SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

COMBAT INSECT CONTROL SYSTEMS
C/O The Dial Corporation
19001 N. Scottsdale Road
Scottsdale, Arizona 85255-9672

PRODUCT: COMBAT® DATE OF ISSUE: March 4, 2009

TRADE NAMES/SYNONYMS: Combat Ant Killing Gel
Combat Ant Killing Gel 27g
Combat ABF7

CHEMICAL FAMILY: Insecticides

EPA REG. NUMBER: 64240-42

SECTION 2: HAZARD IDENTIFICATION

EMERGENCY OVERVIEW
CAUTION: This product is a clear to amber gel with a sweet odor. Direct contact with eyes can cause moderate irritation. Harmful if swallowed or absorbed through the skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Refer to product label for additional precautions during product use. Keep out of reach of children. This product is toxic to fish and aquatic invertebrates. Not a fire hazard. Product is stable.

This product is labeled in accordance with guidelines set forth in the Federal Insecticide, Fungicide and Rodenticide Act. The use pattern and exposure in the workplace are generally not consistent with those experienced by consumers. The requirements of the Occupational Safety and Health Administration applicable to this Material Safety Data Sheet may differ from the requirements of the FD & C Act and as a result, this MSDS may contain additional health hazard information not pertinent to consumer use and not found on the product label.

REGULATORY STATUS
This material is considered to be hazardous under OSHA’s Hazard Communication Standard (29 CFR 1900.1200). This MSDS should be retained and available for employees and other users of this product.

POTENTIAL HEALTH EFFECTS

INHALATION: Not a likely route of exposure. Irritating, in high concentration, to the respiratory tract (nose, throat, and lungs).

SKIN CONTACT: Harmful if absorbed through the skin. Can cause mild skin irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

EYE CONTACT: Causes moderate eye irritation.

INGESTION: Harmful if swallowed. Ingestion of large amounts may cause some gastrointestinal discomfort including nausea, vomiting, abdominal pain, diarrhea, and lethargy.

CHRONIC HEALTH EFFECTS: Due to the nature and composition of this product no chronic health effects are anticipated.

MEDICAL CONDITIONS GENERALLY RECOGNIZED AS BEING AGGRAVATED BY EXPOSURE: No known health conditions are aggravated by exposure to this product.

POTENTIAL ENVIRONMENTAL EFFECTS
See Section 12: Ecological Information.
SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

Based on our hazard evaluation, the following chemical substance(s) in this product have been identified as hazardous.

<table>
<thead>

SECTION 4: FIRST AID MEASURES

Call poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

INHALATION: Remove from exposure area to fresh air immediately. Keep affected person warm and at rest. Treat symptomatically and supportively. If breathing has stopped, give artificial respiration, and get medical attention immediately.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open, rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

INGESTION: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: The physician's judgement should be used to control symptoms and clinical condition based on the individual reactions of the patient.

SECTION 5: FIRE FIGHTING MEASURES

FLAMMABLE PROPERTIES

OSHA FLAMMABILITY CLASSIFICATION: Not available
FLASH POINT: > 212°C (TCC)
UPPER FLAMMABILITY LIMIT: Not applicable
LOWER FLAMMABILITY LIMIT: Not applicable
AUTO-IGNITION TEMPERATURE: Not applicable
FLAME PROJECTION: Not applicable
FIRE AND EXPLOSION HAZARD: Negligible fire hazard when exposed to heat or flame.
HAZARDOUS DECOMPOSITION PRODUCTS: Oxides of carbon and oxides of nitrogen.

EXTINGUISHING MEDIA

Dry chemical, carbon dioxide (CO₂) foam or water spray.

PROTECTION OF FIREFIGHTERS

In case of fire, wear a full face positive-pressure self contained breathing apparatus and protective suit. Move container from fire area if you can do it without risk. Do not scatter spilled material with high-pressure water streams. Dike fire-control water for later disposal. Use agents suitable for type of surrounding fire. Avoid breathing hazardous vapors, keep upwind.

SECTION 6: ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS:
Ventilate spill area if possible. Do not touch spilled material. Stop or reduce any leaks if it is safe to do so. Use personal protective equipment recommended in Section 8. Notify appropriate government, occupational health and safety and environmental authorities. Keep unnecessary people away; isolate hazard area and restrict entry. Ensure clean-up is conducted by trained personnel only.

