Section 1 -- PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NUMBER  
A24W300

HMIS CODES
Health 1*
Flammability 0
Reactivity 0

PRODUCT NAME
LOXON* Masonry Coatings System Exterior Acrylic Primer, White

MANUFACTURER’S NAME
THE SHERWIN−WILLIAMS COMPANY
101 Prospect Avenue N.W.
Cleveland, OH 44115

DATE OF PREPARATION
05−MAR−06

INFORMATION TELEPHONE NO.
(216) 566−2902

Section 3 -- HAZARDS IDENTIFICATION

ROUTES OF EXPOSURE
INHALATION of vapor or spray mist.
EYE or SKIN contact with the product, vapor or spray mist.

EFFECTS OF OVEREXPOSURE
  EYES: Irritation.
  SKIN: Prolonged or repeated exposure may cause irritation.
  INHALATION: Irritation of the upper respiratory system.
  In a confined area vapors in high concentration may cause headache, nausea or dizziness.

SIGNS AND SYMPTOMS OF OVEREXPOSURE
  Redness and itching or burning sensation may indicate eye or excessive skin exposure.

Continued on page 2
MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE
None generally recognized.

CANCER INFORMATION
For complete discussion of toxicology data refer to Section 11.

Section 4 -- FIRST AID MEASURES

EYES:  Flush eyes with large amounts of water for 15 minutes.  Get medical attention.
SKIN:  Wash affected area thoroughly with soap and water.  Remove contaminated clothing and launder before re-use.
INHALATION:  If affected, remove from exposure.  Restore breathing.  Keep warm and quiet.
INGESTION:  Do not induce vomiting.  Get medical attention immediately.

Section 5 -- FIRE FIGHTING MEASURES

FLASH POINT                        LEL      UEL
Not Applicable                  N.A.     N.A.
FLAMMABILITY CLASSIFICATION
Not Applicable
EXTINGUISHING MEDIA
  Carbon Dioxide, Dry Chemical, Alcohol Foam
UNUSUAL FIRE AND EXPLOSION HAZARDS
  Closed containers may explode (due to the build-up of pressure) when exposed to extreme heat.  
  During emergency conditions overexposure to decomposition products may cause a health hazard.  Symptoms may not be immediately apparent.  Obtain medical attention. 
SPECIAL FIRE FIGHTING PROCEDURES
  Full protective equipment including self-contained breathing apparatus should be used.  
  Water spray may be ineffective.  If water is used, fog nozzles are preferable.  Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

Section 6 -- ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED
  Remove all sources of ignition.  Ventilate the area.
  Remove with inert absorbent.

Section 7 -- HANDLING AND STORAGE

STORAGE CATEGORY
  Not Applicable
PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE
  Keep container closed when not in use.  Transfer only to approved containers with complete and appropriate labeling.  Do not take internally.  Keep out of the reach of children.

Continued on page 3
Section 8 -- EXPOSURE CONTROLS/PERSONAL PROTECTION

PRECAUTIONS TO BE TAKEN IN USE

Use only with adequate ventilation.
Avoid contact with skin and eyes. Avoid breathing vapor and spray mist.
Wash hands after using.

This coating may contain materials classified as nuisance particulates (listed "as Dust" in Section 2) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section 2, the applicable limits for nuisance dusts are ACGIH TLV 10 mg/m³ (total dust), 3 mg/m³ (respirable fraction), OSHA PEL 15 mg/m³ (total dust), 5 mg/m³ (respirable fraction).

Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.

VENTILATION

Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section 2 is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

RESPIRATORY PROTECTION

If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in Section 2.

When sanding or abrading the dried film, wear a dust/mist respirator approved by NIOSH/MSHA for dust which may be generated from this product, underlying paint, or the abrasive.

PROTECTIVE GLOVES

Wear gloves which are recommended by glove supplier for protection against materials in Section 2.

EYE PROTECTION

Wear safety spectacles with unperforated sideshields.

Section 9 -- PHYSICAL AND CHEMICAL PROPERTIES

| PRODUCT WEIGHT | 10.77 lb/gal | 1290 g/l |
| SPECIFIC GRAVITY | 1.30 |
| BOILING POINT | 212 – 500 F | 100 – 260 C |
| MELTING POINT | Not Available |
| VOLATILE VOLUME | 59 % |
| EVAPORATION RATE | Slower than ether |
| VAPOR DENSITY | Heavier than air |
| SOLUBILITY IN WATER | N.A. |
| pH | 9.5 |
| VOLATILE ORGANIC COMPOUNDS (VOC Theoretical) | Less Water and Federally Exempt Solvents |
| 0.81 lb/gal | 97 g/l |
| 0.36 lb/gal | 43 g/l |
| Emitted VOC |

Continued on page 4
Section 10 -- STABILITY AND REACTIVITY

STABILITY -- Stable
CONDITIONS TO AVOID
None known.
INCOMPATIBILITY
None known.
HAZARDOUS DECOMPOSITION PRODUCTS
   By fire: Carbon Dioxide, Carbon Monoxide
HAZARDOUS POLYMERIZATION
   Will not occur

Section 11 -- TOXICOLOGICAL INFORMATION

CHRONIC HEALTH HAZARDS
Crystalline Silica (Quartz, Cristobalite) is listed by IARC and NTP.
Long term exposure to high levels of silica dust, which can occur only when
sanding or abrading the dry film, may cause lung damage (silicosis) and
possibly cancer.
Rats exposed to titanium dioxide dust at 250 mg./m3 developed lung
cancer, however, such exposure levels are not attainable in the workplace.

Section 12 -- ECOLOGICAL INFORMATION

ECOTOXICOLOGICAL INFORMATION
No data available.

Section 13 -- DISPOSAL CONSIDERATIONS

WASTE DISPOSAL METHOD
Waste from this product is not hazardous as defined under the Resource
Incinerate in approved facility. Do not incinerate closed container.
Dispose of in accordance with Federal, State/Provincial, and Local
regulations regarding pollution.

CALIFORNIA PROPOSITION 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

TSCA CERTIFICATION

All chemicals in this product are listed, or are exempt from listing, on the TSCA Inventory.

Section 16 -- OTHER INFORMATION

This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

The above information pertains to this product as currently formulated, and is based on the information available at this time. Addition of reducers or other additives to this product may substantially alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.
