SECTION #1 - PRODUCT AND COMPANY IDENTIFICATION

Product: RIT® Tint and Dye
Phoenix Brands
2855 N. Franklin Rd., #7
Indianapolis, Indiana 46219 USA
Consumer Service Telephone Number: 1-866-794-0800
Emergency Contact: PROSAR IPC
Emergency Phone Number: 1-866-794-0800
Product Description: Dry mixtures of inorganic and organic compounds

SECTION #2 - COMPOSITION, INFORMATION ON INGREDIENTS

This product contains no substances defined as Health Hazards or as Physical Hazards according to the requirements of 29CFR, Part 1910.1200. The identity of specific components of this product may be determined in accordance with the provisions of 29CFR, Part 1910.1200(l).

SECTION #3 - HAZARDS IDENTIFICATION

Route of Exposure - Inhalation
Inhalation of the components of this product does not pose a significant risk to health when used according to instructions and with appropriate protective measures (see Section #8). Inhalation of dust or mists of solutions prepared from this product may irritate the nose, throat, and upper respiratory tract.

Route of Exposure - Skin
Skin contact may produce mild irritation, particularly on abraded or sensitive skin. In some individuals, some components of these products may produce sensitization following prolonged contact.

Route of Exposure - Eyes
Contact with the eyes may produce irritation.

Route of Exposure - Ingestion
Ingestion of this material may produce mild gastric irritation.

SECTION #4 - FIRST AID MEASURES

First Aid - Inhalation
If signs and symptoms of irritation are observed, remove subject from area. Perform artificial respiration and/or seek medical attention if necessary.

First Aid - Skin
Remove contaminated clothing. Wash affected area with soap, and rinse with water for at least fifteen minutes. Seek medical attention if necessary.
SECTION #4 - FIRST AID MEASURES CONTINUED...

First Aid - Eyes
Flush affected areas with water for at least 15 minutes. Seek medical assistance.

First Aid - Ingestion
If the subject is conscious, induce vomiting. If unconscious or convulsive, seek immediate medical assistance. Do not attempt to give liquids to an unconscious person.

SECTION #5 - FIRE FIGHTING MEASURES

Flash Point: not applicable    Flammability Class: not applicable
Lower Explosive Limit (%): not applicable  Upper Explosive Limit (%): not applicable
Autoignition Temperature: not applicable

Fire and Explosion Hazards
Some components of this product may decompose when exposed to flame, very high temperatures, or by reaction with incompatible materials (see Section #10 for incompatible materials). Fires or explosions involving this product may emit carbon monoxide, smoke, and irritant decomposition byproducts.

Extinguishing Media
Flood with large quantities of water.

Special Fire Fighting Instructions
If fighting a fire in which this product is present, wear a self-contained breathing apparatus with full-facepiece operated in pressure-demand or other positive pressure mode.

SECTION #6 - ACCIDENTAL RELEASE MEASURES

Steps to be taken in the event of Spills, Leaks or Release
Wear protective clothing (gloves, goggles) to prevent contact with skin or eyes. Clean up spilled material so as to minimize dispersion of dust. If excessive dusting occurs, wear appropriate respiratory protection (see Section #8). For large spills, shovel material into a container for reclamation. For small spills, flush away with large quantities of water.

Waste Disposal Methods
Dispose of in accordance with applicable Federal, State/Provincial, and local regulations.

SECTION #7 - HANDLING AND STORAGE

Store in a cool, dry place away from flames and incompatible materials (see Section #10). Keep containers tightly closed.
SECTION #8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Ventilation
If the product is used in a manner that generates airborne dust, provide appropriate ventilation (dilution, local exhaust) adequate to control dust concentrations in air.

Eye Protection
If eye contact with the product is possible, wear eye protection (e.g., chemical goggles) adequate to prevent eye contact and/or injury.

Skin Protection
Wear gloves suitable for protection against irritant chemicals. Rubber, PVA, or nitrile are satisfactory materials.