ENVIRONMENTAL PRECAUTIONS:
This product is toxic to fish and aquatic invertebrates. This product should not be directly discharged into lakes, streams, ponds, estuaries, oceans, public water supplies, or other waters. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment washwater.

METHODS FOR CONTAINMENT AND CLEAN UP:
SMALL SPILLS: Contain and absorb with sand or other absorbent material and place into containers for later disposal. Wash site of spillage thoroughly with water. LARGE SPILLS: Dike far ahead of spill to prevent further movement. Recover by pumping or by using a suitable absorbent material and place into containers for later disposal. No smoking, flames or flares in hazard area.

SECTION 7: HANDLING AND STORAGE

HANDLING:
Do not get in eyes, on skin, on clothing. Do not take internally. Do not use this product in or on electrical equipment where a possibility of shock hazard exists. Use with adequate ventilation. Avoid generating aerosols and mists. Keep the containers closed when not in use. Have emergency equipment (for fires, spills, leaks, etc.) readily available.

STORAGE:
Store in a cool, dry, ventilated area out of reach of children and away from sources of heat, moisture, and incompatible substances. Store in suitable labeled containers. Store the containers tightly closed.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

WORKER EXPOSURE LIMITS
The following exposure limits exist for the ingredients listed below. The TLV-TWA is the Threshold Limit Value – Time Weighted Average from Rhone – Poulenc for 12-month daily exposure.

<table>
<thead>
<tr>
<th>INGREDIENT</th>
<th>CAS NUMBER</th>
<th>EXPOSURE LIMIT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fipronil</td>
<td>120068-37-3</td>
<td>TLV-TWA 0.1 mg/m$^3$; 0.032 mg/m$^3$</td>
</tr>
</tbody>
</table>

ENGINEERING CONTROLS: Provide local exhaust or general dilution ventilation to keep potential exposure to airborne contaminants as low as possible.

RESPIRATOR: None required under normal use conditions. Use general ventilation to minimize exposure. Air contamination monitoring should be carried out where generation of vapors is likely to occur, to assure that the employees are not exposed to harmful concentrations of any of the above mentioned components. If respiratory protection is required, it must be based on the contamination levels found in the workplace, must not exceed the working limits of the respirator and be jointly approved by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration (NIOSH-MSHA).

FOR FIRE FIGHTING AND OTHER IMMEDIATELY DANGEROUS TO LIFE OR HEALTH CONDITIONS: Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode. Any supplied-air respirator that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode in combination with an auxiliary self-contained breathing apparatus operated in pressure demand or other positive-pressure mode.

CLOTHING: Protective clothing (impervious to liquids) is required where splashing of product may occur. Wash contaminated clothing before re-wearing.

GLOVES: Chemical-resistant gloves are required where repeated or prolonged skin contact may occur.

EYE/FACE PROTECTION: Splash-proof safety glasses are required to prevent eye contact where splashing of product may occur.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

EVAPORATION RATE: Not available  
OCTANOL/WATER PARTITION COEFFICIENT (K_{ow}): Not available  
VISCOSITY (Dynamic): Not applicable  

SECTION 10: STABILITY AND REACTIVITY  
CHEMICAL STABILITY: Stable under normal ambient temperature (70°F, 21°C) and pressure (1 atm).  
CONDITIONS TO AVOID: Avoid storing in direct sunlight, avoid extremes of temperature.  
INCOMPATIBLE MATERIALS: Strong oxidizers and reducing agents.  
HAZARDOUS DECOMPOSITION PRODUCTS: Thermal decomposition products may include oxides of carbon.  
POSSIBILITY OF HAZARDOUS REACTIONS: Hazardous reactions do not occur under normal temperatures and pressures.  

SECTION 11: TOXICOLOGICAL INFORMATION  
PRODUCT INFORMATION SUMMARY: The use of this product by consumers is safe under normal and reasonable foreseen use. Direct contact with eyes can cause moderate irritation. Harmful if swallowed or absorbed through the skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.  
COMPONENT ANALYSIS: The following toxicity information is available for the product and/or for the hazardous ingredients when used as technical grade.

