = 86,000), there is little potential for movement in soil or entry into groundwater.

Results of PBT and vPvB assessment

No PBT and vPvB assessment has been conducted.

Other adverse effects

No studies have been found.

Potential Environmental Effects

This pesticide is extremely toxic to aquatic organisms including fish and invertebrates. Care should be taken to avoid contamination of the aquatic environment.

Section 13 - Disposal Considerations

Waste treatment methods

Product waste

Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. Do not allow entry into storm drains, drainage ditches, gutters or surface waters.

Packaging waste

Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**Section 15 - Regulatory Information**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**

**SARA Hazard Classifications** | SARA Title III Section 313, Chronic

**FIFRA – Pesticide Labeling**

This material is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

**CAUTION**

**Precautionary Statements**

Keep out of reach of children.

**Hazards to Humans and Domestic Animals**

HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

**First Aid**

FIRST AID: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**Environmental Hazards**

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

**United States**
