2. HAZARD IDENTIFICATION

POTENTIAL HEALTH EFFECTS

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard Symbols

- Aspiration Hazard Category 1
- Flammable Liquid Category 2

Signal Word: Danger

Hazard Statements:
- Highly flammable liquid and vapour.
- May be fatal if swallowed and enters airways.

Precautionary Statements

Prevention
- Keep away from heat/sparks/open flames/hot surfaces. – No smoking.
- Keep container tightly closed.
- Ground/bond container and receiving equipment.
- P241 - Use explosion-proof electrical, ventilating and lighting equipment.
- Use only non-sparking tools.
- Take precautionary measures against static discharge.
- Wear protective gloves/protective clothing/eye protection/face protection.

Response
- P301+P310 - If swallowed: Immediately call a poison center, doctor or medical center.
- IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
- Do NOT induce vomiting.
- P370+P378 - In case of fire: Use proper media to extinguish.

Storage
- Keep container tightly closed.
- Store in a well-ventilated place. Keep cool.
- Store locked up.

Disposal
- Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.

HMIS® III* HAZARDOUS WARNINGS:

Health: 2
Flammability: 3
Physical: 0

* See www.paint.org/hmis or call the NPCA at 1 (202) 462-6272 for more information on this current rating system.

* See www.paint.org/hmis or call the NPCA at 1 (202) 462-6272 for more information on this current rating system.
4. FIRST AID MEASURES

Eyes: Immediately flush eyes gently with plenty of water for at least 15 minutes while holding eyelids apart. If symptoms persist or there is visual difficulty, seek medical attention.

Skin Contact: Wash the contaminated skin with soap and water. Wash clothing before reuse. Seek medical attention if symptoms persist. Seek medical attention if symptoms persist.

Ingestion: Contact a physician, medical facility, or poison control center immediately. Aspiration into the lungs can cause serious damage. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs. Do not induce vomiting.

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

NOTES TO PHYSICIAN:
Aspiration during swallowing or vomiting may severely damage the lungs. This material is an aspiration hazard.

5. FIRE FIGHTING MEASURES

Fire and/or Explosion Hazards: This product contains a component(s) that is considered a flammable liquid, which has vapors that are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, or other flames and ignition sources at locations distant from the material's handling point.

Fire Fighting Instructions: Use CO2, foam or dry chemical. Fire fighters should wear normal protective equipment and positive-pressure self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:
If runoff occurs, notify authorities as required. Absorb spill with inert material (e.g., dry sand or earth), then place in a chemical waste container. Avoid run-off into storm sewers and ditches which may lead to natural waterways. Avoid breathing vapors. Remove all sources of ignition. Wear appropriate personal protective equipment (PPE). Stop or reduce discharge if it can be done safely. Clean up with absorbent material. Place absorbent materials into container and close it tightly. Dispose of container properly.

7. HANDLING AND STORAGE

Handling: Use with adequate ventilation. If ventilation is not sufficient, wear proper respiratory equipment. Do not store containers in excessive heat or direct sunlight. Keep cans away from heat and sources of ignition. Wash hands thoroughly after handling. Do not use near ignition sources.

Storage: Keep container tightly closed when not in use. Empty container may contain residues which are hazardous. Store in a cool, dry, well ventilated area away from all sources of ignition.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Ventilation should be adequate to prevent exposures above the limits indicated below in this section of the SDS (from known, suspected or apparent adverse effects).

Eye Protection: Wear chemically resistant safety glasses with side shields when handling this product. Wear additional eye protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid or airborne material. Have an eye wash station available.

Skin Protection: The use of chemically resistant gloves is recommended if there is any possibility of prolonged or repeated liquid contact with skin.

Respiratory Protection: If the possibility exists that aerosols or mists may be inhaled while handling or processing this material, the use of a NIOSH/MSHA approved dust, fume, and mist respirator designed as respiratory protection against dust, fumes, and mist of materials having an exposure limit of less than 0.05 mg/m³ is recommended.

9. PHYSICAL AND CHEMICAL PROPERTIES

COMPONENT | CAS # | ACGIH TLV | OSHA PEL | OTHER
--- | --- | --- | --- | ---
Distillates (petroleum), hydrotreated light | 64742-47-8 | TWA: 200 mg/m³, (as total hydrocarbon vapor) 8 hours | Not established | Not established
Methylal | 109-87-5 | Not established | 1000 ppm; 3100 mg/m³ 8h TWA | Not established

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Bulk liquid
Appearance: Clear Colorless
Odor: Lemon
pH: Not applicable
Melting/Freezing Point (°F): No data available
Boiling Point (°F): No data available
Flash Point (°F PMCC): <50.0
Evaporation Rate: Not determined
Flammability (solid, gas): No data available
Percent VOCs (%): 1-20

10. STABILITY AND REACTION

Chemical Stability: Stable.
Conditions to Avoid: Avoid contact with: Oxidizers. Ignition sources such as open flames, sparks, static discharges or glowing metal surfaces.
Decomposition Products: Burning can produce the following combustion products: Carbon dioxide and carbon monoxide.
11. TOXICOLOGICAL INFORMATION

Reproductive & Developmental Toxicity: No data available.