SENSITIZATION: This product is not considered a skin or respiratory sensitizer.  
CARCINOGENICITY: None of the ingredients in this product are listed as carcinogens by the International Agency for Research on Cancer (IARC), the National Toxicology Program (NTP) or the Occupational Safety and Health Administration (OSHA).  
MUTAGENICITY: None of the ingredients in this product are known to cause mutagenicity.  
REPRODUCTIVE/FETAL/DEVELOPMENTAL TOXICITY: None of the ingredients in this product are known as reproductive, fetal, or developmental hazards.  
TARGET ORGAN TOXICITY: None of the ingredients in this product are known to have target organ toxicity.
SECTION 12: ECOLOGICAL INFORMATION

The environmental toxicity of this product has not been evaluated. The active ingredient Fipronil is toxic to birds, fish, and aquatic invertebrates. The following toxicity information is available for the hazardous ingredient when used as technical grade.

<table>
<thead>
<tr>
<th>INGREDIENT</th>

</tbody>
</table>

ENVIRONMENTAL FATE:
No environmental fate data exists for the product.

PERSISTENCE AND DEGRADABILITY:
The persistence and degradability of this product has not been determined. Fipronil is degraded to Fipronil amide by hydrolysis with a half-life of 28 days (pH 9 and 25°C).

Water: In water, Fipronil undergoes photolysis with a half-life of 0.151 days (0.9 mg/l at pH 5 and 25°C). Fipronil is also metabolized in water under anaerobic conditions with half-lives of 116-130 days.

Soil: In loam soil (46% sand, 23% clay, 31% silt) containing 1.73% organic matter, Fipronil undergoes photolysis with a half-life of 34 days (224 mg/kg at pH 6.7 and 25°C). Fipronil is also metabolized in soil under aerobic conditions with half-lives of 122-128 and 308-342 days in sandy loam (1.7% organic matter and pH 7.8 at 25°C) and sand (3.3% organic matter and pH 6.1 at 25°C), respectively. The metabolite under these conditions is 5-amino-3-cyano-1-(2,6-dichloro-4-trifluoromethylphenyl)-4-trifluoromethanesulfonfyl/pyrazole.

BIOACCUMULATION POTENTIAL:
The bioaccumulation potential of this product has not been determined.

MOBILITY:
The mobility of this product (in soil and water) has not been determined.

SECTION 13: DISPOSAL CONSIDERATIONS

Pesticide wastes can be acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance.

WASTE NUMBER AND DESCRIPTION: Not Applicable, not regulated.

DISPOSAL CONSIDERATIONS: This product is not a RCRA hazardous waste and can be disposed of in accordance with federal, state and local regulations.

SECTION 14: TRANSPORT INFORMATION

GROUND TRANSPORT
DOT Hazard Class: Not regulated
DOT Proper Shipping Name: Insecticide, non-toxic, solid – Not Restricted.
UN/NA Number: Not applicable
Packing Group: Not applicable
Shipping Label Information: Not applicable

AIR TRANSPORT (ICAO/IATA)
ICAO/IATA Hazard Class: Not regulated

MARINE TRANSPORT (IMDG/IMO)
IMDG/IMO Hazard Class: Not regulated
SECTION 15: REGULATORY INFORMATION

UNITED STATES:
OSHA HAZARD COMMUNICATION RULE, 29 CFR 1910.1200:
The Occupational Safety and Health Administration requires Material Safety Data Sheets to provide any hazards that may be associated with the product, and make this information available in the workplace. Since the use pattern and exposure in the workplace are generally not consistent with those experienced by consumers, this MSDS may contain additional health hazard information not pertinent to consumer use.

EPA - SARA TITLE III SECTION 313: Not applicable - Consumer product.

EPA CERCLA/SARA TITLE III SUPERFUND AMENDMENT AND REAUTHORIZATION ACT:
This product contains no CERCLA/SARA Title III materials.

TSCA: This product is a registered pesticide and is exempted from listing on the U.S. Toxic Substances Control Act (TSCA) chemical substance inventory.

FIFRA: EPA Registration Number 64240-42
EPA Establishment Number 071106-GA-001

STATE REGULATIONS
CALIFORNIA PROPOSITION 65: This product does not contain substances listed under California Proposition 65.

CANADA:
This product is not registered for sale or distribution in Canada.
