Description of first aid measures

Inhalation

• IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms occur. If signs/symptoms continue, get medical attention.

Skin

• Call poison control center or doctor for treatment advice. IF ON SKIN: Wash with plenty of soap and water.

Eye

• In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If eye irritation persists: Get medical advice/attention.

Ingestion

• Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Have person sip a glass of water if able to swallow. If ingested, call control center or doctor immediately for treatment advice.

Most important symptoms and effects, both acute and delayed

• Refer to Section 11 - Toxicological Information.

Indication of any immediate medical attention and special treatment needed

Notes to Physician
