Safety Data Sheet

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier
Product Name • Instant Power® Root Destroyer
CAS Number • 7758-99-8
Product Code • MSDS No.: 1885
EC Number • 231-847-6
Molecular Formula • :H 12:O 9:S 1:Cu 1:

1.2 Relevant identified uses of the substance or mixture and uses advised against
Relevant identified use(s) • To kill the roots of trees and plants invading sewer lines

1.3 Details of the supplier of the safety data sheet
Supplier • Scotch Corporation
1255 Viceroy
Dallas, TX 75247
United States
www.scotchcorp.com
mail@scotchcorp.com
Telephone (General) • 1-800-334-2077

EU Supplier • Robimatic Ltd.
Sandall Stones Road
Kirk Sandall Industrial Estate Doncaster DN3 1QR
United Kingdom
robimatic@polypipe.com
Telephone (General) • +44 (0) 1302-790-790
Fax • +44 (0) 1302-790-088

1.4 Emergency telephone number
• 1-800-424-9300 - CHEMTREC (USA)
• 1-703-527-3887 - CHEMTREC (International)

Section 2: Hazards Identification

EU/EEC
According to: EU Directive 67/548/EEC (DSD) or 1999/45/EC (DPD)

2.1 Classification of the substance or mixture
CLP • Skin Irritation 2 - H315
Instant Power® Root Destroyer

Eye Irritation 2 - H319
Acute Toxicity Oral 4 - H302

DSD/DPD
- Irritant (Xi)
- Harmful (Xn)
- Dangerous to the Environment (N)
R22, R36/38, R50, R53

2.2 Label Elements

CLP

WARNING

Hazard statements
- H315 - Causes skin irritation
- H319 - Causes serious eye irritation
- H302 - Harmful if swallowed

Precautionary statements

Prevention
- P264 - Wash thoroughly after handling.
- P270 - Do not eat, drink or smoke when using this product.
- P280 - Wear protective gloves/protective clothing/eye protection/face protection.

Response
- P302+P352 - IF ON SKIN: Wash with plenty of soap and water.
- P332+P313 - If skin irritation occurs: Get medical advice/attention.
- P321 - Specific treatment, see supplemental first aid information.
- P362 - Take off contaminated clothing and wash before reuse.
- P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P337+P313 - If eye irritation persists: Get medical advice/attention.
- P301+P312 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician if you feel unwell.
- P330 - Rinse mouth.

Storage/Disposal
- P501 - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
- P102 - Keep out of reach of children.

DSD/DPD

Risk phrases
- R22 - Harmful if swallowed.
- R36/38 - Irritating to eyes and skin.
- R50 - Very toxic to aquatic organisms.
- R53 - May cause long-term adverse effects in the aquatic environment.

Safety phrases
- S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- S57 - Use appropriate containment to avoid environmental contamination.
- S1/2 - Keep locked up and out of the reach of children.

2.3 Other Hazards

CLP
- According to Regulation (EC) No. 1272/2008 (CLP) this material is considered hazardous.

DSD/DPD
- This product is not considered dangerous under the European Directive 67/548/EEC

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the substance or mixture
OSHA HCS 2012
- Acute Toxicity Oral 4
- Skin Irritation 2
- Eye Irritation 2A

2.2 Label elements
OSHA HCS 2012

**WARNING**

**Hazard statements**
- Harmful if swallowed
- Causes skin irritation
- Causes serious eye irritation

**Precautionary statements**

**Prevention**
- Wash thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear protective gloves/protective clothing/eye protection/face protection.

**Response**
- If skin irritation occurs: Get medical advice/attention.
- Specific treatment, see supplemental first aid information.
- Take off contaminated clothing and wash before reuse.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- If eye irritation persists: Get medical advice/attention.
- IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician if you feel unwell.
- Rinse mouth.

