Section 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product Name  ZAR® Oil Based Wood Stain
Contains Kerosene, Solvent naphtha (petroleum), medium aliphatic

1.2. Relevant identified uses of the substance or mixture and uses advised against
Recommended Use  Stains, Interior
Uses advised against  No information available

1.3. Details of the supplier of the safety data sheet
Company
United Gilsonite Laboratories
1396 Jefferson Ave.
Dunmore
PA
18509
US
Phone: 570-344-1202
Fax: 570-969-7634
Contact Phone: 570-344-1202
For further information, please contact
E-mail Address  sales@ugl.com

1.4. Emergency telephone number
Emergency Telephone
CHEMTREC: +1-703-527-3887 (INTERNATIONAL)
Number  +1-800-424-9300 (NORTH AMERICA)
Europe  112

Section 2. Hazards identification

2.1. - Classification of the substance or mixture

REGULATION (EC) No 1272/2008
Aspiration Toxicity  Category 1
Specific Target Organ Toxicity (Repeated Exposure)  Category 1

Physical Hazards
Flammable liquids  Category 3

2.2. Label Elements
Signal Word  Danger

Hazard Statements
H304 - May be fatal if swallowed and enters airways
H372 - Causes damage to organs through prolonged or repeated exposure
H226 - Flammable liquid and vapor
EUH066 - Repeated exposure may cause skin dryness or cracking

Precautionary Statements
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking
P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
P331 - Do NOT induce vomiting
P405 - Store locked up
P501 - Dispose of contents/container to an approved waste disposal plant
P101 - If medical advice is needed, have product container or label at hand
P102 - Keep out of reach of children

2.3. Other information
No information available

Section 3. Composition/information on ingredients

3.1. Substances
Not applicable

3.2. Mixtures

For the full text of the H-Statements mentioned in this Section, see Section 16

Section 4. First aid measures
4.1. Description of first-aid measures

General Advice
Immediate medical attention is required. Show this safety data sheet to the doctor in attendance.

Eye Contact
Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.

Skin Contact
Wash off immediately with plenty of water removing all contaminated clothes and shoes.

Ingestion
Aspiration hazard if swallowed - can enter lungs and cause damage. Do NOT induce vomiting. If vomiting occurs, lean victim forward to reduce the risk of aspiration. Rinse mouth. Drink plenty of water. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

Inhalation
Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration.

Protection of First-aiders
Remove all sources of ignition.

4.2. Most important symptoms and effects, both acute and delayed

Most Important Symptoms/Effects
Aspiration into lungs can produce severe lung damage.

4.3. Indication of immediate medical attention and special treatment needed

Notes to Physician
Treat symptomatically.

Section 5. Fire-fighting measures

5.1. Extinguishing media

Suitable Extinguishing Media
Dry chemical, CO₂, water spray or regular foam.

Extinguishing media which must not be used for safety reasons
No information available.

5.2. Special hazards arising from the substance or mixture

Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases
Flammable. Vapors may travel to source of ignition and flash back.

5.3. Advice for firefighters

Special protective equipment for fire-fighters
As in any fire, wear self-contained breathing apparatus and full protective gear.
Section 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Evacuate personnel to safe areas. Ensure adequate ventilation. Use personal protective equipment. Refer to Section 8 for personal protective equipment. Avoid contact with skin, eyes and clothing. Do not touch or walk through spilled material. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded.

Water spray may reduce vapor; but may not prevent ignition in closed spaces.

6.2. Environmental precautions
Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Prevent entry into waterways, sewers, basements or confined areas.

6.3. Methods and materials for containment and cleaning up
Use clean non-sparking tools to collect absorbed material. Dike far ahead of liquid spill for later disposal. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers. Dispose of contaminated material as waste according to Section 13.

6.4. Reference to other sections
See Section 12 for additional information.

Section 7. Handling and storage

7.1. Precautions for Safe Handling
Handling
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Avoid breathing vapors or mists. Keep away from heat, sparks and open flame. No smoking. Ensure all equipment is electrically grounded before beginning transfer operations. Use spark-proof tools and explosion-proof equipment. Keep in an area equipped with sprinklers. Use according to package label instructions.