Respiratory Protection
Respiratory protection is not normally required in the use of this product. If this product is used in a manner that generates dust not controlled by ventilation, wear a NIOSH-approved respirator having a configuration (class, type of facepiece, filters, assigned protection factor, etc.) appropriate to the concentration of dust or mist generated. For guidance on the selection and use of respiratory protection, consult American National Standard Z88.2-1992 (ANSI, New York, NY 10036 USA).

Work/Hygienic Practices
To avoid ingestion of material, wash hands and face before eating, drinking, or using tobacco.

SECTION #9 - PHYSICAL AND CHEMICAL PROPERTIES

Solubility (H₂O): soluble
Vapor pressure: not applicable
Appearance: Colored powders, odorless
Percent Volatiles: not applicable
Vapor density: not applicable

SECTION #10 - STABILITY AND REACTIVITY

Conditions to Avoid
The product is stable at room temperature. Hazardous polymerization will not occur.

Incompatible Materials
Strong oxidizing agents; strong acids.

Hazardous Decomposition Products
If this product is exposed to flame, carbon monoxide, smoke, and irritant gases may be released.

SECTION #11 - TOXICOLOGICAL INFORMATION

Some components of this product have produced both positive and negative findings in in vitro mutagenicity assays. None of the components of this product are classified as potential or demonstrated human carcinogens by IARC, NTP, or OSHA.
SECTION #12 – ECOLOGICAL INFORMATION

No data available.  
The product is not expected to present an environmental hazard.

SECTION #13 – DISPOSAL CONSIDERATIONS

Dispose of in accordance with applicable Federal, State/Provincial, and local regulations.  
Empty containers should be triple rinsed before disposal.

SECTION #14 – TRANSPORTATION INFORMATION

DOT Hazard Class:  Non-hazardous
Proper Shipping Name:  Not Regulated
WHMIS Hazard Classification(s): Health:1  Flammability: 1  Reactivity: 0

SECTION #15 – REGULATORY INFORMATION

SARA Title III - Hazard Class(es): A cute Health Hazard

SARA Title III - Section 313 Supplier Notification: This product contains no chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act (EPCRA) of 1986 and of 40 CFR 372.

SECTION #16 – OTHER INFORMATION – DEFINITION OF TERMS

A large number of abbreviations and acronyms appear on a MSDS. Some of these which are commonly used include the following: CAS #: This is the Chemical Abstract Service Number which uniquely identifies each constituent. It is used for computer-related searching.  
EXPOSURE LIMITS IN AIR:  ACGIH – American Conference of Governmental Industrial Hygienists, a professional association which establishes exposure limits.  
TLV – Threshold Limit Value – an airborne concentration of a substance which represents conditions under which it is generally believed that nearly all workers may be repeatedly exposed without adverse effect. The duration must be considered, including the 8-hour Time Weighted Average (TWA), the 15-minute Short Term Exposure Limit (STEL), and the instantaneous Ceiling Limit.  
Skin adsorption effects must also be considered.

OSHA – U. S. Occupational Safety and Health Administration.  
PEL – Permissible Exposure Limit – this exposure value means exactly the same as a TLV, except that it is enforceable by OSHA.  
NIOSH is the National Institute of Occupational Safety and Health, which is the research arm of the U.S. Occupational Safety and Health Administration (OSHA).  
NIOSH issues exposure guidelines called Recommended Exposure Levels (RELs).

FLAMMABILITY LIMITS IN AIR:  Much of the information related to fire and explosion is derived from the National Fire Protection Association (NFPA).  
UEL – the highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source.

DISCLAIMER OF EXPRESS AND IMPLIED WARRANTIES

The foregoing data has been compiled from sources that the company, in good faith, believes to be dependable and is accurate and reliable to the best of our knowledge and belief. However, the company cannot make any warranty or representation respecting the accuracy or completeness of the data, and assumes no responsibility for any liability or damages relating thereto or for advising you regarding the protection of your employees or others. Users should make their own tests to determine the applicability of such information or the suitability of any products for specific use.