**Storage/Disposal**
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
- Keep out of reach of children.

2.3 Other hazards
OSHA HCS 2012

---

Canada
According to: WHMIS

2.1 Classification of the substance or mixture
WHMIS
- Toxic - D1B
- Other Toxic Effects - D2B

2.2 Label elements
WHMIS

- Toxic - D1B
- Other Toxic Effects - D2B

2.3 Other hazards
WHMIS • In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

Section 3 - Composition/Information on Ingredients

</tr>
</tbody>
</table>

3.2 Mixtures

- Material does not meet the criteria of a mixture in accordance with Regulation (EC) No 1272/2008.

Section 4 - First Aid Measures

4.1 Description of first aid measures

Inhalation • Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. Seek medical attention immediately.

Skin • Immediately wash skin with soap and water for at least 20 minutes. Remove contaminated clothing and wash before reuse. Seek medical attention if irritation persists.

Eye • Immediately flush eyes with running water for at least 20 minutes lifting upper and lower eyelids occasionally. Get medical attention immediately.

Ingestion • Do NOT induce vomiting. Rinse mouth. Do not give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

4.2 Most important symptoms and effects, both acute and delayed

• Refer to Section 11 - Toxicological Information.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to Physician • All treatments should be based on observed signs and symptoms of distress in the patient.

Consideration should be given to the possibility that overexposure to materials other than this product
Section 5 - Firefighting Measures

5.1 Extinguishing media

<table>
<thead>
<tr>
<th>Suitable Extinguishing Media</th>
<th>Use extinguishing agent suitable for type of surrounding fire. Water spray may be used to keep fire exposed containers cool.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unsuitable Extinguishing Media</td>
<td>None known.</td>
</tr>
</tbody>
</table>

5.2 Special hazards arising from the substance or mixture

<table>
<thead>
<tr>
<th>Unusual Fire and Explosion Hazards</th>
<th>Not flammable or combustible but may decompose in the heat of a fire to produce corrosive and/or toxic fumes. Sealed containers may rupture during fire conditions from pressure water vapor release.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hazardous Combustion Products</td>
<td>Sulfur oxides and copper fumes.</td>
</tr>
</tbody>
</table>

5.3 Advice for firefighters

- Wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. When heated above 110°C (302°F) material will melt. Avoid using a direct water stream on molten material as it may cause splattering. Dike fire control water for disposal.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions - Ventilate area of leak or spill. Contain the discharged material. Wear appropriate personal protective equipment.

Emergency Procedures - Keep unauthorized personnel away.

6.2 Environmental precautions

- Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and material for containment and cleaning up

Containment/Clean-up Measures - Sweep up without creating a dust cloud, mark & store as hazardous waste. If not sweepable, collect on absorbent material, store as hazardous waste. Use EPA approved hazardous waste disposal site. Follow applicable local, state, and federal regulations.

6.4 Reference to other sections

- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7 - Handling and Storage

7.1 Precautions for safe handling

Handling - Do not use in areas without adequate ventilation. Avoid contact with skin and eyes. Do not ingest. Wash thoroughly after handling. Use good safety and industrial hygiene practices.

7.2 Conditions for safe storage, including any incompatibilities

Storage - Store in a well-ventilated place. Keep container tightly closed. Protect against physical damage. Keep away from incompatible materials. Store in cool, dry, ventilated area away from sunlight. Containers may be hazardous when empty since they retain product residue. Keep out of reach of children.
7.3 Specific end use(s)
- To kill the roots of trees and plants invading sewer lines.

Section 8 - Exposure Controls/Personal Protection

Exposure Limits Supplemental

ACGIH
- Instant Power® Root Destroyer as Copper Compounds: TLV Basis - Critical Effects: (gastrointestinal (dust and mist); irritation (dust and mist))
- Copper Sulfate, Pentahydrate as Copper compounds: TLV Basis - Critical Effects: (gastrointestinal (dust and mist); irritation (dust and mist))
- Copper as Copper Compounds: TLV Basis - Critical Effects: (gastrointestinal (dust and mist); irritation (dust and mist))

8.2 Exposure controls

Engineering Measures/Controls
- Local and mechanical exhaust recommended. Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values.

