Section 1 -- PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NUMBER
A24W200

PRODUCT NAME
LOXON* Masonry Coating System Block Surfacer, White

MANUFACTURER’S NAME
THE SHERWIN–WILLIAMS COMPANY
101 Prospect Avenue N.W.
Cleveland, OH 44115

DATE OF PREPARATION
05–MAR–06

EMERGENCY TELEPHONE NO.
(216) 566–2917

INFORMATION TELEPHONE NO.
(216) 566–2902

Section 2 -- COMPOSITION/INFORMATION ON INGREDIENTS

% by WT  CAS No.  INGREDIENT             UNITS          VAPOR PRESSURE

3       107–21–1  Ethylene Glycol
        ACGIH TLV 100  mg/m3 CEILI (aerosol) 0.12 mm
        OSHA PEL 50  ppm CEILING

24      14808–60–7  Quartz
        ACGIH TLV 0.05  mg/m3 as Resp. Dust
        OSHA PEL 0.1  mg/m3 as Resp. Dust

4       12001–26–2  Mica
        ACGIH TLV 3  mg/m3 as Resp. Dust
        OSHA PEL 3  mg/m3 as Resp. Dust

7       13463–67–7  Titanium Dioxide
        ACGIH TLV 10  mg/m3 as Dust
        OSHA PEL 10  mg/m3 Total Dust
        OSHA PEL 5  mg/m3 Respirable Fraction

1       1314–13–2  Zinc Oxide
        ACGIH TLV 10  mg/m3 as Dust
        OSHA PEL 10  mg/m3 Total Dust
        OSHA PEL 5  mg/m3 Respirable Fraction

Section 3 -- HAZARDS IDENTIFICATION

 ROUTES OF EXPOSURE
 INHALATION of vapor or spray mist.
 EYE or SKIN contact with the product, vapor or spray mist.

 EFFECTS OF OVEREXPOSURE
 EYES:  Irritation.
 SKIN:  Prolonged or repeated exposure may cause irritation.
 INHALATION:  Irritation of the upper respiratory system.
 In a confined area vapors in high concentration may cause headache, nausea or dizziness.

 SIGNS AND SYMPTOMS OF OVEREXPOSURE
 Redness and itching or burning sensation may indicate eye or excessive skin exposure.

Continued on page 2
The document contains sections on First Aid Measures, Fire Fighting Measures, Accidental Release Measures, Handling and Storage, and Medical Conditions Aggravated by Exposure. It provides detailed guidance on recommended practices for these areas, such as flushing eyes with water, washing skin thoroughly, removing contaminated clothing, and using appropriate extinguishing media in case of fire. It also emphasizes the importance of seeking medical attention in various scenarios and mentions the lack of recognized medical conditions aggravated by exposure.

For complete toxicology data discussion, refer to Section 11. The document concludes by being continued on page 3.
Section 8 −− EXPOSURE CONTROLS/PERSONAL PROTECTION

PRECAUTIONS TO BE TAKEN IN USE

Use only with adequate ventilation.
Avoid contact with skin and eyes. Avoid breathing vapor and spray mist.
Wash hands after using.

This coating may contain materials classified as nuisance particulates (listed "as Dust" in Section 2) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section 2, the applicable limits for nuisance dusts are ACGIH TLV 10 mg/m³ (total dust), 3 mg/m³ (respirable fraction), OSHA PEL 15 mg/m³ (total dust), 5 mg/m³ (respirable fraction).

Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1−800−424−LEAD (in US) or contact your local health authority.

VENTILATION

Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section 2 is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

RESPIRATORY PROTECTION

If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in Section 2.

When sanding or abrading the dried film, wear a dust/mist respirator approved by NIOSH/MSHA for dust which may be generated from this product, underlying paint, or the abrasive.

PROTECTIVE GLOVES

Wear gloves which are recommended by glove supplier for protection against materials in Section 2.

EYE PROTECTION

Wear safety spectacles with unperforated sideshields.

Section 10 -- STABILITY AND REACTIVITY

STABILITY -- Stable
CONDITIONS TO AVOID
None known.
INCOMPATIBILITY
None known.
HAZARDOUS DECOMPOSITION PRODUCTS
   By fire: Carbon Dioxide, Carbon Monoxide
HAZARDOUS POLYMERIZATION
   Will not occur

Section 11 -- TOXICOLOGICAL INFORMATION

CHRONIC HEALTH HAZARDS
   Crystalline Silica (Quartz, Cristobalite) is listed by IARC and NTP. Long term exposure to high levels of silica dust, which can occur only when sanding or abrading the dry film, may cause lung damage (silicosis) and possibly cancer.
   Ethylene Glycol is considered an animal teratogen. It has been shown to cause birth defects in rats and mice at high doses when given in drinking water or by gavage. There is no evidence to indicate it causes birth defects in humans.
   Prolonged overexposure to solvent ingredients in Section 2 may cause adverse effects to the liver and urinary systems.
   Rats exposed to titanium dioxide dust at 250 mg./m3 developed lung cancer, however, such exposure levels are not attainable in the workplace.

Section 12 -- ECOLOGICAL INFORMATION

ECOTOXICOLOGICAL INFORMATION
   No data available.

Continued on page 5
Section 13 -- DISPOSAL CONSIDERATIONS

WASTE DISPOSAL METHOD
Waste from this product is not hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.
Incinerate in approved facility. Do not incinerate closed container. Dispose of in accordance with Federal, State/Provincial, and Local regulations regarding pollution.

Section 14 -- TRANSPORT INFORMATION

No data available.

CALIFORNIA PROPOSITION 65
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

TSCA CERTIFICATION
All chemicals in this product are listed, or are exempt from listing, on the TSCA Inventory.

Section 16 -- OTHER INFORMATION

This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

The above information pertains to this product as currently formulated, and is based on the information available at this time. Addition of reducers or other additives to this product may substantially alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.
