1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Fipronil (25%) Spray
Trade Name(s): FIPRONIL SPRAY
FRONTLINE
FRONTLINE 0.5 ML AND 1.5 ML
FRONTLINE 2.5 MG/ML SPRAY
FRONTLINE PERMET A.U.V.
FRONTLINE SPRAY
FRONTLINE SPRAY AD US. VET.
FRONTLINE SPRAY POMPE (0.5 ML - 1.5 ML)
FRONTLINE VET. - SOLUTION FOR EXTERNAL USE 2.5 MG/ML

Chemical Family: Mixture: phenylpyrazole
Chemical Name: Mixture - NA
Synonyms: NA
Formula: None
Product Use: Veterinary medicine

COMPANY ADDRESS
Merial Limited
3239 Satellite Blvd.
Duluth, Georgia 30096-4640

EMERGENCY INFORMATION:
HEALTH INFORMATION 1-888-637-4251, option 3 (U.S.A. and Canada)
SPILL INFORMATION CHEMTREC® (In the U.S.A.): 1-800-424-9300
CHEMTREC® (International): 1+703-527-3887 (call collect)

* Merial regards the identity of the individual components of this formulation to be proprietary information which is being withheld in accordance with the Trade Secret provisions of 29 CFR 1910.1200. Certain of the excipients included in the mixture may be classified as a health hazard. However, the excipients are at levels that are recognized as safe, and/or have been
approved for use at these levels in various food, pharmaceutical and/or cosmetic products or applications.

**POTENTIAL HEALTH EFFECTS**

The following potential health effects may be extrapolated from the individual components of the mixture.

**EYE:**
The product is moderately irritating to the eyes.

**SKIN:**
The product is not anticipated to produce skin irritation.

**INHALATION:**
The product is not anticipated to produce vapors in a sufficient quantity that would be irritating to eyes, skin, nose and/or throat.

**INGESTION:**
This product may be harmful if swallowed.

**CHRONIC EFFECTS:**
No specific effects of chronic exposure are known.

**SIGNS AND SYMPTOMS OF EXPOSURE:**
Ingestion (i.e. large quantities) of this product may result in nausea, drowsiness, headache, tremors, and dizziness. Ocular exposure may result in transient redness, tearing or pain.

**MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE:**
None known.

**POTENTIAL ENVIRONMENTAL EFFECTS**
Some components of this mixture are toxic to aquatic organisms. Do not allow this product to come in contact with soil or be discharged to waterways.

---

**4. FIRST AID MEASURES**

**EYE CONTACT:**
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician if irritation persists.

**SKIN CONTACT:**
In case of contact, immediately wash skin with soap and water. Remove contaminated clothing and shoes and launder before reuse. If skin irritation develops and persists or recurs, contact a physician.

**INHALATION:**
If lungs are irritated or breathing is difficult, move patient to fresh air and contact a physician.

**INGESTION:**
If swallowed, seek immediate medical attention.

---

**5. FIRE FIGHTING MEASURES**

**DANGER OF EXPLOSION:**
This product is not explosive. However, formation of explosive

---

Version Date: 26 October 2010
UNUSUAL FIRE AND EXPLOSION HAZARDS:

Prevent accumulation of vapors. When heated to decomposition, may produce oxides of carbon and nitrogen.

EXTINGUISHING MEDIA:

Carbon dioxide, dry chemical extinguishers, foam, water fog or spray. Large fires with "alcohol"-type foam extinguishers. Use extinguishing media appropriate for surrounding materials. Water may be ineffective, but should be used to keep fire-exposed containers cool.

PROTECTION OF FIREFIGHTERS:

Fire fighters should wear NIOSH/MSHA approved positive pressure self-contained breathing apparatus and full protective equipment.

6. ACCIDENTAL RELEASE MEASURES

For transportation-related and large spills call CHEMTREC at 1-800-424-9300. If outside the U.S.A., call CHEMTREC collect at +1-703-527-3887. For small spills, using protective equipment as prescribed in Section 8. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material in sealed container as waste according to Section 13.

PERSONAL PRECAUTIONS:

Evacuate unnecessary personnel and eliminate all sources of ignition. Follow protective measures provided under Personal Protection in Section 8.