Personal Protective Equipment

Respiratory
- For limited exposure use a NIOSH approved dust mask. For prolonged exposure use an air-purifying respirator with high efficiency particulate air (HEPA) filters. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face
- Wear face shield and chemical safety goggles.

Skin/Body
- Wear long sleeves and/or protective coveralls. Wear protective gloves impervious to this material.

General Industrial Hygiene Considerations
- Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or going to the bathroom.

Environmental Exposure Controls
- Follow best practice for site management and disposal of waste.

Key to abbreviations
ACGIH = American Conference of Governmental Industrial Hygiene
NIOSH = National Institute of Occupational Safety and Health
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

9.2 Other Information

- No additional physical and chemical parameters noted.

**Section 10: Stability and Reactivity**

10.1 Reactivity

- No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

- Hygroscopic but stable when kept dry, under normal temperatures and pressures.

10.3 Possibility of hazardous reactions

- Hazardous polymerization will not occur.

10.4 Conditions to avoid

- Incompatible materials. Substance will ignite Hydroxylamine. Solutions are acidic and can react with magnesium to evolve flammable hydrogen gas. May react with acetylene to form dangerous acetylides. Avoid high temperatures and exposure to air.

10.5 Incompatible materials

- Incompatible Materials: Hydroxylamine, magnesium, and reducing agents. This product can corrode aluminum, steel, and iron. Copper sulfate pentahydrate is incompatible with alkalines, phosphates, acetylene, hydrazine, and nitromethane.

10.6 Hazardous decomposition products

- Sulfur oxides and copper oxides.

**Section 11 - Toxicological Information**

Target Organs: Liver and Kidney
Route(s) of entry/exposure: Inhalation, Skin, Eye, Ingestion

Potential Health Effects

Inhalation
Acute (Immediate): Exposure to dust may cause irritation.
Chronic (Delayed): Can cause breathing disorders, irritation to the mucous membranes and upper respiratory tract.

Skin
Acute (Immediate): Causes skin irritation.
Chronic (Delayed): No data available.

Eye
Acute (Immediate): Causes serious eye irritation.
Chronic (Delayed): No data available.

Ingestion
Acute (Immediate): Toxic if swallowed.
Chronic (Delayed): Repeated and prolonged exposure can cause liver and kidney damage.

Carcinogenic Effects
The components of this material are not found on the following lists: FEDERAL OSHA Z LIST, NTP and IARC; therefore, they are not considered to be, nor suspected to be, cancer-causing agents by these agencies.

12.2 Persistence and degradability
- This material is not expected to biodegrade.

12.3 Bioaccumulative potential
- This material is expected to significantly bioaccumulate.

12.4 Mobility in Soil
- When released into the soil this material may leach into groundwater.

12.5 Results of PBT and vPvB assessment
- No PBT and vPvB assessment has been conducted.

12.6 Other adverse effects
Potential
Environmental Effects
- Harmful to aquatic life in very low concentrations. Copper Sulfate Pentahydrate is toxic to fish and marine organisms when applied to streams, rivers, ponds or lakes.

Section 13 - Disposal Considerations

13.1 Waste treatment methods
Product waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Section 14 - Transport Information

14.1 UN number | 14.2 UN proper shipping name | 14.3 Transport hazard class(es) | 14.4 Packing group | 14.5 Environmental hazards |

14.6 Special precautions for user
- None known.
14.7 Transport in bulk according to ● Not relevant.
Annex II of MARPOL 73/78 and the
IBC Code

14.8 Other information

DOT ● Special Provisions for Transport: Additional markings “Marine Pollutant” required for bulk shipments. These additional markings should be entered on the shopping paper in association with the basic DOT description.

Section 15 - Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

SARA Hazard Classifications ● Acute, Chronic

15.2 Chemical Safety Assessment
● No Chemical Safety Assessment has been carried out.

Section 16 - Other Information

Last Revision Date ● 12/March/2015
Preparation Date ● 05/March/2015

Disclaimer/Statement of Liability ● The information provided on this SDS is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guide for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered as a warranty or quality specification.