Hygiene Measures
When using, do not eat, drink or smoke. Provide regular cleaning of equipment, work area and clothing.

7.2. Conditions for safe storage, including any incompatibilities
Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from moisture. Store locked up. Keep out of the reach of children. Store away from other materials. Keep away fromopen flames, hot surfaces and sources of ignition. Keep in properly labeled containers. Do not store near combustible materials. Keep in an area equipped with sprinklers. Store in accordance with the particular national regulations. Store in accordance with local regulations.

7.3. Specific end use(s)
Exposure Scenario
No information available.

Other Guidelines
No information available.

Section 8. Exposure controls/personal protection

8.1. Control parameters

Exposure Limits

Derived No Effect Level  No information available.

Predicted No Effect Concentration (PNEC)  No information available.

8.2. Exposure controls

Engineering Measures  Ensure adequate ventilation, especially in confined areas.

Personal protective equipment  Personal protection equipment should be chosen according to the CEN standards

Eye Protection  Tightly fitting safety goggles.

Skin and Body Protection  Wear protective gloves/clothing. Long sleeved clothing. Chemical resistant apron.

Hand Protection  Impervious gloves. Antistatic boots.

Respiratory Protection  When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Environmental Exposure Controls  Do not allow material to contaminate ground water system. Do not allow into any sewer, on the ground or into any body of water.

Explosive Properties  No information available

Oxidizing Properties  No information available
9.2. Other information
VOC Content (%) No information available
VOC (g/l) 438 (ISO 118990-2)

Section 10. Stability and reactivity

10.1. Reactivity
Not reactive under normal conditions

10.2. Chemical stability
Stable under normal conditions.

10.3. Possibility of hazardous reactions
None under normal processing.

10.4. Conditions to avoid
Heat, flames and sparks.

10.5. Incompatible materials
None known.

10.6. Hazardous decomposition products
None under normal use.

Section 11. Toxicological information

11.1. Information on toxicological effects

Acute Toxicity
Product Information
Inhalation May cause irritation of respiratory tract.
Eye Contact Contact with eyes may cause irritation.
Skin Contact Repeated exposure may cause skin dryness or cracking. May be harmful in contact with skin.
Ingestion May be harmful if swallowed. Potential for aspiration if swallowed. May cause lung damage if swallowed. Aspiration may cause pulmonary edema and pneumonitis. May be fatal if swallowed and enters airways.

Acute Toxicity
59% of the mixture consists of ingredient(s) of unknown toxicity.

The following values are calculated based on chapter 3.1 of the GHS document:
LD50 Oral 3,728.00 mg/kg
LD50 Dermal 2,056.00 mg/kg

Respiratory or Skin Sensitization Not expected to be a sensitizer.
Mutagenic Effects Based on available data, the classification criteria are not met.
Carcinogenic Effects Based on available data, the classification criteria are not met.

Reproductive Toxicity Based on available data, the classification criteria are not met.
Developmental Toxicity Based on available data, the classification criteria are not met.
STOT - single exposure Based on available data, the classification criteria are not met
STOT - repeated exposure Causes damage to organs through prolonged or repeated exposure.
Aspiration Hazard
system. Skin.
Risk of serious damage to the lungs (by aspiration). May be fatal if swallowed and enters airways.

Section 12. Ecological information

12.1. Toxicity

Ecotoxicity Effects
Contains no substances known to be hazardous to the environment or that are not degradable in waste water treatment plants.

<table>

12.3. Bioaccumulative potential
No information available.

12.4. Mobility in soil
No information available.

12.5. Results of PBT and vPvB assessment
No information available

12.6. Other adverse effects
This product does not contain any known or suspected endocrine disruptors.

Section 13. Disposal considerations

13.1. Waste treatment methods
Waste from Residues / Unused Products
Dispose of in accordance with all European and Local regulations. Dispose of in accordance with the European Directives on waste and hazardous waste.

Contaminated Packaging
Empty containers should be taken to an approved waste handling site for recycling or disposal.

Other Information
According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user based on the application for which the product was used.

Section 14. Transport information

IMDG/IMO
Section 15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