ENVIRONMENTAL PRECAUTIONS:

Avoid discharges to sewers and streams.

METHODS FOR CLEANING UP:

For small spills, soak up with absorbent materials and place in properly labeled containers. Large spills can be removed using a vacuum truck.

7. HANDLING AND STORAGE

HANDLING:

No smoking, eating, or drinking while using this product. Keep container tightly closed when not in use. Provide for adequate ventilation to prevent accumulation of vapors.

Avoid prolonged or repeated exposure. Do not get in eyes, on skin or clothing. Keep away from incompatible materials (see Section 10).

PROTECTION AGAINST EXPLOSION AND FIRES:

Keep ignition sources away. Do not smoke. Protect against electrostatic charges.

STORAGE:

Store in a well ventilated location.
8. **EXPOSURE CONTROLS / PERSONAL PROTECTION (INDUSTRIAL)**

The following component has OSHA and ACGIH exposure limits.

<table>
<thead>
<tr>
<th>Components</th>
<th>% w/v</th>
<th>OSHA PEL ppm</th>
<th>OSHA PEL mg/m³</th>
<th>ACGIH TLV-TWA/STEL ppm</th>
<th>ACGIH TLV-TWA/STEL mg/m³</th>

<td>400</td>
<td>980</td>
<td>400/500</td>
<td>980/1225</td>
</tr>
</tbody>
</table>

**ENGINEERING CONTROLS:** Special, local ventilation is needed at points where vapor can be expected to escape to the workplace air. Use good general local exhaust ventilation to prevent accumulation of vapors.

**EYE / FACE PROTECTION:** Wear chemical splash goggles when cleaning spilled product or if the potential for eye contact exists (ANSI A137.1). Wear safety glasses with side shields for normal handling.

**SKIN PROTECTION:** Wear butyl rubber, neoprene, vinyl or other chemical resistant impervious gloves when using this product in larger quantities to prevent skin contact. Wash thoroughly after handling.

**RESPIRATORY PROTECTION:** Wear mask with organic vapor cartridge, gloves, protective clothing, and eye protection when cleaning up spills. For normal use, ensure adequate exhaust ventilation.

**GENERAL HYGIENE CONSIDERATIONS:** Do not eat, drink, or smoke while using this product. Wash hands thoroughly after use.

**OTHER:** Emergency shower and eyewash facility should be in close proximity (ANSI Z358.1).

Contaminated clothing must be cleaned and laundered before reuse. (29 CFR 1910.1048).

10. **STABILITY AND REACTIVITY**

**STABILITY:** Stable under normal conditions.
CONDITIONS TO AVOID: Avoid exposure to heat, sparks, or flame.
MATERIALS TO AVOID: Avoid strong oxidizing agents
HAZARDOUS DECOMPOSITION PRODUCTS: When heated to decomposition may produce oxides of carbon and nitrogen as well as other uncharacterized decomposition products.
HAZARDOUS POLYMERIZATION: Will not occur.

11. TOXICOLOGICAL INFORMATION

POTENTIAL EXPOSURE ROUTES: This product may be encountered through skin contact, eye contact, ingestion, or inhalation of vapors.
SIGNS AND SYMPTOMS OF EXPOSURE: This product may produce transient eye irritation on contact. Components of this product can affect CNS if toxic amounts are swallowed or inhaled (slow heart rate, low blood pressure, low body temperature).

The following toxicity data are derived from the final formulation.

ACUTE ANIMAL TOXICITY DATA for Formulation:

<table>

NE = Not Established

The following toxicity data are derived from the formulation components, and are considered relevant to the final formulation.

CARCINOGENICITY: None of the components of the mixture are considered to be carcinogenic in humans.
MUTAGENICITY: None of the components of the mixture are considered to be mutagenic.
REPRODUCTIVE EFFECTS: None of the components of the mixture are considered to be a reproductive toxin at the dose rate and frequency stated on the packaging for this formulation.
TERATOGENICITY/DEVELOPMENTAL EFFECTS: None of the components of the mixture are considered to be teratogenic or a developmental toxin at the dose rate and frequency stated on the packaging for this formulation.

Version Date: 26 October 2010
NEUROLOGICAL EFFECTS: Symptoms of respiratory depression or central nervous system depression may occur if exposed to the formulation in large volumes. Clinical signs include: loss of consciousness, nausea, drowsiness, headache, tremors, and dizziness.

