4. First Aid Measures

Emergency and First Aid Procedures:

If swallowed, do not induce vomiting. Call physician immediately. If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If on skin, wash skin with soap and large amounts of water. Remove contaminated clothing. Call physician immediately if adverse reaction occurs.

5. Fire Fighting Measures

Flash Pt: -141.00 F (-96.1 C)
Explosive Limits: LEL: No data. UEL: No data.
Autoignition Pt: No data.
Suitable Extinguishing Media: Alcohol foam, carbon dioxide, dry chemical, foam, water fog.
Fire Fighting Instructions: Containers can build up pressure if exposed to heat (fire). As in any fire, wear self-contained breathing apparatus pressure-demand (MSHA/NIOSH approved or equivalent) and full protective gear. Keep containers and surroundings cool with water spray. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

No data available.

Hazardous Combustion Products:

No data available.
6. Accidental Release Measures

Steps To Be Taken In Case Material Is Released Or Spilled:
Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container. Avoid runoff into storm sewers and ditches which lead to waterways. Wear a self-contained breathing apparatus and appropriate personal protective equipment.

7. Handling and Storage

Precautions To Be Taken in Handling:
Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or any other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing dust/fumes/gas/mist/vapours/spray. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. Keep out of the reach of children.

Precautions To Be Taken in Storing:
Store locked up. Protect from sunlight and do not expose to temperatures exceeding 50 °C/122 °F.

Respiratory Equipment (Specify Type):
A NIOSH/ MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.

Eye Protection:
Wear safety glasses with side shields or goggles when using this product.

Protective Gloves:
Impervious gloves should be used.

Other Protective Clothing:
Standard industrial clothing standards should be followed.

Engineering Controls (Ventilation etc.):
Good ventilation should be sufficient to control airborne levels. Local exhaust ventilation may be necessary to control any air contaminants to within their TLVs during the use of this product.