INTERACTIONS WITH OTHER CHEMICALS WHICH ENHANCE TOXICITY: None known

12. ECOLOGICAL INFORMATION

The following toxicity data are derived from the formulation components, and are considered relevant to the final formulation.

TOXICITY: LC₅₀/EC₅₀ ranged from 0.009 to >100 mg/L for freshwater fish, invertebrates and plants.

Based on test results for the most sensitive species (freshwater invertebrates) and mathematical modeling, the environmental category for the formulation would be Category 1 Acute Aquatic Toxicity (GHS standards).

PERSISTENCE: Based upon biodegradation testing, computer modeling and physico-chemical characteristics of the various components in the formulation, all of the components are inherently biodegradable in the environment.

BIOACCUMULATION: The Kₐw of the individual components predict that some of the components have the potential for bioaccumulation in the environment, but based on fugacity modeling and biodegradation testing, the results would suggest that the potential is low for those components. Therefore, it is anticipated that none of the various components in the formulation would persist in the environment.

Remarks: Do not allow this product to be discharged to waterways. Components of this product are toxic to aquatic and insect species.

13. DISPOSAL CONSIDERATIONS

Responsibility for proper waste disposal is with the owner of the waste. Dispose of all waste product and containers in accordance with local, state, federal, and national regulations.

14. TRANSPORT INFORMATION

USDOT Regulations: Hazard Class: 3
Identification Number: 1219
Packing Group: II
Proper Shipping Name: Isopropanol (Isopropyl Alcohol)
(technical name)

Version Date: 26 October 2010
LAND TRANSPORT ADR/RID (Cross-Border):

- ADR/RID Class: 3 Flammable Liquids
- Danger Code (Kemler): 33
- UN Number: 1219
- Packaging Group: II
- Proper Shipping Name: Isopropanol (Isopropyl Alcohol)

MARITIME TRANSPORT IMDG:

- IMDG Class: 3
- UN Number: 1219
- Label: 3
- Packaging Group: II
- EMS Number: 3-05
- Marine Pollutant: Yes
- Proper Shipping Name: Isopropanol (Isopropyl Alcohol)

AIR TRANSPORT ICAO-TI AND IATA-DGR:

- ICAO/IATA Class: 3
- UN/ID Number: 1219
- Label: 3
- Packing Group: II
- Proper Shipping Name: Isopropanol (Isopropyl Alcohol)

---

15. REGULATORY INFORMATION

**SARA 313 LISTING:**
Isopropanol (Isopropyl Alcohol) is the only component of this formulation listed under SARA 313.

**SARA 312 HAZARD CLASS:**
Isopropanol (Isopropyl Alcohol) is listed as a Fire, Acute Health and Chronic Health Hazard.

**SARA EXTREMELY HAZARDOUS SUBSTANCES:**
None of the components of this product are listed.

**EPA HAZARDOUS SUBSTANCES LIST:**
None of the components of this product are listed.

**TSCA INVENTORY STATUS:**
Isopropanol (Isopropyl Alcohol; 2-propanol) is the only component of this formulation listed TSCA Chemical Substance Inventory.

**CANADIAN WHMIS CLASS:**
Isopropanol (Isopropyl Alcohol) is listed as flammable.

**GHS HAZARD PHRASES:**
- H226 Flammable liquid and vapor
- H303 May be harmful if swallowed
- H313 May be harmful in contact with skin
- H320 Causes eye irritation
- H400 Very toxic to aquatic life with long lasting effects

**GHS PRECAUTIONARY PHRASES:**
- P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
- P233 Keep container tightly closed.
- P240 Ground/bond container and receiving equipment.
- P241 Use explosion-proof electrical/ventilating/lighting/.../equipment.

Version Date: 26 October 2010
Use only non-sparking tools.
Take precautionary measures against static discharge.
Wash thoroughly after handling
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
In case of fire: Use ... for extinction.
Store in a well-ventilated place. Keep cool.
Dispose of contents/container in accordance with local/regional/national/international regulation
Call a POISON CENTER or doctor/physician if you feel unwell.
Avoid release to the environment.
Collect spillage.
